Secretary to the Government of Bengal (Offg.).

Draft Rules.

1. Every vessel passing through the line of navigation known as the Madaripur Bhil Channel shall stop at the prescribed toll stations notified in the Schedule attached for the purpose of assessment, or check, of toll charges.

2. For the purposes of these rules, vessels other than rafts, timbers, bamboos or other floating material shall be divided into two classes as below:—

Class I—To include all vessels of the usual native types of build.

Class II—To include all steamers, flats and barges, and such other square built boats as should, in the opinion of the Collector of Tolls, be included.

3. The net tonnage of every vessel of Class I, whether laden or empty, shall, for the purposes of these rules, be determined by the following measurements:—

(A) The product of one-quarter the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel, multiplied by the interior greatest depth from the water-line to the bottom of the vessel, is to be taken as equal to the number of maunds upon which toll shall be levied.

(B) The measurement of the length is to be made in feet, rejecting inches; the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting portions of less than a quarter of a foot.

(C) The maundage on which tollage shall be charged shall be a simple multiple of 12½ maunds, rejecting any remainder by which the maundage, calculated as above, may exceed such simple multiple.

4. For vessels in Class II the tonnage shall be determined as follows:—

The tonnage of steamers shall be the registered tonnage as given in the certificate of the survey of the steamer.

Toll shall be levied on the actual weight of cargo on steamers, flats, barges and other vessels included in this class, as declared in the manifests.

When the registered tonnage of a steamer or the manifest for cargo of a flat is not available, the tonnage will be taken as arrived at under rule 3.

For square built boats the total maundage, as determined under rules for Class I, shall be increased by half, and for steamers one-third of the total maundage shall be deducted for engine space.

5. Every vessel except as exempted under rule 10 shall be furnished at the toll station of entry with a ticket on which the name of the serang, manjhi or other person in charge of the vessel, the date of entry, the maundage of the vessel, the nature and weight of the cargo it contains, the amount of toll charged and the number of days for which the ticket will remain current, shall be entered.

6. This ticket may be demanded and checked by any Navigation Officer while the vessel is within the toll-limits of the Bhil Channel and must be kept on board and at hand for that purpose. The ticket must be given up at the exit toll station. If the ticket is not produced on demand by a Canal Officer, such officer shall assess the amount of toll payable and the vessel will be liable to seizure and detention under the provisions of section 9 of the Act until such sum is realised.

7. Vessels leaving the channel between two toll stations shall obtain a permit for so doing in Form No. 1 from the Toll Collector of the toll station of entry. In such cases the Toll Collector will issue a ticket in the usual form and also collect the same before the vessel is permitted to proceed.

8. A vessel, which has been detained under these rules or under section 9 of the Act, may not be removed from the channel without the order of the Collector of Tolls until the toll due has been paid. During such detention the manjhi, owner or agent must make arrangements for the safety of the vessel and cargo.

9. All tolls are payable on demand and shall be paid at the toll station before a vessel is permitted to proceed. Provided that the Collector of Tolls appointed under section 8 of the Act may, at his discretion, permit vessels belonging to individuals or firms of recognised standing to proceed without prepayment, on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

10. (*i*) In the case of steamers and flats falling under the latter portion of rule 9 a copy of the traffic manifest must be handed in at the exit toll station, a receipt for which in Form No. 2 will be issued by the Toll Collector to the person in charge of the vessel; in such cases no ticket in the usual form will be issued. If the traffic manifest is not produced at the exit toll station the procedure as laid down in rules 6 and 8 will be adopted.

(*ii*) The traffic manifest or the receipt for the same may be demanded by any Navigation Officer while the vessel is within the limits of the Bhil Channels between the Manickdah entrance and Charmaguria.

11. The term "Navigation Officer" as used in rule 6 shall include the Collector of Tolls appointed under section 8 of the Act, and the officer, or the subordinate duly authorised by such officer of the Irrigation Department in charge of the subdivision or section within which the channel is situated.

12. Duplicates of lost tickets will be granted by the Toll Collector who originally issued the tickets on payment of a fee of one-fourth of the amount of toll payable, subject to a maximum of one rupee and eight annas and a minimum of eight annas. The duplicate will be issued only when the Toll Collector is satisfied concerning the identity of the boat.

13. No person shall wilfully or negligently allow a vessel to sink in the channel.

14. (*i*) In every case of a sunken vessel, whether due to negligence or otherwise, the Supervisor and his subordinates shall offer every assistance in removing the same.

(*ii*) If, three days after the occurrence of a wreck, it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the Supervisor and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner, provided that when the wreck obstructs the fairway they shall take action at once to remove the same.

15. When a sunken vessel has been recovered, the Supervisor shall cause notices to be posted at the toll offices, or other prominent places, calling on those concerned to pay the Collector of Tolls all toll or demurrage which may be due, as well as the expenses incurred in the recovery of the vessel and cargo. Should the sum due be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold under the procedure directed in section 9 of the Act.

16. The purchaser of a vessel sold under the provisions of section 9 of the Act shall have the right to take it out of the channel on the day of purchase, or within such time as may be allowed by the Collector of Tolls, without payment of tolls.

17. When any laden vessel, which has sunk, has been recovered, or when any laden vessel has been seized under the provisions of the Act or of these rules, the Supervisor shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay, and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

18. If the Supervisor be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in rule 16, shall be effected by a notice exhibited in his office, and by advertisement in at least one English and one vernacular Calcutta and local newspaper.

19. *Lights and signals.*—All vessels, whether travelling or moored in the channel, between sunset and sunrise, must carry a white light in a lantern on the fore-part of the vessel where it can be distinctly seen from all sides. Barges or boats attached to a steam-vessel, whether in motion or moored, shall carry the light prescribed in the first paragraph of this rule. This rule does not apply to small uncovered dinghis not exceeding 10 cubits in length while moored along the bank.

No. F-113-III/24.—The following resolution by the Secretary of State for India in Council dated the 8th November 1927, as amended by his subsequent resolution dated the 10th January 1928, is published for general information :—

RESOLUTION.

In exercise of the powers conferred by sub-section (*2*) of section 96B of the Government of India Act, the Secretary of State, with the concurrence of the majority of votes at a meeting of the Council of India, held this 8th day of November 1927, hereby makes the following rules under the said section to regulate the calculation of the pay of officers of a Provincial Police Service promoted to the Indian Police Service or to officiate in posts borne on the cadre of that Service :—

1. In these rules—

(i) "Provincial Service" means a Provincial Police Service.

(ii) "Promoted officer" includes—

(*a*) an officer promoted from a Provincial Service to the Indian Police Service ; and

(*b*) an officer of a Provincial Service officiating in a post borne on the cadre of the Indian Police Service.

(iii) "Actual pay" means the pay to which an officer of the Provincial Service is entitled under the time-scale or in the selection grade of the Provincial Service, as the case may be, by virtue of his substantive position in the cadre of that Service.

(iv) "Assumed pay" means the pay which an officer in the selection grade of a Provincial Service would be drawing under the time-scale of that Service, if he had not been promoted to the selection grade.

(v) "Junior time-scale" and "senior time-scale" mean the junior time-scale and senior time-scale, respectively, of the Indian Police Service.

2. (*a*) The initial basic pay of a promoted officer appointed to a post on the junior time-scale shall, on each occasion of his promotion, be fixed on the junior time-scale at the stage next above his actual pay, if he is not in the selection grade, or his assumed pay if he is in that grade, or if his actual or assumed pay, as the case may be, is equal to, or higher than, the maximum of the junior time-scale, then at the maximum of that scale ; the initial basic pay of a promoted officer appointed to a post on the senior time-scale shall on each occasion of such promotion, be fixed at the stage of the senior time-scale corresponding with the stage on the junior time-scale at which it would have been fixed under

this rule if the officer had been appointed to a post on that time-scale ; and in either case he shall draw thereafter increments on the inferior or superior time-scale as the case may be :

Provided that the basic pay of such an officer as so calculated shall at no time exceed the pay which he would be receiving under the junior or senior time-scale, as the case may be, if all his service in the Provincial Service together with one-half of his non-gazetted Government service, if any, had been service in the Indian Police Service.

(*b*) If and so long as the basic pay of a promoted officer as calculated in clause (*a*) is less than his actual pay as at the date of his promotion he shall draw personal pay equal to the amount of the deficiency.

(*c*) If and so long as the basic pay, together with any personal pay under clause (*b*), of a promoted officer holding a post on the senior time-scale does not exceed his actual pay as at the date of his promotion by Rs. 175 a month, he shall, subject to the limit laid down in the proviso to clause (*a*), draw personal pay equal to the amount of the deficiency.

(*d*) If and so long as the pay, as calculated under the previous clauses of this rule, of a promoted officer who has previously officiated in a post borne on the cadre of the Indian Police Service is less than the pay which he drew when last officiating, he shall draw personal pay equal to the amount of the deficiency.

3. If the actual or assumed pay of a promoted officer is enhanced while he is officiating in a post borne on the cadre of the Indian Police Service, his pay shall be recalculated in accordance with these rules as though he had been promoted on the date of enhancement.

4. Increments of pay on the time-scale of the Indian Police Service shall be granted to a promoted officer only on completion of a full year's service at any stage of that scale, but for the purpose of calculating one year's service at a given rate of pay, broken periods of officiating service at that rate shall be taken into account.

5. These rules shall apply to all officers promoted after the 8th day of November 1927 ; but officers promoted prior to that date may elect to have their pay revised in accordance with these rules with effect from the 8th day of November 1927.

ORDERED that the Resolution be published in the *Gazette of India*.

AMENDMENTS TO THE STUDY LEAVE RULES PRESCRIBED BY THE SECRETARY OF STATE IN COUNCIL UNDER FUNDAMENTAL RULE 84.

1. The following shall be added at the end of Rule 5 :—

"If the course of study is in Europe or America, the Head of the Department should also forward to the Secretary to the High Commissioner for India, General Department, a copy of the approved programme of study. If it is not possible for the Government servant to give full details, as above, in his original application, or if, after leaving India, he wishes to make any changes in the programme which has been approved in India, he should submit particulars as soon as possible to the Secretary to the High Commissioner for India, General Department. In such cases, he should not, unless prepared to do so at his own risk, commence the course of study, nor incur any expenses in connection therewith, until he receives approval to the course through the High Commissioner."

2. The following shall be substituted for Rule 6 :—

"Government servants on leave in Europe or America who wish to convert part of the leave into study leave or to undertake a course of study during leave, should, before commencing study and before incurring any expenses in connection therewith, submit a programme of their proposed course of study to the Secretary to the High Commissioner for India, General Department. The programme should be accompanied by an official syllabus of the course, if one is available, and by any documentary evidence that the particular course or examination has the approval of the authorities in India. In the absence of such evidence the programme may, if approved by the High Commissioner, be proceeded with, but no study leave allowance will be admissible until the concurrence of the authority concerned in India is received.

Similarly, Government servants on leave in the United Kingdom who desire to have it extended for purposes of study under these rules, should address the Secretary to the High Commissioner for India, but in addition to furnishing a statement of the proposed study they must support their applications with documentary evidence of their having obtained the approval of the authorities concerned in India to their applying for an extension of leave. They must also produce documentary evidence of the concurrence of the authority concerned in India to the grant of study leave and/or study allowance.

6A. No course of study will be recognised as qualifying for the grant of study allowance, or for study leave for any other purpose, unless it has been approved in at least broad outline by the sanctioning authority in India in accordance with rules 5 and 6 above, and unless, in cases where it has not been found possible to submit full particulars to the authorities in India, it has been approved in detail by the High Commissioner before it is begun."

NOTIFICATION.

Post-Graduate Research Scholarships to be awarded in 1928.

Three Post-Graduate scholarships will be awarded for the encouragement of original research to candidates who have high and special qualifications and appear to be likely to conduct original research with success. The value of each scholarship is Rs. 100 a month and each is tenable for a maximum period of three years.

2. Ordinarily one scholarship will be awarded annually to a student who proposes to carry on original research in scientific subjects, including such branches as natural and physical science, chemistry, mathematical science, etc., and another scholarship will similarly be awarded for research in literary subjects, including such branches as languages, comparative philology, palæography, epigraphy, philosophy, history, archæology, anthropology, etc., and the third scholarship will be awarded for research either in scientific or in literary subjects. No application for a research scholarship will be considered unless a candidate submits certificates showing that he has the capacity for undertaking the research proposed and a programme of work indicating a definite course of enquiry.

3. Election will be made in the first instance for one year only, with effect from the 1st July 1928, but a scholarship may be renewed from year to year, up to the limit of three years, provided the scholar has throughout the year vigorously prosecuted original research in the subject selected by him.

4. Each candidate for a scholarship should submit his application, through the head of the institution in which he last studied, to the Director of Public Instruction, Bengal, on or before the 10th May next, and must produce evidence of having passed from a college or other institution in Bengal the M.A. or M.Sc. examination of the Calcutta or Dacca University or of having obtained some other equivalent or higher degree of either of these Universities in 1925 or 1926 or 1927. He must state as definitely as possible the subject or part of a subject in which he intends, if elected to a scholarship, to carry on his original investigation. He must also state the name of the institution in which he proposes to work, with evidence that the authorities of the institution are able and willing to provide facilities for him, or if no institution is mentioned, the circumstances or conditions under which he proposes to work should be stated.

5. Each candidate is required to submit with his application a declaration to the effect that, if selected, he will not study law or prepare himself for any competitive examination during the tenure of his scholarship.

6. Applications for this year's scholarships should be submitted in prescribed forms which are obtainable from the Personal Assistant to the Director of Public Instruction, Writers' Buildings, Calcutta.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

NOTIFICATION.

No. 868L., dated Calcutta, the 31st March, 1928.—The following report of the Select Committee on the Bengal Medical (Amendment) Bill, 1928, with the Bill as amended by the Committee, is hereby published for general information.

REPORT OF THE SELECT COMMITTEE ON THE BENGAL MEDICAL (AMENDMENT) BILL, 1928.

We, the undersigned members of the Select Committee, to which the Bill to amend the Bengal Medical Act, 1914, was referred, have considered the Bill and the papers noted at the end of this paragraph, and have the honour to submit this, our report, with the Bill as amended by us annexed hereto. In reprinting this Bill, all changes made by us have, so far as possible, been underlined.

Paper No. 1.

Letter No. 10—28—G, dated the 8th February, 1928, from the Honorary Secretary, Calcutta Medical Club.

Paper No. 2.

(*1*) Letter, dated the 28th February, 1928, from the President, Bengal Medical Association.

(*2*) Letter, dated the 28th February, 1928, from the Chairman, Public Meeting of the Medical Practitioners in Bengal, held on the 14th February, 1928.

2. *Clause 1, new sub-clause* (*2*).—It is probable that the proposed Act will be placed on the statute book about August, 1928, but the term of office of the members of the existing Bengal Council of Medical Registration will not expire until October, 1929.

Sub-clause (*2*) has therefore been added to clause 1 in order to prevent any interval elapsing between the date when the new Council is to commence its duties and the date when the functions of the old Council will cease.

Under this sub-clause the proposed Act will come into operation when it has been assented to by the Governor General and published in the *Calcutta Gazette*, but the old Council will continue to function until a date to be appointed by the Local Government and casual vacancies in that Council will be filled in accordance with the proposed section 10 in clause 5 of the Bill, and will terminate on the same date. It will be possible, when the proposed Act comes into operation, to proceed with the elections and nominations of the members of the new Council but they will not take effect until the expiration of the term of office of the members of the existing Council.

Clause 2.—(*1*) *Clause* (*a*) *of the proposed section 4.*—We considered the proposal that the President should be elected by the members of the Council instead of being nominated by the Local Government. This change would in our opinion be inexpedient. It is desirable that the Council should have at its disposal the services of the Surgeon-General with the Government of Bengal as an officer of great experience specially selected to superintend the work of all medical officers in Government service and to advise Government on medical matters. If he is to be a member of the Council, it is fitting that he, in virtue of his position, should preside over its deliberations.

(*2*) *Clause* (*d*) *of the proposed section 4.*—The word "permanently" has been deleted as there is really no such thing as permanent affiliation or recognition. Affiliation and recognition in the case of a medical college and of a medical school respectively depends on their efficiency as training institutions, and may be cancelled should the teaching be proved to be unsatisfactory.

A necessary reference has been made to the Dacca University.

(*3*) *Clause* (*e*) *of the proposed section 4.*—The word "permanently" has been deleted for similar reasons to those already mentioned in regard to the deletion of the word in clause (*d*) of the proposed section 4.

The licentiate standard referred to in clause (*e*) should in our opinion be the final standard, and the necessary alteration has accordingly been made.

(*4*) *Clauses* (*f*) *and* (*j*) *of the proposed section 4.*—We consider that the Railway Board is not a suitable electorate for a Medical Council, and we have therefore deleted clause (*j*); but in order to retain the same number of members of the Council as is proposed in the Bill, we have added a member to the members referred to in clause (*f*).

(*5*) *Proviso to the proposed section 4.*—It is essential in our view that the two members to be elected under this proviso by registered practitioners practising outside Calcutta should be of the same category, and the necessary change has been made.

Clause 3.—The alteration made is merely consequential.

Clause 9, proposed section 19 (2).—The words " to enable them to judge of the efficiency of the institution " have been struck out as being unnecessary.

Clause 11.—A consequential alteration has also been made in this clause.

3. The Bill was published in English in the *Calcutta Gazette Extraordinary* of the 26th January, 1928.

4. We do not consider that the Bill has been so altered as to require republication.

5. We recommend that the Bill, as amended by us, be passed.

(*j*) [omitted.]

Provided that, of the members to be elected under clause (*f*) or clause (*h*), one member shall in each case be elected by and from among registered practitioners practising outside Calcutta."

Amendment of section 6.

4. The proviso to section 6 of the said Act is hereby repealed.

New section for section 10

5. For section 10 of the said Act, the following section shall be substituted, namely:—

Filling of casual vacancies.

"**10.** When the place of a nominated or elected member of the Council becomes vacant by his resignation or death or by his ceasing to be a member as provided in sub-section (*1*) of section 9, a new member shall be nominated or elected within one month in the manner provided by section 4, and shall hold office so long as the member whose place he fills would have been entitled to hold office if such vacancy had not occurred:

[*Cf.* Ben. Act V of 1919, s. 13.]

Provided that no act of the Council or of its members shall be deemed to be invalid by reason only that the number of members of the Council at the time of the performance of such act was less than the number provided by section 4."

PART VI.

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 9th February, 1928:—

LEGISLATIVE ASSEMBLY BILL NO. II OF 1928.

A Bill to provide for the abolition of the deferred rebates in the Coasting Trade of India.

WHEREAS it is expedient to provide for the growth of an Indian Merchant Marine by guaranteeing fair and healthy competition and by checking monopolies ;

AND WHEREAS for this purpose it is expedient to provide for the abolition of the grant of deferred rebates or resort to retaliatory or discriminating practices by common carriers by water engaged in the coasting trade of India ;

It is hereby enacted as follows :—

Short title, extent and commencement.

1. (*1*) This Act may be called the Abolition of Deferred Rebates Act, 192 .

(*2*) It extends to the whole of the Coasting Trade of British India and of the Continent of India.

(*3*) It shall come into force on such date as the Governor General in Council may, by notification in the Gazette of India, appoint.

Definitions.

2. In this Act, unless there is anything repugnant in the subject or context,—

(*1*) "a common carrier by water" means a common carrier engaged in the transportation by water of passengers or property between any two ports in British India or between any port in British India and any port or place in the Continent of India ;

(2) "deferred rebates" means a return of any portion of the freight money by a carrier to any shipper as a consideration for the giving of all or any portion of his shipments to the same or any other carrier or for any other purpose, the payment of which is deferred beyond the completion of the service for which it is paid, and is paid only if, either during the period for which computed or the period of deferment or both, the shipper has complied with the terms of the rebate agreement or arrangement;

(3) "a subject" means a person and includes a joint stock company, corporation, partnership or association existing under or authorised by the laws of British India or of the Dominions of princes and chiefs in alliance with His Majesty; and

(4) "the coasting trade of India" means the carriage by water of goods or passengers between any two ports in British India or between any port in British India and any port or place in the Continent of India.

Prohibition of deferred rebates and discriminating agreements.

3. No common carrier by water shall, directly or indirectly in respect of the coasting trade of India,—

(a) pay or allow or enter into any combination, agreement or understanding, express or implied, to pay or allow a deferred rebate to any shipper;

(b) retaliate against any shipper by refusing or threatening to refuse space accommodation when such is available, or resort to other discriminating or unfair methods, because such shipper has patronised any other carrier or has filed a complaint charging unfair treatment or for any other reason;

(c) make any unfair or unjustly discriminatory contract with any shipper based on the volume of freight carried or unfairly treat or unjustly discriminate against any shipper in the matter of—

(1) cargo space accommodation or other facilities, due regard being had for the proper loading of the vessel and the available tonnage, or

(2) the loading and landing of freight in proper condition, or

(3) the adjustment and settlement of claims.

Governor General in Council to decide whether deferred rebates or discriminating agreements have been resorted to.

4. The Governor General in Council, without prejudice to the right of parties to move the Courts, upon his own initiative may, or upon complaint, shall, after due notice to all parties in interest and hearing, determine whether any person, joint stock company, corporation or association engaged in the coasting trade of India,

(1) has violated any provision of section 3, or

(2) is a party to any combination, agreement or understanding, express or implied, that involves in respect to the coasting trade of India a resort to deferred rebates and retaliatory or discriminating practices designated in section 5.

Power to Governor General in Council to prohibit entry into ports.

5. If the Governor General in Council determines that any such person, joint stock company, corporation, partnership or association has violated any such provision or is a party to any such combination, agreement or understanding, he may thereafter refuse such person, joint stock company, corporation or association the right of entry for any common carrier, directly or indirectly under his or its control, into any port of British India until the Governor General in Council certifies that the violation has ceased or such combination, agreement or understanding has been terminated.

Common carrier to file copy of agreement with another common carrier.

6. Every common carrier shall file immediately with the Governor General in Council a true copy, or, if oral, a true and complete memorandum, of every agreement with another such carrier or modification or cancellation thereof, to which it may be a party or conform in whole or in part, fixing or regulating transportation rates or fares; giving or receiving special rates, accommodation, or other special privileges or advantages; controlling, regulating, preventing or destroying competition: pooling or apportioning earnings, losses or traffic; allotting ports or restricting or otherwise regulating the number and character of sailings between ports; limiting or regulating in any way the volume or character of freight or passenger traffic to be carried; or in any manner providing for an exclusive, preferential or co-operative arrangement.

Power to Governor General in Council to cancel or modify agreements.

7. The Governor General in Council may by order disapprove, cancel or modify any agreement or any modification or cancellation thereof, whether or not previously approved by him that he finds to be unjustly discriminatory or unfair as between carriers, shippers, exporters and importers or to operate to the detriment of the commerce of British India or to be in violation of the Act, shall approve all other agreements, modifications, or cancellations.

Penalties.

8. Whoever violates any provision of any section of this Act, or refuses or fails to carry out the orders of the Governor General in Council, shall be liable to a penalty of a fine of not less than ten thousand rupees, or simple imprisonment to a term of not less than six months, or both.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to remove some of the main obstacles that lie in the way of the development of an Indian Merchant Marine. They mainly consist of methods whereby a shipper is practically bound to confine all his shipments to vessels belonging to a particular shipping company or to the members of a shipping conference, and rate wars waged for stifling all competition by ruthless and unfair rate-cutting. Not merely is the freedom of the shipper to ship his goods by any vessel he may choose thus destroyed, but the progress of trade along desirable channels is also checked. A "disloyal" shipper is penalised by (*a*) refusal of space, (*b*) discrimination in the contract of freight, (*c*) the loading and landing of freight, (*d*) the adjustment and settlement of claims and various other discriminatory methods. It is the purpose of this Bill to do away with such practices so that an Indian Merchant Marine may grow unhampered.

[Fifth publication.]

No. 1 I.—*The 5th March 1928.*—The following draft of revised rules and rates of tolls for the line of navigation known as the Madaripur Bhil Channel and the Lower Kumar River as defined in Notification No. 128, dated the 26th June, 1900, and Notification No. 162, dated 22nd July, 1902, paragraphs 17 and 18, which in exercise of the powers conferred by sections 6 and 11 of the Canals Act, 1864 (Bengal Act V of 1864), the Governor in Council intends to make in supersession of all previous notifications on the subject, is hereby published for the information of persons likely to be affected thereby.

W. H. NELSON,

Secretary to the Government of Bengal (Offg.).

Draft Rules.

1. Every vessel passing through the line of navigation known as the Madaripur Bhil Channel shall stop at the prescribed toll stations notified in the Schedule attached for the purpose of assessment, or check, of toll charges.

2. For the purposes of these rules, vessels other than rafts, timbers, bamboos or other floating material shall be divided into two classes as below :—

Class I—To include all vessels of the usual native types of build.

Class II—To include all steamers, flats and barges, and such other square built boats as should, in the opinion of the Collector of Tolls, be included.

3. The net tonnage of every vessel of Class I, whether laden or empty, shall, for the purposes of these rules, be determined by the following measurements :—

(A) The product of one-quarter the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel, multiplied by the interior greatest depth from the water-line to the bottom of the vessel, is to be taken as equal to the number of maunds upon which toll shall be levied.

(B) The measurement of the length is to be made in feet, rejecting inches; the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting portions of less than a quarter of a foot.

(C) The maundage on which tollage shall be charged shall be a simple multiple of 12½ maunds, rejecting any remainder by which the maundage, calculated as above, may exceed such simple multiple.

4. For vessels in Class II the tonnage shall be determined as follows :—

The tonnage of steamers shall be the registered tonnage as given in the certificate of the survey of the steamer.

Toll shall be levied on the actual weight of cargo on steamers, flats, barges and other vessels included in this class, as declared in the manifests.

When the registered tonnage of a steamer or the manifest for cargo of a flat is not available, the tonnage will be taken as arrived at under rule 3.

For square built boats the total maundage, as determined under rules for Class I, shall be increased by half, and for steamers one-third of the total maundage shall be deducted for engine space.

5. Every vessel except as exempted under rule 10 shall be furnished at the toll station of entry with a ticket on which the name of the serang, manjhi or other person in charge of the vessel, the date of entry, the maundage of the vessel, the nature and weight of the cargo it contains, the amount of toll charged and the number of days for which the ticket will remain current, shall be entered.

6. This ticket may be demanded and checked by any Navigation Officer while the vessel is within the toll-limits of the Bhil Channel and must be kept on board and at hand for that purpose. The ticket must be given up at the exit toll station. If the ticket is not produced on demand by a Canal Officer, such officer shall assess the amount of toll payable and the vessel will be liable to seizure and detention under the provisions of section 9 of the Act until such sum is realised.

7. Vessels leaving the channel between two toll stations shall obtain a permit for so doing in Form No. 1 from the Toll Collector of the toll station of entry. In such cases the Toll Collector will issue a ticket in the usual form and also collect the same before the vessel is permitted to proceed.

8. A vessel, which has been detained under these rules or under section 9 of the Act, may not be removed from the channel without the order of the Collector of Tolls until the toll due has been paid. During such detention the manjhi, owner or agent must make arrangements for the safety of the vessel and cargo.

9. All tolls are payable on demand and shall be paid at the toll station before a vessel is permitted to proceed. Provided that the Collector of Tolls appointed under section 8 of the Act may, at his discretion, permit vessels belonging to individuals or firms of recognised standing to proceed without prepayment, on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

10. (*i*) In the case of steamers and flats falling under the latter portion of rule 9 a copy of the traffic manifest must be handed in at the exit toll station, a receipt for which in Form No. 2 will be issued by the Toll Collector to the person in charge of the vessel; in such cases no ticket in the usual form will be issued. If the traffic manifest is not produced at the exit toll station the procedure as laid down in rules 6 and 8 will be adopted.

(*ii*) The traffic manifest or the receipt for the same may be demanded by any Navigation Officer while the vessel is within the limits of the Bhil Channels between the Manickdah entrance and Charmaguria.

11. The term "Navigation Officer" as used in rule 6 shall include the Collector of Tolls appointed under section 8 of the Act, and the officer, or the subordinate duly authorised by such officer of the Irrigation Department in charge of the subdivision or section within which the channel is situated.

12. Duplicates of lost tickets will be granted by the Toll Collector who originally issued the tickets on payment of a fee of one-fourth of the amount of toll payable, subject to a maximum of one rupee and eight annas and a minimum of eight annas. The duplicate will be issued only when the Toll Collector is satisfied concerning the identity of the boat.

13. No person shall wilfully or negligently allow a vessel to sink in the channel.

14. (*i*) In every case of a sunken vessel, whether due to negligence or otherwise, the Supervisor and his subordinates shall offer every assistance in removing the same.

(*ii*) If, three days after the occurrence of a wreck, it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the Supervisor and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner, provided that when the wreck obstructs the fairway they shall take action at once to remove the same.

15. When a sunken vessel has been recovered, the Supervisor shall cause notices to be posted at the toll offices, or other prominent places, calling on those concerned to pay the Collector of Tolls all toll or demurrage which may be due, as well as the expenses incurred in the recovery of the vessel and cargo. Should the sum due be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold under the procedure directed in section 9 of the Act.

16. The purchaser of a vessel sold under the provisions of section 9 of the Act shall have the right to take it out of the channel on the day of purchase, or within such time as may be allowed by the Collector of Tolls, without payment of tolls.

17. When any laden vessel, which has sunk, has been recovered, or when any laden vessel has been seized under the provisions of the Act or of these rules, the Supervisor shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay, and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

18. If the Supervisor be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in rule 16, shall be effected by a notice exhibited in his office, and by advertisement in at least one English and one vernacular Calcutta and local newspaper.

19. *Lights and signals.*—All vessels, whether travelling or moored in the channel, between sunset and sunrise, must carry a white light in a lantern on the fore-part of the vessel where it can be distinctly seen from all sides. All steam-vessels in motion shall carry the lights prescribed by the Board of Trade Regulations. Barges or boats attached to a steam-vessel, whether in motion or moored, shall carry the light prescribed in the first paragraph of this rule. This rule does not apply to small uncovered dinghis not exceeding 10 cubits in length while moored along the bank.

20. Every vessel proceeding in the Madaripur Bhil Route and Lower Kumar river should limit her speed as follows:—

	Miles an hour.
From Haridaspore to Takerhat	8
From Takerhat to Char Muguria	6
While passing a dredger in the above channels ...	4

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 9th February 1928 :—

LEGISLATIVE ASSEMBLY BILL NO. 8 OF 1928.

A Bill to restrict the amount of interest recoverable from debtors.

WHEREAS it is expedient to restrict the amount of interest recoverable from debtors ; It is hereby enacted as follows :

Short title, extent and commencement.

1. (*1*) This Act may be called the Interest Restriction Act, 192 .

(*2*) It extends to the whole of British India, excepting the Presidency-towns and the Bombay Presidency.

(*3*) It shall come into force on the day of 192 .

Definitions.

2. In this Act, unless there is anything repugnant in the subject or context,—

(*a*) "debt" means a pecuniary obligation arising out of a contract, but does not include a pecuniary obligation arising from a breach of civil duty or obligation *quasi ex contractu* ;

(*b*) "creditor" means a person in whose favour a debt is due ; and

(*c*) "debtor" means a person from whom a debt is due.

Restriction of the amount payable as interest.

3. Notwithstanding anything to the contrary in the Usurious Loans Act, 1918, or section 74 of the Indian Contract Act, 1872, no creditor shall be entitled to interest exceeding the amount of the debt. X of 1918. IX of 1872.

Nothing in this section shall prevent a Court from granting interest under section 34 of the Code of Civil Procedure, 1908, or from granting interest to a mortgagee during the pendency of his suit. V of 1908.

STATEMENT OF OBJECTS AND REASONS.

To remove the evils arising out of usury the Usurious Loans Act was passed, but that the Act is not of much utility will be clear, when its provisions are compared with those of the Usury Act recently passed in South Africa, according to which up to £10, the money-lender may charge 30 per cent. For sums over £10 but under £25—20 per cent., between £25 and £50, 15 per cent., and for sums over £50 12 per cent. only.

The Bill is intended to refer to cases not provided for by the Usurious Loans Act by restricting the accumulation of interest to the amount of the principal and thus bring the law in the rest of British India in conformity with that prevailing in the Presidency-towns and the Bombay Presidency.

Professor Keith in an article recently published in the Journal of International Legislation has approved of the principle of *Dam-duppat*, and suggested that legislation on the lines of *Dam-duppat* should be undertaken throughout Europe in order to remove the evils arising out of usury. The Usurious Loans Act is of no avail in preventing the accumulation of interest as stated above.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 9th February, 1928 :—

LEGISLATIVE ASSEMBLY BILL NO. 9 OF 1928.

A Bill to amend the Hindu Law relating to exclusion from inheritance of certain classes of heirs, and to remove certain doubts.

WHEREAS it is expedient to amend the Hindu Law relating to exclusion from inheritance of certain classes of heirs, and to remove certain doubts ; It is hereby enacted as follows :—

Short title, extent and application.

1. (*1*) This Act may be called the Hindu Inheritance (Removal of Disabilities) Act, 192 .

(*2*) It extends to the whole of British India, including British Baluchistan and the Sonthal Parganas.

(*3*) It shall not apply to any person governed by the Dayabhaga School of Hindu Law.

Persons not to be excluded from inheritance or rights in joint-family property.

2. Notwithstanding any rule of Hindu Law or custom to the contrary, no person governed by the Hindu Law, other than a person who is and has been from birth a lunatic or idiot, shall be excluded from inheritance or from any right or share in joint-family property by reason only of any disease, deformity, or physical or mental defect.

Saving and exception.

3. Nothing contained in this Act shall affect any right which has accrued or any liability which has been incurred before the commencement thereof, or shall be deemed to confer upon any person any right in respect of any religious office or service or of the management of any religious or charitable trust which he would not have had if this Act had not been passed.

STATEMENT OF OBJECTS AND REASONS.

(1) This Bill is the revival of a similar Bill introduced by the late Mr. T. V. Seshagiri Ayyar in the first Assembly where it was passed on the 27th March, 1923. Its consideration in the Council of State was adjourned on the 19th July, 1923, till the next session, when no further action being taken, it lapsed.

(2) The Bill seeks to remove certain disabilities which exclude Hindu heirs from inheritance. These are congenital blindness, deafness and dumbness, congenital want of any limb or organ, lunacy and idiocy though not congenital or incurable, sanious or ulcerous leprosy, impotency or other incurable disease. These disqualifications owe their origin to the obvious reason that those who take no hand in fighting should take no hand in the estate. The old reason has disappeared but the old disability remains, though its propriety has been judicially doubted ; it being held that infirmities such as congenital leprosy (*Kayarabana* v. *Subbaraya* 25 M. L. J. 251) or lameness (*Venkata* v. *Purshottam* 25 M. 133), blindness (*Yellarajhulu* v. *Yellarajhulu* 37 M. L. J. 405) or a nasal tumour (*Subba* v. *Venkatarama* 26 M. L. J. 508) are no longer sufficient to disqualify a person from inheritance, though a person suffering from congenital insanity or imbecility and thus unfit to discharge the religious duties incumbent upon the heir, or for the ordinary intercourse of life stands upon a different footing. (Hindu Code, Second Ed., S. 244 and cases cited.)

The Bill is intended to remove from the law its obsolete and spent provisions, for which there is now no parallel elsewhere. They disfigure that law and make it harsh and unjust.

(3) It is hoped that the Assembly will reaffirm its previous decision, and thus give the other Chamber another opportunity to concur in a reform against which nothing reasonable has been or can be urged.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 9th February, 1928 :—

LEGISLATIVE ASSEMBLY BILL NO. 12 OF 1928.

A Bill further to amend the Indian Penal Code.

WHEREAS it is necessary to legalise Trade Unions ;

And whereas it is expedient to protect the members and office-bearers of such Trade Unions from criminal liability under section 120B of the Indian Penal Code : XLV of 1860.

And whereas it is necessary to protect from criminal liability any two or more persons acting together to do any act in contemplation of furtherance of a trade dispute or in restraint of trade ;

And whereas it is expedient further to amend the Indian Penal Code for the purposes hereinbefore appearing ; XLV of 1860.

It is hereby enacted as follows :—

Short title. 1. This Act may be called the Indian Penal Code (Amendment) Act, 192 .

Amendment of section 43, Act XLV of 1860. 2. To section 43 of the Indian Penal Code the following proviso shall be added, namely :— XLV of 1860.

"Provided that nothing is illegal if done or procured to be done by two or more persons in contemplation or furtherance of a trade dispute or in restraint of trade, unless it be an offence when committed by one person."

STATEMENT OF OBJECTS AND REASONS.

1. Trade Unions are now organised all the world over as a legitimate method of protecting and furthering the cause of labour. The Trade Unions Act of 1926 is only an instance of the recognition of this principle in India, though only to a limited extent. The said Act, however, protects only such of the Trade Unions, their members and office-bearers, as are "registered" under the said Act. It affords no protection to Trade Unions which are not registered.

2. In the infant state of the Trade Union movement in India and even afterwards some Trade Unions may not get themselves registered under the Act. It is, however, absolutely necessary to protect the members and office-bearers of such Trade Unions from the criminal liability for their acts done in contemplation or furtherance of a trade dispute or in restraint of trade. Moreover, under the present unorganised condition of labour in India there will be many cases when two or more persons may combine themselves without forming a Trade Union in futherance or for the protection of the interests of labour. The actions of such persons also require to be protected from the consequence of section 120B of the Indian Penal Code.

3. Under the existing criminal law, as contained in section 120B of the Indian Penal Code, an agreement between two or more persons to do an illegal act is an offence. The word illegal as defined in section 43 of the Indian Penal Code includes *inter alia* anything which affords a ground for civil action. And an act done by two or more persons in contemplation or futherance of a trade dispute or in restraint of trade may afford a ground for civil action and thereby would be "illegal" and would come under the criminal conspiracy as defined in section 120B of the Indian Penal Code. Such an act was not considered to be an offence before the Indian Penal Code was amended in 1913. Further such an act is not an offence under the English law. It is true that under section 196A of the Criminal Procedure Code the previous complaint of authority from the Governor General in Council, the Local Government or some officer empowered by the Governor General in Council is necessary to start the prosecution. But it cannot be denied that under some circumstances it may become difficult for the authorities giving sanction for prosecution to resist the pressure brought to bear upon them by influential employers. Moreover, in this country Government themselves are large employers of labour.

4. It is, therefore, necessary for the protection of the members and office-bearers of unregistered Trade Unions and unorganised workers to amend the existing criminal law and to bring it into line with the English law and with the Indian Criminal Law as it stood before 1913.

5. This object is sought to be achieved by modifying the definition of the term "illegal" by adding a proviso to it at the end of section 43 of the Indian Penal Code as given in clause 2 of the Bill.

DEPARTMENT OF AGRICULTURE, BENGAL.

Forecast of the *Rabi* crops of Bengal for 1927-28.

(*Note.*—On an average of the five years ending 1925-26, the area under summer rice in Bengal has represented some 0·5 per cent. of the total area under rice in British India.)

Character of the season.—The rainfall during the latter part of the monsoon period was sufficient for cultivation and for sowings of the early spring crops in East and parts of North Bengal districts. Elsewhere the weather was generally unfavourable throughout. Lack of adequate soil moisture since the latter part of October somewhat affected the growth of early crops, but rainfall in the end of January improved the prospects of late crops. Some showers at the time of writing would be beneficial to transplanted summer rice.

Acreage.—The normal area under the different *rabi* crops dealt with in this forecast is estimated at 3,024,500 acres. The area actually sown this year is reported to be 2,607,300 acres as against 2,753,300 acres last year. Of this, the area under summer (*boro*) rice is returned at 399,700 acres as against 408,200 acres last year and that under tobacco is 290,300 acres as against 295,200 acres last year.

Outturn.—According to District Officers' estimates the outturn of the different *rabi* crops for the Province as a whole works out to 75 per cent. of the normal as against 77 per cent. last year, the returns for the more important *rabi* districts being as follows :—

Rajshahi 53, Jalpaiguri 93, Rangpur 100, Pabna 83, Malda 58, Dacca 68, Mymensingh 80, Faridpur 72, Bakarganj 82, Tippera 54, Noakhali 80, Nadia 27, Murshidabad 51, Jessore 50, Khulna 82, Burdwan 50 and Midnapore 75.

Summer rice and tobacco crops.—The outturn of summer rice according to district estimates is 78 per cent. of the normal as against 72 per cent. last year. The gross yield of the crop for the Province on a basis of the normal yield of 14 maunds of clean grain per acre is estimated at 160,300 tons this year as against 151,200 tons last year.

The outturn of tobacco crop is estimated at 92 per cent. of the normal as against 93 per cent. last year. Taking 12½ maunds as the normal yield of the crop per acre the gross yield of the crop for the Province this year is estimated at 120,200 tons.

RESOLUTION ON THE REPORTS FROM THE COMMISSIONERS OF DIVISIONS ON THE WORKING OF MUNICIPALITIES IN THE BENGAL PRESIDENCY (EXCEPT CALCUTTA, DURING THE YEAR 1926-27.

GOVERNMENT OF BENGAL.

Local Self-Government Department.

CALCUTTA, THE 3rd APRIL, 1928.

RESOLUTION—No. 1103 M.

Minister-in-charge: The Hon'ble Sir P. C. Mitter, Kt., C.I.E.

Reports from the Commissioners of Divisions on the working of municipalities in the Bengal Presidency (except Calcutta) during the year 1926-27.

READ ALSO—

Reports on the working of the Local Audit Department for the year 1925-26.

1. **Number of Municipalities.**—The number of municipalities was the same, *viz.*, 115, as in the preceding year. A new municipality was established at Gouripur in the Sadar subdivision of the Mymensingh district, with effect from the 1st January, 1927, but the municipal board was not formed during the year under report. The boundaries of the Rajbari Municipality were revised by the exclusion of rural areas, which has made the municipality more compact. There were also alterations in the boundaries of 4 other municipalities, *viz.*, Krishnagar, Patuakhali, Chittagong and Kurseong.

2. **Elections.**—General elections were held in 12 municipalities and most of the seats were hotly contested. In the small town of Taki about 84 per cent. of the voters attended the polling station, and the contest in Naihati for 5 wards out of 6 was so keen that police arrangements had to be made to maintain order. The general election due at Patuakhali could not be held during the year pending the question of exclusion of a portion of the municipal area and redistribution of wards and elected commissioners. Civil suits were instituted in no less than 6 municipalities, *viz.*, Katwa, Narayanganj, Chittagong, Noakhali, Chandpur and Pabna and fresh elections had to be held in Narayanganj and in ward No. II of the Katwa Municipality, owing to original elections having been declared void by the civil court.

The appeal preferred before the High Court against the decision of the Additional District Judge of Dacca, upholding the legality of the election of the Dacca Municipality held in March, 1925, has been decided in favour of the municipality.

3. **Meetings.**—Out of 2,334 meetings held during the year, 152 proved abortive for want of a quorum and 223 were adjourned, against 153 and 199, respectively, in the preceding year. The failure was most marked at Ghatal, Kotchandpur and Bhola, where 7 out of 29, 8 out of 26 and 14 out of 28 meetings, respectively, proved abortive. At Budge Budge and Maheshpur nearly half, and at Baduria, Basirhat and Santipur more than one-third, of the meetings held were unsuccessful. Sherpur and Tollyganj held the largest number of meetings, *viz.*, 48 and 38, respectively. On the other hand, the commissioners of Dainhat, Midnapore, Ramjibanpur, Kanchrapara, Gobardanga, Meherpur, Satkhira and Narayanganj failed to meet once a month. The average percentage of attendance was highest in Tamluk (83·3) and lowest in Bhola (33·3).

4. **Number of rate-payers.**—The total number of rate-payers rose from 321,819 to 324,917, the percentage to total population being 16·11. The percentage was highest in Kumarkhali (42·6) and lowest in Titagarh (3·2), a mill town with a large cooly population. There was an appreciable increase in the number of rate-payers in Chittagong, due to the inclusion of certain areas within the municipal limits. Other towns in which rates are paid by less than one-tenth of the population are the riparian mill municipalities, Naihati, Bhatpara, Garulia, Budge Budge and Narayanganj towns with a floating population of factory operatives who pay no rates themselves.

5. **Assessment and Taxation.**—The average incidence of taxation per head of population rose from Rs. 3-1-5 to

Rs. 3-3-9. It was highest in the hill municipality of Darjeeling (Rs. 10-11-1). Next come Kurseong (Rs. 9-0-5)—another hill municipality—Howrah (Rs. 9-0-5) and Chittagong (Rs. 5-7-1). In 9 other towns, *viz.*, Burdwan, Hooghly-Chinsura, Krishnagar, Berhampore, Jessore, Dacca, Narayanganj, Mymensingh and Uttarpara, the ratio was above Rs. 4. In the last-named town the comparatively high incidence is due to the imposition of lighting rate (electric light) at 1½ per cent. on the annual value of holdings, which has increased the municipal income by more than Rs. 2,000 per annum. In Debhatta and Bajitpur the ratio is as low as 6½ annas and 7¼ annas and in 22 municipalities it is from 8 annas to one rupee. Generally speaking the incidence of municipal taxation in the Presidency as a whole is low, but this is due partly to the inclusion in the list of municipalities of many places which are more rural than urban. Income from municipal rates and taxes has, however, risen from Rs. 60⅔ lakhs in 1924-25 to more than 64⅓ lakhs.

A general or partial revision of assessment was made in 85 municipalities. The revision effected an increase of Rs. 1,20,470 in the municipal demand of the Presidency as a whole. The largest increase, *viz.*, Rs. 17,551, was obtained in the South Suburban Municipality. Chittagong also got an annual income of Rs. 12,200 by extending its limits. On the other hand, Asansol suffered a loss of Rs. 9,467, owing to an amicable settlement with the East Indian Railway with regard to the assessment of railway holdings and to the reduction in the scale of latrine fees, and South Dum-Dum Rs. 3,370, partly from the reduction of percentage of house tax on Government and public buildings and partly from the diminution of the value of holdings owing to the abolition of the Ammunition Factory and withdrawal of the military garrison from Dum-Dum.

6. **Collections.**—The total collections for the Presidency as a whole rose from Rs. 60¼ lakhs to Rs. 62⅔ lakhs, the percentage of collections on the current demand also rising from 94·3 to 95·6. The collections were very satisfactory in 24 municipalities, where the realisation was either equal to, or in excess of, the current demand and in 6 others they were over 99 per cent. On the other hand, the ratio was under 80 per cent.—a deplorably low figure in 5 towns, falling as low as 74·1 per cent. in South Dum-Dum. The low percentage in South Dum-Dum is due to non-realisation of taxes from several sources, such as the Eastern Bengal Railway, Messrs. Jessop and Co. and the Military and Public Works Departments of Government. As in the previous year, Gurulia collected cent. per cent. of the demand without any remission. Nalchiti also did the same with a remission of Rs. 9 only. Titagarh and Champdany also collected practically their whole demand granting less than one-half per cent. remission and leaving no outstanding balances. In these towns, however, the bulk of the taxes is paid by the mills, leaving a small percentage to be collected in the ordinary way.

The total remissions, both arrear and current, for the province as a whole amounted to Rs. 2,57,082 and represented 3·9 per cent. of the current demand. The small municipality of Debhatta remitted nearly one-third of its current demand, Bhadreswar and Rajbari more than 20 per cent., while 4 others, *viz.*, Tollyganj, Jainagar, Katwa and Pabna remitted more than 12 per cent. Except in the case of Bhadreswar, where it is stated that at the last general revision a large remission was granted by the Appeal Committee, no explanations have been given for the large remissions in other towns, but they are not far to seek. Large remissions are the logical sequence of careless and illegal assessment, inefficient collection and reluctance to enforce the summary procedure provided in the Bengal Municipal Act.

The following are some of the glaring instances of irregular remissions granted by the municipal commissioners which were noticed by the Examiner of Local Accounts in his report on the working of the Local Audit Department during the year 1925-26 :—

(*i*) Latrine tax was remitted on the ground of poverty in Jalpaiguri, Midnapore, Vishnupur and Suri municipalities.

(*ii*) In Jalpaiguri remissions were given for vacant and demolished holdings, not on the report of the ward commissioners, after personal enquiry, but simply on the report of the tax-daroga.

(*iii*) In Katwa and Bankura vacancy remissions were granted with retrospective effect, although no notice of vacancy under section 110 of the Bengal Municipal Act was received, and in Barrackpore remissions were granted on the report of the collecting sarkars, though the owners had not sent in notices of vacancy.

(*iv*) In Midnapore valuations of holdings were reduced during the currency of assessment and again for a second time against the decision of the Appeal Committee.

(*v*) In Jangipur latrine taxes were remitted when the holding was not in good order, taxes were remitted when the occupants left the place on transfer and full remission of the latrine taxes was given for vacant holdings.

(*vi*) In Nator remission was given for voluntary demolition of buildings.

The balances outstanding at the close of the year rose from Rs. 14¾ lakhs to nearly Rs. 15¼ lakhs, of which Howrah alone was responsible for more than Rs. 5½ lakhs. Other municipalities which had unduly large balances outstanding were Dacca, Mymensingh, Bally, Hooghly-Chinsura, Barisal, Santipur, Tollyganj, Bankura, South Dum-Dum and Sirajganj. The reason for the heavy balance in South Dum-Dum has already been stated. In Dacca the riots after the *Janmastami* procession unfortunately caused a temporary set-back. However, the collections were Rs. 4,88,380 as against Rs. 3,81,435 in the previous year. The Commissioner observes: "Provided that the appeal against the assessment now before the Privy Council is unsuccessful, there are good prospects of improvement in its financial position." There was also a decided improvement in the total collections in Bally, which amounted to Rs. 75,026 as against Rs. 53,289 in the preceding year. "They would have improved further, but the adoption of a definite and progressive policy is hampered by the existence of party factions, and by the fact that the municipal commissioners have practically split up the municipality into two separate municipalities by delegating almost autonomous powers to the two ward committees under section 53 of the Bengal Municipal Act and leaving little power of administrative control and co-ordination with the Chairman as representing the central body."

The poor collection in Santipur was due to party faction. As regards the collection in Hooghly-Chinsura the Magistrate writes that the present Board claims to have made a very determined effort to collect arrears but their success has been little, if anything, better than that of their predecessors. In other cases no explanation has been given, but generally speaking the heavy arrears are due to laxity on the part of the municipal executive in taking legal steps for the realisation of taxes, as provided in the Act. The District Magistrate makes the following observations with regard to the Bankura Municipality:—

> The Bankura Municipality, in which there was an outstanding balance of over Rs. 22,000, took little coercive steps to realise arrears and the commissioners seem rather afraid to adopt the summary procedure allowed under the Act, evidently not to displease their constituencies. They like to take recourse to civil suits and although they obtained decrees for Rs. 5,644 for arrears outstanding on 30th June, 1926, a sum of Rs. 4,056 remained unsatisfied on the 31st March, 1927. The municipality also seems anxious to dispose of land by sale for the sake of revenue rather than make real attempt to realise outstanding balances.

The Minister desires to invite the attention of all municipalities to the following remarks, with which he entirely agrees, made by Mr. Blandy, Magistrate of Bakarganj:—

> Government will have some justification in looking askance at requests for financial assistance as long as the commissioners persist in refusing to look facts in the face and make no serious attempt to realise the very large sum which they have allowed to fall into arrears.

The Examiner of Local Accounts has again brought to the notice of Government that in Mymensingh, Dacca, Serampore, Rangpur, Burdwan, Bankura, Dinajpur, Santipur and a few other municipalities several commissioners, and in one instance the Chairman himself, took advantage of their position and did not pay their taxes promptly. The effect that such an example is likely to have on the general body of rate-payers is obvious. In this connection the Minister's attention has been called to the following extract from the resolution recorded by the Government of Bombay reviewing the working

of municipalities in that Presidency during 1925-26:—

> . . the number of municipal councillors in arrears of municipal dues has shown a steady increase during the past three or four years. . . . It is impossible to expect the ordinary citizens to pay their dues promptly when such a bad example is set to them by their own elected councillors. In order to bring such offenders to book, Government desire that in future the Collectors should report to the Commissioners the names of municipal councillors of the various municipalities who were in arrears in payment of their municipal dues at the close of the financial year under report, giving the amounts due and the dates from which they have been outstanding. The Commissioners should send a consolidated list for their Divisions to Government giving the names of the municipalities and the defaulters, the amounts due and dates from which they are outstanding. These details will then be published in a Press Note by Government with their remarks.

It is possible that similar action taken in Bengal might deter municipal commissioners from falling into arrears. The Minister considers that in a matter of this kind the main responsibility lies not with Government but with the electors. It is for the latter to keep themselves informed of the conduct of their representatives and to refuse their votes to those who shew so deplorable a lack of the civic spirit. The Minister may, however, be prepared to help them in forming a true estimate of the character of their representatives by publishing facts which might otherwise not come to their notice.

7. **Income and Expenditure.**—The total receipts, including opening balance, rose from Rs. 1,06,64,253 to Rs. 1,12,17,720. The total disbursements were Rs. 96,50,331 as against Rs. 88,72,440 in the year 1925-26.

8. **Closing Balance.**—The total balance at the close of the year amounted to nearly Rs. 16 lakhs as against Rs. 18 lakhs. The largest balances were held by Dacca (Rs. 2,24,810), Howrah (Rs. 1,72,250), Darjeeling (Rs. 79,978), and Bhatpara (Rs. 59,556). The large balance in Dacca includes uncashed cheques for Rs. 55,695 and Rs. 33,203, being the unspent balance of the Government grant for the sewerage scheme. So the actual closing balance was Rs. 1,35,912. No explanations have been furnished for the large balances held by Howrah and Darjeeling. In the latter case, however, the figure includes Rs. 22,129 on account of deposits. The major portion of the balance of Bhatpara represents funds for sewerage and water-supply schemes. On the other hand, a number of municipalities failed to keep adequate working balances and in several instances these were insufficient to meet outstanding liabilities. The closing balance of Debhatta was as small as Rs. 111, but it had no liability. In Sirajganj, Madaripur, Jamalpur and Jiaganj-Azimganj the outstanding liabilities largely exceeded the closing balance. The greatest offenders in this respect were Bhola and Barasat, which had outstanding liabilities of Rs. 2,718 and Rs. 4,186, respectively, against actual balance of Rs. 90 and Rs. 157 only, and Mymensingh and Hooghly-Chinsura, which closed the year with a balance of Rs. 9,885 and Rs. 11,647, but with liabilities exceeding Rs. 46,000. Bankura and Jhalakati had also outstanding liabilities of Rs. 9,124 and Rs. 5,685 against a cash balance of Rs. 969 and Rs. 735 only.

9. **Education.**—The total amount spent on education, including the Government grant of Rs. 87,405, rose from Rs. 3,81,324 to Rs. 4,46,699 and represented 5·3 per cent. of the municipal income. The expenditure on primary education also showed a corresponding increase of Rs. 42,000, which is contributed by all the Divisions, except Dacca and Rajshahi. The increase was most marked in Asansol, where the expenditure rose from Rs. 10,160 to Rs. 32,088 and is attributed to the construction of three primary school buildings during the year. Twenty municipalities or roughly 1 in 6 failed to spend 3·2 per cent. of their ordinary income, the percentage which is taken to represent the amount required for the education of half the number of boys of primary school-going age. On the other hand, the ratio was over 5 per cent. in 62 municipalities and over 10 per cent. in 20.

The municipal commissioners of Madaripur started 3 more primary schools on Mr. Biss's model making a total of 10 such schools for boys and also started a free primary school for girls. The recurring cost was estimated at Rs. 5,000 a year, of which Government sanctioned Rs. 2,088. A system of free voluntary primary education was introduced by the Comilla Municipality and the local Giridhari primary school was converted into a free school. The commissioners of the Garulia Municipality

accepted Mr. Biss's scheme of free primary education and decided to impose a nominal education cess at ½ per cent. to meet half the required expenses. On the other hand Rangpur took a most retrograde step in resolving to abolish the education cess from 1st April 1928. In Berhampore, where also the municipal commissioners decided to levy an education cess, a primary school building was constructed at Kasimbazar and a new middle English school for girls was started during the year. A sum of Rs. 2,000 was paid by the Burdwan Municipality to the municipal high English school for vocational training and Rs. 5,500 was kept earmarked for a middle English school for girls. The total expenditure of the Chittagong Municipality on education during the year amounted to Rs. 42,169. Of this, Rs. 26,962 was spent on the upkeep of a high English school and Rs. 12,347 on primary education, while the balance represented the amount of contribution to other educational institutions. The system of free voluntary primary education on the model of Mr. Biss's scheme introduced in this municipality proved a success. The introduction of free compulsory primary education is also under the contemplation of the municipal commissioners. With regard to the educational expenditure of this municipality the Divisional Commissioner remarks . --

> The Board deserves credit for its zeal for the cause of education, but possibly its efforts in this field have resulted in neglect of even more necessary services.

The Minister agrees that the municipal commissioners should not spend too large an amount on secondary education when this involves neglect of other important services, including primary teaching.

10. **Water-supply.**—Excluding Tollyganj and South Suburban which, as usual, were supplied with filtered water from the Calcutta mains and seven mill municipalities which got their supply from the local mill filters, there were 29 municipalities which have their own water-works. The Raniganj water-works were practically completed and water-rate was levied from the second quarter of the year. The Suri water-works are likely to be completed soon. In Naihati pipe-water was, as before, supplied by the Gouripur and Nuddea Companies. The larger scheme for a comprehensive supply to remote corners of the town has been taken up. No improvement has been possible in the supply of filtered water in Baranagore, on account of the limited supply received from the Baranagore Jute Factory Company. The municipality has, however, improved water-supply in some localities by means of deep tube-wells. The Panihati Anti-malarial Society is installing a water-supply in certain wards of the town with pipe lines from tube-wells, and the proposal that the municipality should take it over was under consideration. The scheme for the extension of water-supply on the east side of the river Lakshya in Narayanganj was sanctioned. Rajbari incurred an expenditure of Rs. 3,850 in extending its pipe-line, in putting in three new hydrants, in sinking a tube-well and in purchasing a new engine for the water-works. A scheme for the improvement of the water-supply in the town of Faridpur was sanctioned at a cost of Rs. 1,53,500, towards which Government promised a contribution of Rs. 53,100 and a loan of Rs. 40,000. The experimental boring of a tube-well as a part of the scheme for the supply of water to the northern section of the town of Chandpur having proved unsuccessful, the municipal commissioners have under their consideration a scheme for obtaining water from the Meghna river. As the water supplied through pipes from the Sonapur tank in Noakhali gives an offensive odour and is unfit for human consumption, the municipal commissioners have under their consideration a scheme for the improvement of water-supply. The machinery of the Comilla water-works went out of order and the supply of water stopped altogether from the beginning of April, 1927. To provide a temporary supply, one pump was repaired and a new engine was ordered. There was also a breakdown in the Krishnagar water-works in April, 1926, which resulted in the complete stoppage of water-supply for a week.

Municipalities, including even those in which filtered water-supply from pipes is provided, appear to be convinced of the usefulness of tube-wells as an original or supplementary source of supply, and are increasing the number of such wells. Thus Jessore is now being supplied with tube well water instead of filtered tank water. Five deep tube-wells were sunk in Rangpur and

four in South Dum-Dum. Tube-wells were also sunk in Ranaghat, Kumarkhali, Barrackpore and Basirhat. Birnagar, with its "Palli Mandali," continues to keep its tube-wells in order and carefully looks after the reserved tanks. On the other hand, some municipalities have done nothing: Nabadwip, the great pilgrimage centre, has no filtered water-supply and incurred no expenditure under this head.

11. **Conservancy.**—The expenditure under this head amounted to Rs. 22 lakhs, showing an increase of more than Rs. 1½ lakhs. This large increase, which was shared by all the Divisions, except Rajshahi and Chittagong, was due to various causes (*e.g.*, acquisition of land for new trenching-grounds, construction of methars' sheds, purchase of conservancy tools and implements, increase in the number and pay of the conservancy staff). In Dacca, where the expenditure rose from Rs. 1,44,000 to Rs. 1,69,000, the increase was due to the payment of outstanding bills of the previous year. The increase of Rs. 3,072 in Mymensingh was due to the purchase of a motor lorry for road watering, which has proved a success. A motor lorry was purchased by Kusthia also for carrying night-soil to the trenching-ground. The municipal commissioners of Asansol propose to provide quarters for their sweepers and land is being acquired for the purpose. It is reported that this will enable the municipality to recruit sweepers from outside to supplement the local sweepers, who are not only inadequate in number, but at times refractory. As usual, the conservancy charges were nearly Rs. 5 lakhs in excess of the receipts from latrine fees, which rose by only Rs. 82,000. The examiners' report on the working of Local Audit Department for the year 1925-26 shows that in no less than 29 municipalities the latrine fund closed with a debit balance. The deficit exceeds Rs. 5,000 in Burdwan, Hooghly-Chinsura, Rishra-Konnagar, Bally, Dacca and Comilla. All deficiencies were obviously made good out of the general fund. It is to be remembered that such calls on the general fund lead to a corresponding reduction in the amount available for expenditure on such vital services as Sanitation, Education and Medical. The Minister, therefore, desires to impress upon the municipal commissioners the importance for making each of the special funds (latrine, water service) self-supporting by raising the rates to the maximum permissible figure, where they have not yet reached that level, or by reducing the recurring charges. In several towns the problem of obtaining sweepers for conservancy is as acute as ever and some of the bigger municipalities are understaffed. Mr. Donovan, Magistrate of Hooghly, writes:—

> The filthy state of the town of Hooghly-Chinsura is not unconnected with the fact that the sweepers are underfed and badly housed. In the neighbouring mills the sweepers get double the pay they get from the municipality; so only weaker and inefficient men come to work under the municipality.

And Mr. Durno, Magistrate of Nadia, observes:—

> These people are brought from Bihar and the Central Provinces, but there are not nearly enough of them for the jobs. Krishnagar is understaffed in this respect, but failed to recruit any more sweepers. At Santipur there are only 73 sweepers for 138 jobs; jobs are double and so the pay of each man is double: with an inadequate number of sweepers the rate-payers find the work done very inadequately and complaints are numerous. The municipality is so alarmed at the prospect of losing any of its sweepers, that it keeps a hold on them by paying them their wages half a month after they have been earned; the sweepers naturally grumble at this and perform their work still more perfunctorily. . . . Birnagar, Chakdah and Meherpur employ one sweeper each.

It is certainly desirable that, as remarked by the Commissioner of the Presidency Division in his report of last year, municipalities should depend less on the human factor and should push on with sewerage schemes and the installation of septic tanks.

Supervision of the Conservancy Departments is one of the most important duties of Health Officers and Sanitary Inspectors, where there are such officers. The total charges on account of these officers amounted to Rs. 1,80,685 against Rs. 1,63,135 in the preceding year.

12. **Drainage.**—Out of the total capital expenditure of Rs. 3,53,461 under this head, Dacca alone contributed Rs. 2,56,055, the major portion of which was on account of its sewerage scheme. The total amount paid by Government for the Dacca sewerage scheme is Rs. 25,00,740, out of which Rs. 21,37,100 has been transferred to the Public Health Department, while

Rs. 3,30,437 has been spent on the acquisition of land, leaving an unspent balance of Rs. 33,203 of the grant on the 31st March, 1927. The Bhatpara sewerage and water-supply scheme has now materialised and will shortly be sanctioned by Government. A free gift of land for the sewerage scheme was expected from Mr. T. C. Goswami, but as this was not realised, the scheme had to be revised and the estimate of cost has increased from Rs. 18 lakhs to Rs. 21 lakhs, out of which, one-third, *viz.*, Rs. 7 lakhs, will be contributed by Government. The mill authorities have contributed generously towards this scheme and the Bhatpara Municipality has resolved to take a loan of Rs. 75,000 from Government. About three years will be required for the completion of the scheme. The partial drainage scheme of the Suri Municipality, at an estimated cost of Rs. 30,000 received the administrative approval of Government. It is reported that the septic tanks at Kurseong are working satisfactorily.

Minor drainage works were carried out in several municipalities. These are generally confined to construction of, and repairs to, culverts, etc.

13. **Public Health.**—As in the previous year, almost all the municipalities took steps to improve sanitation by filling up, clearing or disinfecting insanitary tanks, ditches and *dobas* and by removing undergrowth and abnoxious vegetation. The Champdany Municipality cleared more than half of its area of jungle by employing special gangs of coolies. The roadside lands in this municipailty and in Uttarpara were cleared periodically by the municipal coolies. In Bhatpara some 8 bighas of low lands were reclaimed and in Garulia low-lands and pits were filled up with coal cinders. Similar measures were also taken by several other municipalities. In North Dum-Dum, as a result of the propaganda of the local Public Health Societies, the people themselves attended to their own insanitary tanks. Three new tanks were excavated at Sherpur (Mymensingh) by private individuals.

Notices were issued in a certain number of municipalities upon owners for the clearance of insanitary tanks, *dobas* and rank vegetation, but municipal commissioners did not always insist on full compliance with the terms of the notices. Mr. Donovan, District Magistrate of Hooghly, remarks:—

> I think the municipalities do not properly exercise their powers under the law in respect of sanitation. Hundreds of notices under sections 195, 200 and 224 and other sections of the Bengal Municipal Act are issued and the returns show that most of these notices were complied with. But the places themselves show that these notices are never complied with. The fact of the matter appears to be that the standards of the municipalities are low and I fear that many an unreal compliance is too readily accepted as real.

Preventive measures were taken by a large number of municipalities to check the spread of epidemics. Medicines and disinfectants were freely distributed, tanks were reserved and special doctors appointed, where necessary. Cholera and small-pox broke out in several municipalities. People were warned against using the water of suspected tanks and wells, and advised to use boiled water; unwholesome food was kept out of the municipal market and inoculation with cholera vaccine was resorted to in some towns. In certain cases the Director of Public Health arranged for regular supply of lymph and anti-cholera vaccine and also deputed qualified doctors. The Mines Board of Health materially helped the Asansol Municipality in preventing epidemic diseases.

Free vaccination was provided by many municipalities and effective measures were taken to secure the vaccination and revaccination of children. Vaccination depôts were opened and permanent vaccinators were employed by some municipalities for the purpose. In Noakhali one temporary female vaccinator was appointed to attend to *pardanashin* females.

Malaria and kala-azar were prevelent in some municipalities. It is reported that some anti-malarial and kala-azar societies did useful work in co-operation with municipalities in combating these diseases. In many towns quinine and cinchona febrifuge were freely distributed. Free kala-azar centres were maintained by a number of municipalities. There were Health Exhibitions and Baby Shows in several places during the year under report. The Dacca Municipality contributes Rs. 1,200 annually to the Dacca Maternity and Child-Welfare Trust and the Chittagong Municipality makes a yearly contribution of Rs. 500 to the maternity fund, which is managed by a committee of which the Civil Surgeon is Secretary,

A midwife is maintained from this fund, who has to attend all delivery cases amongst the poorer sections of rate-payers free of charge. Government contributed Rs. 300 to this municipality for opening a class for the training of indigenous *dhais*. Twenty *dhais* were trained during the year.

Increasing interest was displayed by some municipalities in examining foodstuffs offered for sale to the public. In Dacca, for instance, 393 samples of different kinds of foodstuffs were sent up for analysis, of which nearly 38 per cent. was found to be adulterated. Prosecutions under the Bengal Food Adulteration Act were instituted in 135 cases, of which 75 ended in conviction. Four hundred and thirty-nine maunds of different kinds of unwholesome foodstuffs were destroyed by this municipality.

Measures were taken by certain municipalities to eradicate water-hyacinth. Thus, notices were issued by Baranagar, South Dum-Dum, Rajshahi, Rangpur and Pabna upon the owners of tanks and insanitary pits for the eradication of water-hyacinth, and they were complied with. In Nator the two branches of the Nator Raj, who are the owners of the large *dighis* of the town, placed funds at the disposal of the municipality to clear the water-hyacinth. The municipality took up the work and finished it successfully. The Bagjola khal was cleared of water-hyacinth by the Irrigation Department. Both Jessore and Kotchandpur spent money for the removal of the pest from the river Bhairab within their jurisdiction.

14. **Public Works.**—The total expenditure under the head rose from Rs. 10,87,101 to Rs. 11,84,052. The increase was noticeable under the subhead "Roads." Dacca alone was responsible for an increase of Rs. 23,978, which was due to the payment of a large number of outstanding bills of the previous year. There was also an increase of Rs. 17,854 in Tollyganj, due to the payment of arrear bills as well as to the repairing of several roads. The percentage of outlay on public works to the total expenditure varied from 1·3 in Jangipore to 41·3 in the small town of Meherpur.

The total length of metalled roads maintained by municipalities was 1,306 miles and that of unmetalled roads 1,577 miles. As is to be expected, the mileage of metalled roads is largest (72) in Howrah, while Krishnagar has the greatest mileage of unmetalled roads (77).

Complaints continue to be received regarding the damage done to municipal roads by motor vehicles; municipal commissioners not unnaturally make it a grievance that they have little power to control motor traffic and are not authorised to levy any special taxation on the owners of power-driven vehicles.

Reference was made in last year's resolution to a Bill empowering individual local authorities to tax the owners of motor vehicles; at the Select Committee stage, it was decided to substitute for this Bill a measure which would empower the local Government to tax the owners of such vehicles and to distribute the proceeds among local authorities. An Expert Committee was appointed to consider and report on the lines on which such legislation should be undertaken. The Committee recommended that the provincial tax on owners of motor vehicles should be on the same lines as the similar tax in force in the United Kingdom, various rates being charged in respect of different classes of vehicles. Before this recommendation could be considered by Government, an intimation was received that the Government of India had appointed a committee to consider the question of road development in India and, in particular, the means of financing such development and, at the suggestion of the Government of India, the local Government decided to hold over for the present consideration of the Expert Committee's report. The Road Development Committee appointed by the Government of India has not yet finished its labours and, although it is not possible to foresee what recommendations it will make and what action the Government of India will take on them, it is possible that the committee may recommend some form of special taxation, the proceeds of which will be available for financing road development, and that this recommendation may be accepted. It may, therefore, be that in the near future the Government of Bengal will have some money at their disposal earmarked for expenditure on the improvement of roads. This possibility has lately been brought to the notice of local bodies, and they have been invited in order to be prepared for any grants from a road fund to which they may be eligible, to draw up schemes for the improvement of roads in the areas under their charge.

15. **Loans.**—Loans amounting to Rs. 5,718 were granted from provincial revenues to the municipalities of Katwa (Rs. 718) and Khulna (Rs. 5,000). Altogether 43 municipalities were in debt to Government, their total liabilities amounting to nearly Rs. 31½ lakhs. Titagarh and Budge Budge liquidated their debts in full.

16. **Audit of Accounts and Embezzlement.**—The accounts of almost all the municipalities were audited. Unfortunately little effort is made by municipalities in general to remedy the defects and irregularities noticed in the audit notes. Repetition of irregularities of the same nature is very common, and this indicates that municipal commissioners are disinclined to pay due heed to the observations made, and instructions given, by the audit officers. The Minister for Local Self-Government fully agrees with the following remarks made in this connection by Mr. Bingemann, the Magistrate of the 24-Parganas :—

> Over-reliance on the municipal office staff without effective supervision by the executives is mainly responsible for this state of affairs, and it is hoped that with harder working and more disinterested executives a better state of things will be seen.

Embezzlements or misappropriation of money occurred in Baruipore, Barasat, Sherpur (Mymensingh) and Rangpur. In Baruipore the municipal commissioners have so far failed to undertake a prosecution urged on them by Government. In Barasat, a prosecution has been started, and warrant of arrest has been issued against a peon who is believed to have absconded with Rs. 381-5-6, but no arrest has yet been effected. A sum of Rs. 58-14 was not credited by the tax daroga of Sherpur, and the auditor charged him and his assistant with misappropriation. The money was made good by the tax daroga as soon as the omission was pointed out. On enquiry, it was found that the offence was not intentional but accidental. However, the tax daroga was warned and his assistant was punished with degredation for two years. In Rangpur the supposed culprit was a Vaccinator, but no clear case of dishonesty having been established the commissioners fined him three months' pay *pour encourager les autres*. Criminal cases against the late tax daroga of Maheshpur and one bill sarkar of Katwa, which were pending at the close of the previous year, ended in conviction. The bill sarkar having preferred an appeal his conviction was set aside. In the defalcation case of Mymensingh, which had been pending for a long time, the collecting sarkar threw himself on the mercy of the Court and was sentenced to one day's simple imprisonment and a fine of Rs. 300. He paid the fine.

There appears to be a tendency for embezzlement of municipal funds to occur more frequently than was formerly the case. The Minister does not therefore hesitate to repeat the warning given previously :—

> Misappropriation of public money is a very grave offence, and, where such offence appears to be established, it is not sufficient for the municipal commissioners to punish the delinquent by dismissal or to rest satisfied with the refund of the amount which has been misappropriated. In the interests of public morality the offenders, in cases which appear to be capable of legal proof, should invariably be prosecuted criminally.

If there are grounds for leniency, it should be left to the trying court to be influenced by them in the exercise of its judicial discretion.

17. **General Remarks.**—*Burdwan Division.*—Improvement of water-supply and an extensive drainage scheme are essentially necessary to meet the growing demands of the town of Burdwan. The first question is receiving the attention of the municipal commissioners. By the installation of electric lights in the street a long-felt want has been removed. Road watering has improved and the municipality has lately purchased a motor watering-car. The general health of the town was good during the year. In Kalna the question of water-supply has been very acute, especially in that part of the town which is remote from the Bhagirathi. The municipal commissioners propose to take up a water-supply scheme with the help of the receipts from provincial ferries made over to them, with effect from 1st April, 1927. Owing to the want of a proper water-supply the drainage system of Katwa, which was constructed at considerable cost, was far less efficient than it should be. The conditions of roads and drains in Raniganj are good, but encroachments are frequent. As regards municipal administration in the district of Bankura the District Magistrate observes :—

> The incidence of taxation is low in all the municipalities in the district in comparison with other districts in the province and, unless it is increased, there is no hope of improvement. The condition of roads and

drains and lighting arrangements in all the three municipalities is still as bad and unsatisfactory as before.

In Hooghly district the financial condition of the municipalities did not allow of any large scheme of improvement being taken up. Hooghly-Chinsura and Serampore are the only two important municipalities in this district. The financial condition of both these municipalities is still unsatisfactory; that of Hooghly-Chinsura shows in some respects slight improvement, but it is still in a state bordering on bankruptcy. The financial condition of Serampore shows no improvement. Party faction exists in most of the municipalities in the district. In Kotrung it appears to have transgressed the limits of decency in Bansberia it is on the increase, while in Champdany and Rishra-Konnagar it appears to have decreased. The District Magistrate writes as follows regarding the Hooghly-Chinsurah Municipality :—

The conservancy and drainage of the town are as bad as ever. Early in its career the present Board was faced with a strike of sweepers. The lighting of the town in the area served by electricity has been satisfactory compared to the state of affairs preceding the utilisation of current from Gouripore Mill, but the Electric Supply Company have managed the distribution so badly that the position is still very unsatisfactory and there is great and reasonable ground for complaint. The lighting of the part of the town not served by electricity is wretched in the extreme. The roads of the municipality show perhaps a little improvement. On practically all roads there have been encroachments and daily I see fresh attempts in the same direction. . . . The drains of the town are in a dreadful state. . . . As to the water-works, the Sanitary Engineer's report suggests an imminent danger of a breakdown, unless an expenditure which has been assessed at about Rs. 50,000 is incurred.

In Bally there was distinct improvement in the work of conservancy, drainage and road repairs; collections have also improved. A scheme for lighting certain areas of the town is now under the consideration of Government.

Presidency Division.—The Magistrate of the 24-Parganas observes that there is nothing outstanding to note on the municipal administration of the year, the ordinary duties under the Act being performed fairly well in most places, with some exceptions. An increasing interest in water-supply is manifested, but it is seldom that one finds any enthusiasm to extend primary education. The average incidence of taxation has not maintained its former rise. It has dropped from Re. 1-14-6 to Re. 1-13-10 during the year. Baranagore had another Health Exhibition, and its example was followed at Bhatpara, where, with the help of the mill authorities, a successful exhibition was held. Except in Nabadwip and Santipur, municipal administration in the district of Nadia has worked smoothly. At the former place, party faction among the commissioners is very bitter, and they have chosen to revive the old question of the assessment of certain *thakurbaris*, a matter which involved much litigation and money in the past. As regards Santipur the Magistrate writes as follows :—

The municipal commissioners seem least alive to their duties as trustees of the public. Collections on the current demand were 78·1 per cent., the lowest figure in the district, and a sum of Rs. 26,676 remained uncollected at the end of the year; this includes heavy arrears from previous years. Unfortunately, the Chairman and several commissioners are among the worst defaulters and seem unaware of the bad example set by them. Collections during the year were so irregular that there was often insufficient money to meet current expenditure, so in addition to paying the sweepers late, the same treatment was meted out to their own office staff, the municipal high English school teachers and the dispensary staff; these people were sometimes paid nearly two months late. Still more serious is the fact that the municipality has been using money which does not belong to it; since May, 1924, neither the provident fund contributions from the pay of the municipal establishment, school teachers and dispensary staff, nor the municipal contributions have been into the provident fund account, but have been used by the municipality. The municipality owes Rs. 8,050 *plus* interest on this account.

Roads are generally bad in most municipalities in the district of Nadia and, owing to the large amount of mileage, the burden of up-keep is very heavy; Krishnagar has 29 miles of metalled and 77 miles of unmetalled road to maintain. With its steam-roller and stone-metalling Krishnagar is gradually improving its roads, but progress is slow, as the cost works out at Rs. 2,700 per mile, so that only 3 or 4 miles can be done in one year. Kushtia is steadily tackling the problem and has spent Rs. 6,950 under this head. Kushtia has purchased a motor-lorry for carrying night-soil to the trenching ground.

Mr. Durno concludes :—

Though few of the municipalities in this district possess the ordinary amenities of life, such as good health, good sanitation and good roads, there seems to be a general reluctance to embark on schemes to obtain any of these benefits, unless there is the assurance of a substantial grant or loan from Government; if this is not forthcoming, improvements on a small scale are generally carried out, and this has been the nature of the work in most of the municipalities during the year. The spirit of self-help develops slowly, and it is only beginning to dawn on some people that there are very few things in this world that one can get without paying for them. Added to this is the usual reluctance to apply any coercion to obtain punctual payment of rates and taxes or to remove nuisances which affect public health.

The municipal administration of the district of Murshidabad was fairly managed as far as municipal funds permitted. The health of the municipal towns was generally good, though the arrangements for conservancy and road watering were not very satisfactory.

In Berhampore, the methars co-operative society did good work in giving relief to individual members in time of need. The Municipal Employees' Association also did useful service.

The Murshidabad Municipality was financially hampered owing to non-receipt of the Jiaganj ferry rent from the Jiaganj-Azimganj Municipality, and it could not pay off the contribution towards the pay of the Assistant Surgeon of the Lalbagh Dispensary.

The assessment of the Khulna Municipality was too low, the taxes in rural wards being lower than the rates imposed by the neighbouring union boards, The municipal commissioners have finally decided to introduce the tax on holdings in the Kally urban areas, with effect from the year 1928-29.

The financial affairs of the Satkhira municipality are still in a hopeless condition. The outstanding balance is Rs 6,132 against a current demand of Rs. 12,847.

A new board has recently been formed at Debhatta and the Magistrate hopes that it will do more than its predecessors to justify the existence of the municipality.

The Commissioner of the Presidency Division makes the following remarks :—

The general level of efficiency in the administration of the municipalities remains much the same as in the previous year. There was smooth working everywhere, except at Nabadwip and Santipur, where the faction referred to in the last report still continues. Attempts are being made to settle once for all the differences at Nabadwip, where party feelings seem to have centred for a number of years round the vexed question of the assessment of certain *thakurbaris*.

The average incidence of taxation remains practically unaltered. A larger current demand, smaller collections, and decreased closing balances were the noticeable features of the year's working. The average percentage of collection to the total demand fell from 96·9 to 93·2. There was the usual reluctance on the part of the executive officers to take coercive measures. A few of the muncipalities, however, returned more than cent. per cent., and Mohespur deserves special mention in this respect. Several, such as Panihati, Murshidabad, Jiaganj-Azimganj, Kandi and Debhatta failed to keep the minimum working balance, and some had larger outstanding liabilities than their own balances. Attempts have been made to rectify these defects as far as possible when passing the budget.

Greater activity was noticeable in the matter of water-supply. . . .

Most of the municipalities maintained the requisite standard of expenditure on primary education. . . .

Roads, however, continue to be bad everywhere, and improvements are slow. . . .

The municipalities have generally acted with promptitude in taking measures for combating epidemic diseases and in some cases timely action has prevented outbreaks. Greater attention seems to have been given to general sanitary measures, such as jungle-clearing and ditch-filling, and the small municipality of Birnagar deserves special mention in this repect. . . .

Dacca Division.—The outstanding achievement of the Faridpur Municipality was to bring its water-works scheme to a stage where ultimate success is practically assured. The financial condition of the municipality, was however, unsound; roads are largely neglected and the damage done by flood every year is not adequately repaired; the market is in a scandalous condition. Collections declined in 1926-27 and much of the expenditure of that year will have to be paid out of the income for 1927-28. At Madaripur conditions are more promising: free education is being seriously tackled, roads are being improved and extended, markets are properly controlled and, generally speaking, satisfactory progress is being made. Collections were also good.

The most urgent requirement of the municipality is the provision of an adequate and better water-supply and steps are being taken to this end. The District Magistrate gives much credit to the official Chairman of the Rajbari Municipality for the remarkable improvement made in the town. It is reported that the Chairman has improved collections, reduced expenditure on establishment, extended the pipe line and put in more street hydrants, and generally stimulated municipal administration to something approaching efficiency. Mr. Burrows observes :—

The cardinal defect in municipal administration in this district is pettiness of outlook and feeling, the pursuit of personal rather than public advantage, the disregard of ratepayers' interests, except in the matter of increased taxation. More funds are necessary everywhere, and Peter must meanwhile be robbed to provide for Paul, because the Commissioners are too short-sighted to see that Peter is as much an extension and reproduction of their corporate personality as Paul.

As regards the municipalities in Bakarganj, the Magistrate remarks that there is no outstanding feature to which attention can be drawn in any of the municipalities. The Barisal Municipality failed to effect any appreciable reduction in its arrear demands. The Chairman of the Dacca Municipality reports that municipal meeting during the year held were free from all acrimonious and personal discussions and in all decisions the interest of the municipality was placed first.

The Commissioner of the Division observes :—

On the whole there has, I think, been an improvement in municipal administration as compared with the previous year. There has been some improvement in the collection of the municipal rates, though the arrears are still excessive in Mymensingh, Barisal and Bhola as well as in Dacca and Sherpur, where they are due to litigation in regard to the assessment. Work has been less impeded by factions among the municipal commissioners and progress has been made with several schemes for the improvement of the municipal water-supply.

Chittagong Division.—The financial condition of the Chittagong Municipality is not sound and the Commissioner of the Division advises the Board to reorganise its finances, to overhaul its establishment and to put its assessment on a more equitable basis before launching out into the developments which are inevitable in the near future. There was a breakdown in the machinary of the Comilla water-works and the municipal commissioners had to devote their whole energy to putting this in order. The finances of the Noakhali Municipality are unsatisfactory and the commissioners are unable to undertake the much-needed improvement of their roads and drains for want of funds.

Rajshahi Division.—The administration of the Rajshahi Municipality was satisfactory. The great needs of this municipality are water-supply and drainage. The prospects of providing a satisfactory water-supply in the near future are good, but a fresh effort will be needed to establish a proper drainage system. The work of the Jalpaiguri Municipality is hampered by lack of funds, but the municipality is reported to have done a good deal with the means at its disposal. The sanitary condition of the town is bad and a drainage system is badly needed. The financial position of the Bogra Municipality is far from satisfactory, as the deficit balance of the general fund has not been made up. The Magistrate reports that unless the tax on holdings is introduced there is little chance of any appreciable change for the better. The condition of roads in Sherpur, which is an old decaying town, is not satisfactory. The Magistrates reports that the general standard of the municipal administration in the district of Malda remains at the same level and is characterised in all the municipalities by slackness and indifference. There is some indication that Nawaganj is trying to tighten up control a little, but there, too, the standard is far from satisfactory.

The Kurseong Municipality is reported to have been well administered.

The Commissioner of the Rajshahi Division observes :—

The Pabna Municipality has succeeded in improving its collections, but has taken a retrograde step in cancelling its original resolution to substitute a tax on holdings for the tax on persons. The working of the Serajganj Municipality has been unsatisfactory. Various municipalities have been trying to push forward water-supply schemes; but there is too great a tendency to rely on large individual donations from Government or private persons and too little effort by the general body of tax-payers who will be benefited by the schemes. In water-supply schemes much more could be done in the way of raising loans.

(The Minister is gratified to learn that since the above remarks were written the municipal commissioners of Pabna have decided to substitute, with effect from the 1st April, 1928, a tax on holdings for the tax on persons.)

18. **Concluding Remarks.**—On the whole the divisional reports furnish grounds not for complacency but for a certain degree of optimism.

It is regrettable that there are municipal commissioners who default in the payment of municipal taxes; but the number of those who do so is very small compared with the number who conduct themselves as upright citizens should.

Lax supervision of accounts and slackness in collecting municipal dues are, if less serious, a more widespread evil than deliberate default on the part of municipal commissioners; they result in waste and misappropriation and in unfairness to public-spirited townsfolk who have to suffer because others do not pay their taxes and are not forced to do so.

It was remarked in last year's resolution, that though the general incidence of taxation is low, municipal incomes do show an upward tendency, and actual statistics can be produced in support of this assertion.

The yield of local taxation in 112 municipalities amounted in 1920-21 to Rs. 47,96,630, while in 1926-27 the total was Rs. 63,77,706. This is a substantial rise and, when allowance is made for other factors, affords concrete evidence of increasing readiness to submit to taxation for the public good.

While it must be admitted that local resources are not everywhere fully tapped, it has also to be remembered that so far as actual and potential income from local taxation is concerned, a comparison between the average Bengal Municipality and a town situated in a more highly industrialised country is not entirely fair to the former. Of many places in Bengal it may be said that the district or subdivisional courts are the core or even the *raison d'etre* of the municipality. The population in them consists of :—

(*a*) the staffs of the Government offices;
(*b*) the members of the bar;
(*c*) the shop-keepers and others who minister to their needs; with their respective families and dependents.

It is hardly an exaggeration to say that litigation is the only industry of such places or at least the only industry that thrives. Without some development of genuinely productive industries these small municipalities cannot flourish and expand or find the money necessary for thorough-going schemes of improvement. What is required is—

(1) establishment of such industries as are likely to succeed under local conditions;
(2) the provision of such civic amenities as will attract population and lead to productive activity.

For the inauguration of industrial enterprises local effort is the prime need, but wherever a spirit of self-help is awakened, Government will be ready to help with expert advice or such other form of assistance as may be found practicable.

The names of the following Chairmen, Vice-Chairmen and municipal commissioners have been brought to the notice of Government on account of good work done by them, and the Government of Bengal (Ministry of Local Self-Government) desire to express their appreciation of the public spirit shown by these gentlemen :—

RESOLUTION ON THE ANNUAL IRRIGATION REVENUE REPORT FOR THE YEAR 1926-27.

GOVERNMENT OF BENGAL.

Irrigation Department.

CALCUTTA, THE 28TH MARCH, 1928.

RESOLUTION—No. 11.

READ—

The Annual Irrigation Revenue Report for the year 1926-27.

THE year 1926-27 was marked by an important development. Work on the Damodar Canal project in the Hooghly and Burdwan districts was started during the year and a temporary Division, called the Damodar Canal Construction Division, with headquarters at Burdwan, was opened to execute it. The Division was placed under the direct control of the Chief Engineer of the Department.

2. The financial results of the year and the capital expenditure to date are exhibited in the following statement:—

3. The work on the **Damodar Canal Project,** which has been designed to irrigate about 200,000 acres of land in the Burdwan and Hooghly districts, was commenced during the year. The total estimated cost of the project is Rs. 78,14,981. The capital expenditure amounting to Rs. 3,63,070 was mostly incurred on a broad gauge siding to the headworks and the collection of materials.

4. The capital expenditure of Rs. 23,258 during the year on the **Grand Trunk Canal** was principally incurred to meet payments on account of enhanced awards given by the special Land Acquisition judge in certain reference cases and for repairs to the dredger *Ronaldshay*.

5. No capital expenditure was incurred during the year on the **Midnapore Canal,** which consists of two weirs at Midnapore, and Panskura, 69·75 miles of main and branch canals, used both for irrigation and navigation, and 284·97 miles of distributaries. Receipts and recoveries on capital account were Rs. 2,160. The area irrigated was 74,032 acres as against 75,698 acres in the previous year and an average of 73,956 acres for the triennium ending March, 1926. The receipts and working expenses were Rs. 2,69,263 and Rs. 2,43,458, respectively, the result being a net revenue of Rs. 25,805 against Rs. 60,849 in the preceding year. The falling off in net revenue was due to increased expenditure on maintenance and repairs of the canal and to a decrease in the navigation receipts.

6. No capital expenditure was incurred during the year on the **Hijili Tidal Canal** which, with the Terapakia Pass Khal, Palaboni Khal and the khal leading to the Gewankhali lock entrance, constitutes a navigation canal of 49¾ miles in length. The receipts and working expenses of the canal were Rs. 65,513 and Rs. 43,664, respectively, the result being a net revenue of Rs. 21,849 as against Rs. 85,155 in the previous year. The drop in the receipts is due to a falling off in the navigation receipts as the result of damage to crops by extensive floods in the area served by the Canal.

7. **The Calcutta and Eastern Canals** form a series of natural and artificial navigation channels extending for 834 miles for the purpose of maintaining communication between Calcutta and Eastern Bengal. The capital expenditure on the canals is shewn as Rs. (minus) 38,641, a sum which represents the receipts on capital account on account of hire of the dredgers *Foyers* and *Alexandra*. The gross receipts and working expenses amounted to Rs. 4,53,334 and Rs. 6,90,930, respectively, the result being a deficit of Rs. 2,37,596, which is mainly due to the large outlay incurred on the rebuilding of certain bridges over the canals and also to expenditure on dredging the Bhangore Khal, which was completed during the year, the total expenditure during and to end of the year being, respectively, Rs. 1,15,461 and Rs. 1,46,625.

The Sundarbans Steamer Route is being treated as a separate project from the Calcutta and Eastern Canals from the year 1924-25. No capital expenditure was incurred on this route during the year. The receipts and working expenses were Rs. 66,161 and Rs. 1,21,073, respectively, the result being a deficit of Rs. 54,912 against a deficit of Rs. 4,04,317 in the previous year. The better result was due to the fact that no dredging had to be done during the year under review.

8. On the **Madaripur Bhil Route** connecting the Madhumati and Kumar rivers in the Faridpur district, a capital expenditure of Rs. 46,034 (direct only) was incurred mainly on preliminary works in connection with the construction of locks and sluices on the Lower Kumar river and in the payment of compensation for damage to crops caused by the dredging of the same river between Takerhat and Charmaguria during the previous year. The receipts and working expenses were Rs. 3,87,005 and Rs. 3,26,782, respectively, the result being a net revenue of Rs. 60,223 against Rs. 1,59,171 in the preceding year. The falling off in net revenue was due to increased working expenses consequent on heavy dredging of shoals in the Lower Kumar river.

9. **The Orissa Coast Canal** in the Midnapore district is a navigation canal lying partly in the Bengal Presidency and partly in the province of Bihar and Orissa. The receipts and working expenses for the portion within Bengal were, respectively, Rs. 31,255 and Rs. 22,536, the balance of net revenue being Rs. 8,719 against Rs. 26,967 in the preceding year. This falling off is due to decrease in receipts and increase in working expenses, the former due to floods.

10. **The Nadia Rivers** were thrown open to free navigation, with effect from the 1st September, 1923, owing to a steady decline in the tollage receipts from the system since the construction of the Eastern Bengal and East Indian Railways on both banks of the river Bhagirathi. Hence there were no navigation receipts from these rivers during the year. The maintenance charges amounted to Rs. 47,614 against Rs. 31,433 in the previous year. The increase was chiefly due to the fact that bandalling works had to be done at the Kaliganj entrance of the Bhagirathi river to improve the channel.

11. **The Gaighatta and Buxi Khal** is a short channel connecting the rivers Damodar and Rupnarain in the Howrah district. The khal has been leased out for a period of six years, from the 15th June 1921, at a rental of Rs. 2,000, on the condition that the lessees maintain the khal in good condition, subject to the control of the Irrigation Department.

12. **The Eden Canal** in the districts of Burdwan and Hooghly, was originally constructed for sanitary purposes, but it is now used for irrigation also. The supply of water in the canal is precarious, owing to the absence of a weir in the river Damodar. This state of things will improve when the Damodar Canal, which is now under construction, is completed. The area irrigated from the canal was 21,560 acres against 23,836 acres in the preceding year. The receipts and working expenses were Rs. 43,282 and Rs. 77,332, respectively, against Rs. 40,047 and Rs. 50,258 in the previous year. The increase in working expenses during the year 1926-27 was chiefly due to expenditure on special repairs to the bridges over the canal, including the remodelling of the Chowbera bridge and clearing the bed of the river Saraswati from Nasibpur to Sankrail.

13. **Training works.**—Training works in connection with the conservancy of the river Ganges from Rajmahal to Goalundo continued to be carried out departmentally with the assistance of an experienced officer of the Steamer Company. Training and bandalling works were also carried out in the rivers Bhagirathi, Nabaganga, Dhalleswari and Buriganga as usual. Besides shoals in the rivers Buriganga, Bangshai and Lakya were dredged during the year.

14. **Flushing and drainage works.**—The construction of the Amirabad drainage project in the Contai subdivision of the Midnapore district was nearly completed and three other drainage schemes in the same district, *viz.*, Panipia, Dhunia-Barunda and Hijili, to relieve the southern portion of the Midnapore district, of periodical water-logging due to silting up of the natural tidal channels, were under consideration.

The work for flushing about 60 stagnant miles of the Bhairab river in the Meherpur subdivision of the Nadia district with water from the Jalangi was started and also the work for flushing 40 miles of the Gobra Nala in the Murshidabad district. The Bhairab Project II in the Jessore district was prepared and sent to the Collector of Jessore to take action under the Bengal Agricultural and Sanitary Improvement Act, VI of 1920, and two other schemes for the improvement of this river were also under examination. Estimates were sanctioned for completing the Ichapore and Nowi portions of the Nowi-Sunthi Drainage Project and excavating a channel connecting the Arool and Bookbhara bhils, at the cost of the District Boards concerned.

With a view to supplying water for flushing old river-beds, inquiries were made to ascertain whether a supply of fresh water could be found to

deal with the following cases: the Gurguria and Moragangni Khals in the Nadia district, the Bamnida Khal in the Murshidabad district and the Nabaganga in the Nadia and Jessore districts.

In the Jessore district, a project for flushing the Kodla and Betna basins was under preparation and in the Howrah district the Amta scheme was revised. The Gangakhali-Suadighi project in Midnapore was completed and referred to the civil officers.

Survey and investigation of water ways in the Manikganj subdivision of the Dacca district and of certain other khals and rivers in the districts of Chittagong, Tippera, Mymensingh and 24-Parganas were carried out.

In connection with the flood remedial measures near Ghatal materials were collected for an escape at Kushpota.

15. **Irrigation works in Western Bengal.**—In the Birbhum district the Bakreswar Canal scheme costing Rs. 4,90,576, which will irrigate about 10,000 acres of paddy, was sanctioned and another scheme named the Kashianala, which will irrigate 2,000 acres, was taken up. The former scheme will be carried out under the provisions of the Bengal Irrigation Act, III of 1876, and the latter under the Bengal Agricultural and Sanitary Improvement Act, VI of 1920.

In the Bankura district the Amjore weir was nearly completed. The preparation of the Berai Canal project, designed to irrigate about 9,000 acres, was also completed.

In the Midnapore district the Dolong, Jhargram and Baital schemes are under preparation.

Besides those mentioned, about 70 small schemes in Western Bengal are under investigation. The object of these works is to extend irrigation from the streams which traverse the undulating area in Western Bengal, which is more liable to famine than other parts of the province. Some of these schemes will be carried out as Government schemes under the Irrigation Act and others will be undertaken under the provisions of the Bengal Agricultural and Sanitary Improvement Act, VI of 1920.

Order.—Ordered that a copy of the resolution be published in the *Calcutta Gazette* and a copy thereof and of its accompaniments be submitted to the Government of India in the Department of Industries and Labour (Public Works Branch) and circulated to all departments and officers of this Government, as usual.

By order of the Governor in Council,

W. H. NELSON,

Secretary to the Government of Bengal (Offg.).

Revenue (details for each of the preceding three years).

Expenditure (details for each of the preceding three years).

Remarks.

Receipt of loan.

Repayment of loan.

In addition to the details required on the reverse, clear information should be given below under the following heads :—

(*a*) If the ordinary surplus is insufficient to meet the charges of the proposed loan, the particular steps which the municipality has taken, or has agreed to take, in order to make good the deficiency.

A sum of Rs. 15,000 is expected to be received during three years commencing from the year 1928-29 by giving house connections to 100 quarters at Rs. 150 each as also an annual saving of Rs. 1,800 from water rates. These together with a very small sum from the general fund are quite sufficient to meet the amounts of instalments each year.

(*b*) The reserve of taxation or other possible means of increase in the revenues of the Municipality.

(*c*) A statement of all outstanding loans specifying, in respect of each loan, the date when taken, the purpose (very briefly), the amount, the annual charges involved, and the amount still payable.

There remains a balance of Rs. 19,000 of the loan previously granted in 1925-26—*vide* Government of Bengal's letter No. 417T.—P.H., dated the 6th September 1925. The first instalment of Rs. 4,634 towards its repayment has already been paid and the rest four instalments will be paid from the promised contribution of the District Board towards the Suri water-works scheme. Also an application for a loan of Rs. 20,000 to be paid during the year 1927-28 has already been made for Suri partial drainage scheme. This amount of loan is to be repaid in fifteen equated annual instalments of Rs. 2,161 each and the amount of each instalment will be met from the sum of Rs. 2,000 set apart each year for the construction of pucca surface drains, as well as from other savings of the municipal fund.

(*d*) Any explanations in regard to receipts and expenditure to show the true financial position of the municipality when such position is otherwise than the ordinary surplus would indicate.

The normal surplus as shown in column 20 on the reverse shows a negative figure. The reason is that the amount of Rs. 4,634 under repayments of loan being the first instalment towards repayment of Rs. 19,000 of the loan previously granted shown under ordinary expenditure, is paid from the second instalment out of the six promised annual instalments of Rs. 5,000 each of the District Board towards the Suri water-supply scheme, which, however, is not included under ordinary income. As Rs. 19,000 was then necessary for taking up the water-works scheme and as the District Board expressed its inability to pay the promised amount of Rs. 30,000 all at a time the amount was taken from Government as loan and its repayment was resolved to be made from the annual instalment of District Board's contribution.

Minister-in-charge : The Hon'ble Sir P. C. Mitter, Kt., C.I.E.

MARINE DEPARTMENT.

NOTIFICATION.

No. 36 Marine.—The 16th April 1928.—In exercise of the power conferred by section 21 of the Indian Merchant Shipping Act, 1923 (XXI of 1923) and with the previous sanction of the Governor-General in Council, the Governor in Council is pleased to make, in supersession of the rules published under this Department Notification No. 79 Mne., dated the 29th October 1924, the following rules for the conduct of examinations for Masters and Mates of foreign-going and home-trade ships and regarding the qualifications to be required.

A. CASSELLS,

Secretary to the Government of Bengal.

RULES RELATING TO THE EXAMINATION OF MASTERS AND MATES.

CHAPTER I.

GENERAL RULES.

1. **Authority for Rules.**—These rules are issued in pursuance of Act XXI of 1923.

By sections 15 and 21 of that Act provision is made for holding examinations for the grant of certificates of competency and power is given to the Local Government with the sanction of the Governor-General of India in Council to make rules for the conduct of such examinations and the qualifications of the applicants.

In accordance with section 11 of the same Act every British foreign-going ship* and every British home-trade ship of 300 tons or upwards when going to sea from any place in British India shall be provided with officers duly certificated under that Act or under the Merchant Shipping Act, 1894, and whoever, having been engaged to serve as Master or Mate, goes to sea as aforesaid as such Master or Mate, without being at the time entitled to and possessed of such a certificate, and whoever employs any person as such Master or Mate without ascertaining that he is at the time entitled to and possessed of such certificate is, for each such offence, liable to a penalty of Rs. 500.

For rules for the examination of candidates for certificates of competency as Master and Mate of home-trade sailing-vessels exceeding 300 tons, but not exceeding 1,000 tons burden, *see* the rules in Appendix M.

2. **Time and place of examinations.**—Examinations will be held at the Port Office, Calcutta, on the following days: 1st Monday in January, April, July and October and 2nd Monday in February, May, August and November.

Examinations of candidates for certificates of competency as Master and Mate of hometrade sailing vessels exceeding 300 tons, but not exceeding 1,000 tons burden will be held at the Port Office, Chittagong, on such dates as may be fixed by the Port Officer, Chittagong, with the sanction of the Local Government.

* "Foreign-going ship" means a ship not being a home-trade ship employed in trading between any ports in British India and any other port or place; and "Home Trade Ship" means a ship employed in trading between any ports in British India or between any port in British India and any port or place on the Continent of India or in the Straits Settlements or in the Island of Ceylon.

3. **How to apply.**—Candidates for examination must fill up a form of application (Form Exn. 2) at the Port Office. The form, properly filled in, together with the candidate's testimonials and discharges, must be lodged with the Port Officer, Calcutta, not later than the day before the day of examination; and the candidate must conform to any regulations in this respect which may be laid down by the Local Government. The discharges and testimonials should be handed in, together with the form of application, as many days as possible before the date of the examination which the candidate desires to attend. In the absence of the necessary verification the candidate cannot be examined.

The Examiner should be particularly careful to ascertain that there are no gaps in the candidate's service which are not properly accounted for, before he is allowed up for examination.

4. **Proof of nationality.**—Every candidate for a certificate of competency of any grade will be required to produce proof of nationality.

Proof of British nationality will, in ordinary circumstances, involve the production of a birth certificate or of a certificate of naturalisation. If an applicant for examination cannot produce such a certificate he should be asked to furnish such documentary evidence of nationality or of birth and nationality of parents as he may be able to obtain, and, if necessary, the case should be referred to the Port Officer for consideration.

If the applicant is not a British subject he will, as a rule, be able to produce some official document testifying to his nationality. If there is any doubt as to the authority of such document, the Port Officer should consult the nearest Consular Officer of the nation to which the applicant belongs. If necessary, the case should be remitted to the Local Government for consideration.

5. **How to apply in special cases.**—In cases where a candidate is in doubt whether his service complies with the Regulations, and wishes to submit his case for special consideration, all certificates, discharges, and testimonials, together with the form of application,* properly filled in, should be submitted to the Port Officer. If necessary, the officer will, after seeing that all the required information is clearly set forth in the papers, forward them with his observations to the Local Government for decision.

6. **Inquiries.**—All other inquiries regarding examinations should be made and dealt with in the same way. The point on which information is sought should be clearly stated, and certificates, discharges, testimonials, etc., should always be forwarded with the inquiry.

7. **Application; particulars of sea service.**—A candidate's eligibility for examination will depend (amongst other things) upon the amount of sea service which he has performed and upon the ranks which he has held on board the various vessels in which he has been employed. It is, therefore, most important that the particulars which the candidate inserts in Division H of the application form (Exn. 2) should be accurately stated.

Candidates who represent themselves as having served in a higher capacity than that actually held in the ship render themselves liable to prosecution.

In this connection examiners should remember that it is a common practice for ships to carry additional or auxiliary officers in one or more ranks, for instance a ship may carry both a "Chief Officer" and a "First Officer," another may carry both a senior and a junior Second Mate and so on. The method of assessing the service in such ships is explained in rule 81. The examiner should be particularly careful, when checking an applicant's watch-keeping service to ascertain the actual rank he held as a watch-keeping officer on board each of the ships in which he served.

It must be clearly understood that the amount of service laid down in the Regulations for each grade of certificate of competency is the absolute minimum that can be accepted, and unless a candidate can show the full amount he must in no case be allowed up for examination.

8. **Testimonials required.**—Testimonials to character, including sobriety, and to experience and ability, on board ship for at least the last twelve months of sea service preceding the date of application to be examined, will be required of all candidates, and without producing them no person will be examined.

* Form Exn. 2 which can be obtained at Post Office.

9. **Penalty for misconduct.**—Candidates who have neglected to join their vessels after having signed articles, or who have deserted their vessels after having joined, or who have been found guilty of gross misconduct on board, will be required to produce satisfactory proofs of two years' subsequent service and good conduct at sea, unless the Local Government, after having investigated the matter, should see fit to reduce the time.

10. **Deafness and other physical and mental disabilities.**—If during the progress of the examination the examiner finds that a candidate is afflicted with deafness, with an impediment in his speech, or with some other physical or mental infirmity, and he is satisfied upon further investigation that the degree of deafness or of the impediment or other infirmity is such as to render the candidate incompetent to discharge the ordinary duties of a Mate or Master at sea,, he should not allow the candidate to complete his examination and should return his examination fee; but every case in which this action is taken must be reported to the Port Officer.

If the candidate subsequently produces a medical certificate to the effect that his hearing, speech, or physical or mental condition has improved or is normal, the Port Officer will take into consideration the question of allowing the candidate to sit again for examination.

11. **Foreigners must know English.**—Foreigners must prove to the satisfaction of the examiners that they can speak and write the English language sufficiently well to perform the duties required of them on board a British vessel. If a candidate fails for ignorance of the English language he will not be re-examined until after a lapse of six months. In the case of candidates for Home Trade certificates, the certificates of Asiatics who may not be able to speak English shall be endorsed to the effect that they are valid only for vessels manned and officered entirely by Asiatics.

12. **Issue of certificate.**—If the candidate passes he will receive a form (Form Exn. 16) authorising the Port Officer to whom it is addressed to issue the certificate. It is, therefore, important that the port at which the certificate is to be issued should be the same on both the Form Exn. 16 and the Form Exn. 2. If circumstances should make any alteration necessary, the examiner should see that it is made in both forms, otherwise delay in the issue of the certificate may be caused.

13. **Service found to be insufficient.**—If after a candidate has passed the examination it is discovered on further investigation that his services are insufficient to entitle him to receive a certificate of the grade for which he has passed, the certificate will not be granted to him; but if the Local Government is satisfied that the error in the calculation of the candidate's services did not occur through any fault or wilful misrepresentation on his part, he may either have the fee returned to him or have it placed to his credit. Should his services entitle him to a certificate of a lower grade it may be granted to him, and the difference, if any, between the fee paid by him for the superior certificate and the fee payable for the inferior certificate will be returned to him or placed to his credit. The superior certificate will not be granted until the candidate has performed the amount of service in which he was deficient, and has been re-examined in all the subjects, unless the Local Government see fit to dispense with the re-examination.

14. **Failure in Examination.**—In all cases of failure the candidate must be examined anew.

15. **Failure in seamanship.**—If a candidate fails in seamanship he will not be re-examined until after a lapse of six months. Whether the whole or part of this period must be served at sea must depend upon the subjects in seamanship in which the candidate failed, but the amount of further sea service to be required will be left to the discretion of the examiner.

The examiner in making his report on the form Exn. 14, should state what amount, if any, of further sea service the candidate must perform, and he should also insert this information in the form Exn. 2.

Failure due merely to inability to repeat verbatim the Article of the Collision Regulations will not be considered as failure in seamanship if the candidate understands the practical application of the Regulations, but such inability will entail the same penalties as failure in Navigation (*see* Rule 17).

If a candidate fails in seamanship so far as regards the management of square-rigged sailing vessels, in his examination for an ordinary

certificate he may without further formal application or further payment of fee proceed with the examination for a certificate of competency for foreign-going steamships, or for fore-and-aft rigged vessels.

16. **Failure in Navigation.**—If a candidate fails in Navigation at three successive examinations, he will not be re-examined for the certificate for which he failed, or for, any higher certificate, until after a lapse of three months from the date of the last failure.

17. **Candidates failing may be examined for certificate of lower grade.**—If a candidate fails in his examination for a foreign-going certificate, and the subjects in which he has failed are not included in the syllabus prescribed for a certificate of a lower grade, he may, if he so desires, be examined for the lower grade certificate without further formal application or payment of fee, but he will be required to complete the whole of the work prescribed for such lower grade.

No part, however, of the fee he has paid will be returned to him, and on presenting himself, when qualified, for re-examination for the higher certificate, he will be required to pay again the full fee for the examination.

18. **Fee always paid first.**—Candidates for examination and persons enquiring as to the eligibility will be required in making their application on Form Exn., 2, to pay the examination fee before any step is taken in the way of inquiring into their services or testing their qualifications. If the candidate is found not to be eligible the fee will either be returned to him or placed to his credit until he is eligible.

19. **Where to pay fees.**—The fee for examination must be paid to the Port Officer. If a candidate offers a gratuity to any officer of the Department, he will be regarded as having committed an act of misconduct, and will be rejected, and not allowed to be again examined for twelve months either at the port where the offence was committed, or at any other port.

20. **Fee in case of failure.**—The fee paid for examination for a certificate of competency includes the fee of rupees two for examination in the sight tests, and if a candidate fails to pass those tests, this fee will, with the exception of rupees two be returned to him. If a candidate fails to pass the examination in navigation or seamanship no part of the fee will be returned to him.

22. **Copy of Lost Certificate.**—An applicant for a certified copy of a lost Certificate either of Competency or Service, must fill in a form of application, Exn. 23, giving the particulars required, and hand it to the Port Officer of Calcutta. A declaration as to the circumstances in which the certificate was lost must be made by the applicant before the Port Officer who will state thereon whether a fee is to be charged or not, and will forward a certified copy of the lost certificate to the applicant.

No fee will be charged if the applicant can prove that the certificate was lost through ship wreck or fire.

23. **Exchange of certificate.**—An officer holding an old pattern certificate may exchange it for a certificate in book form on payment of a fee of Rs. 2. The application may be made on form Exn. 23 and the fee paid to the Port Officer.

24. **First Aid to the Injured.**—(*a*) Every candidate for a certificate of competency of any grade as Master or Mate will be required to produce a certificate of proficiency in First Aid granted by an officer authorised by the Local Government. Any certificate which is accepted by the Board of Trade will also be accepted by the Local Government for the purpose of this rule.

(*b*) If a candidate does not possess such a certificate of proficiency in First Aid, he should apply some time before he wishes to sit for the examination for a certificate as Master or Mate, to the Port Health Officer, Calcutta, or the Port Health Officer, Chittagong, who will inform him of the available facilities for the instruction and examination of candidates in First Aid.

25. (*a*) **Sight tests.**—Every candidate for a certificate of competency must pass the prescribed sight tests before a certificate can be issued to him. If circumstances render it necessary for him to proceed with the examination in navigation and seamanship before undergoing the sight tests, he should be informed that the examination in navigation and seamanship will be cancelled in the event of his failure to pass either of the sight tests.

Detailed information with regard to the conduct of the examination and the standards required is contained in Appendix G.

(*b*) **Letter test.**—Every candidate for a certificate must pass the letter test. If he obtained a certificate of competency before January 1st, 1914, he will only be required to possess half normal vision using both eyes together. Otherwise he must pass a higher standard, *viz.*, normal vision using both eyes or either eye separately.

Any candidate who has obtained his first certificate under these conditions may obtain his higher certificates, provided that he has normal vision using both eyes or either eye separately.

A candidate who fails to pass the letter test may present himself for re-examination at interval of three months.

(*c*) **Lantern test.**—Every candidate must undergo the lantern test on every occasion on which he presents himself for examination for his first certificate of competency; but, if he then passes, he will not be required to undergo the lantern test on any subsequent occasion.

No person who holds a certificate of competency should be examined in lantern test. A candidate who fails to pass the lantern test cannot be re-examined.

(*d*) **Special examination: Referred cases.**—In the case of a candidate who is referred for further examination the Port Officer will make arrangements for a special examination for which no additional fee will be charged.

(*e*) **Special examination: Appeal cases.**—A candidate who is adjudged to have failed in the lantern test may appeal to the Local Government who may, if they think fit, remit the case to a special body of examiners for decision. He will be required to pay a special fee of Rs. 30 which will be returned to him if he is declared to have passed the special examination.

(*f*) When a candidate fails to pass the lantern test, the examiner will point out to him the conditions under which he can appeal. Appeals are to be made through the Port Officer, and forwarded to Local Government with the Examiner's remarks.

(*g*) **Special Examination: Candidates must attend punctually.**—Candidates who on appeal from the result of the local tests are granted a special examination are notified by the Port Officer of the time at which they should attend for special examination and are expected to inform the Port Officer whether or not they will be able to attend at that time. Any candidate who, after informing the Port Officer that he will attend, fails to appear at the time appointed, will be liable to have his examination postponed indefinitely and also, if an appeal candidate, will forfeit the appeal fee of Rs. 30 and will be required to deposit a further fee of the same amount before further arrangements can be made for his special examination.

(*h*) **Failure in special examination.**—Where during the course of a special examination, a candidate is found to have a permanent defect in his eyesight such as to render him unfit for a sea career, he will be finally rejected and will not be allowed to be examined again in the sight tests on any future occasion. This, however, is subject to this proviso that if the candidate is still dissatisfied, it will be open to him, if he so desires, to present himself for a second special examination on payment of a fee of rupees seventy-five, provided that he brings with him a friend to witness the examination.

This second examination will, however, be entirely voluntary, and will form no part of the examination for a certificate of competency. The Local Government will, however, give consideration to the result of such examination in determining whether a certificate shall be granted.

(*i*) **Examination in sight tests only.**—The sight tests are open to all persons serving or intending to serve in the Mercantile Marine or in fishing vessels, and all such persons are recommended to take the earliest opportunity of ascertaining whether their vision is such as to qualify them for service in that profession. Any such person, if desirous of undergoing the tests, must make application to the Port Officer, on the Form Exn. 2a, and must pay a fee of two rupees.

This fee will be payable on each occasion on which a candidate is examined.

38. **Special Regulations relating to the examination of Masters and Mates to apply only where the candidate has served an apprenticeship in an approved sea-going training ship, with a view to promotion in the service of the company to which the training ship is attached.**—(1) The training ship must be a sea-going cargo carrying square-rigged sailing vessel, and the course of study and practical training which the cadets receive must be approved by the Local Government.

At the end of four years' service in the training ship the cadet will be qualified for examination for a certificate as Second Mate, provided (*a*) he can produce a testimonial to the effect that both his conduct and his ability have given satisfaction during the whole period, and (*b*) that he has served *at sea* for not less than four-fifths of the time, that is to say, has not spent more than one-fifth of the time in home ports, *cf.* rule 102.

If the cadet has served previously for two years in either the "Conway" or the "Worcester" training ship, this time will be allowed to count as one year's qualifying service (*cf.* rule 98), and he will be required to serve for 3 years only in the company's training ship before he can be allowed up for examination for a certificate as Second Mate (ordinary). Cadets passing out from the Indian training ship, "Dufferin" will be similarly allowed to count two years spent on the training ship as one year's qualifying service.

(2) A candidate who has served for four (or three) years on the training ship may be allowed up for examination for a certificate as First Mate (ordinary) when he has served, whilst holding a certificate as Second Mate *for two years as junior bridge-keeping officer of the watch* upon vessels of the Company satisfying certain requirements [*see* sub-rule (4)]. The words "junior bridge-keeping officer" must be interpreted as meaning the junior of *two* bridge-keeping officers. Where three officers are on the bridge together, the service of the third does not fall within the scope of the Special Regulations, and his service cannot be accepted as qualifying. All cases where cadets, to whom these special regulations apply, subsequently present themselves for examination for First Mate or Master must be referred to Port Officers so that their real position on board vessels of the Company satisfying the requirements of this rule may be verified by reference to the official logs before they are accepted as eligible for examination.

(3) A candidate who has obtained a certificate as First Mate in the above way may be allowed up for examination for a certificate as Master (ordinary) when he has served for eighteen months whilst holding the Certificate as First Mate, as a senior watch-keeping officer upon the vessels of the Company satisfying the same requirements [*see* sub-rule (4)].

If the candidate has served for eighteen months as senior of the junior officers, *i.e.*, the officer next below the junior of the officers in full charge of the watch whilst holding the certificate as First Mate, he may be allowed up for examination for a certificate as Master (ordinary) on the understanding that the certificates as Master would not be issued to him until he had completed twelve months' service as a senior watch-keeping officer, the service in both cases to be performed on vessels satisfying the same requirements [*see* sub-rule (4)].

(4) The special regulations (sub-rules 2 and 3) in regard to the acceptance of service as qualifying for the examination for certificates as First Mate and Master shall apply only when the service is performed in the specified capacities upon ocean-going steamers of not less than 8,000 tons gross, making an average speed of 15 knots or upwards and carrying a crew of not less than 130 men, including at least five deck officers besides the Master.

39. **Special Regulation applying only where a candidate has served continuously with the same company as apprentice and Junior Officer.**—A candidate who has served continuously in one company as apprentice and junior officer may be allowed to present himself for examination for a certificate as First Mate on completion of the service described in rule 38 (*2*) provided that the whole of his service has been performed upon vessels of the class described in rule 38 (*4*); but if he passes the examination a certificate will not be issued to him until he produces proof of eight months' sea service in full charge of a watch (*see* rule 84) in addition to the two years' service as Junior Bridge Keeping Officer described in rule 38 (*2*).

40. **Fore-and-aft certificates.**—Certificates for the grades of Second Mate, Only Mate, First Mate, and Master of fore-and-aft rigged vessels will be issued to candidates who have served at least one year in fore-and-aft-rigged or partly in fore-and-aft-rigged and partly in square-rigged sailing vessels; or who, although, having the required service in square-rigged sailing vessels prove in course of examination that they are ignorant of the management of square-rigged ships. In other respects the qualifications for examination for such certificates are the same as for Ordinary certificates.

The examinations for the grades of Second Mate, Only Mate, First Mate, and Master, of fore-and-aft rigged vessels will be precisely the same as for the Ordinary certificates, excepting that in seamanship a knowledge of the management of square-rigged vessels is not required.

A certificate for fore-and-aft rigged vessels will not entitle the possessor to act in any case in which a certificate for square-rigged vessels is required. Amongst square-rigged vessels are classed full-rigged ships, barques, brigs, barquentines and brigantines.

A candidate possessing a certificate for fore-and-aft rigged vessels and desiring to be examined for an Ordinary certificate, must prove that he has served at sea at least one year in a square-rigged sailing vessel, unless he has previously held an Ordinary certificate of a lower grade.

41. **Steamship certificates.**—Certificates applying only to steamships are issued to candidates who are either unable to comply with the regulations which require them to have passed one year in square-rigged or fore-and-aft rigged sailing vessels or who prove in course of examination that they are ignorant of the management of these classes of sailing vessels. All the qualifying service prescribed for these certificates may have been performed in steamships.

These certificates will entitle the holders to go to sea as Masters or Mates of foreign-going steamships, but will not entitle them to go to sea as Masters or Mates of foreign-going sailing ships.

There will be no distinction in these certificates between fore-and-aft rigged steamships and square-rigged steamships.

42. **Second Mate, Steamships.**—The qualifications as to age and service are the same as for an Ordinary Second Mate's certificates (*see* rule 28) excepting that the whole of the service may have been performed in steamships and that no service in square-rigged sailing vessels is required. Every candidate will be required to produce a valid certificate of efficiency as life boatmen.

43. **Second Mate, Steamships: Navigation.**—The examination in navigation for a Second Mate's certificate for foreign-going steamships will be precisely the same as that prescribed for an Ordinary Second Mate's certificate.

45. **Only Mate, Steamships.**—The qualifications as to age and service are the same as for an Only Mate's Ordinary certificate (*see* rule 31) excepting that the whole of the service may have been performed in steamships and no service in sailing vessels is required. Every candidate will be required to produce a valid certificate of efficiency as life boatmen unless he already holds a certificate of competency of lower grade.

46. **First Mate, Steamships.**—The qualifications as to age and service are the same as for a First Mate's Ordinary certificate (*see* rule 32) excepting that the whole of the service may have been in steamships, and that no service in sailing vessels is required.

47. **Mate, Steamship: Navigation.**—The examination in navigation for an Only or First Mate's certificates for foreign-going steamships will be precisely the same as that prescribed for an Ordinary First Mate's certificate (*see* rule 33).

48. **Mate, Steamships: Seamanship.**—In addition to the qualifications required for a Second Mate's Steamship certificate, an Only or First Mate will be required to show a knowledge of the following subjects:—

(*j*) How to turn a steamship short round.

(*k*) How to get a cast of the deep sea lead in heavy weather.

(*l*) Any other questions appertaining to the duties of a First Mate of a steamship which the Examiner may think necessary to put to him.

49. **Master, Steamships.**—The qualification as to age and service are the same as for a Master's Ordinary certificate for a foreign-going ship (*see* rule 35), excepting that the whole of the service may have been performed in steamships, and that no service in sailing vessels is required.

50. **Master, Steamships: Navigation.**—The examination in navigation for a Master's certificate for foreign-going steamships will be precisely the same as that prescribed for an Ordinary Master's certificate (*see* rule 36).

51. **Master, Steamships: Seamanship.**—In addition to the qualifications required for the grades of Second and First Mate, steamships a Master will be required to show a knowledge of the following subjects:—

(*a*) Construction of rafts and jury rudders suitable for screw steamships.

(*b*) The preservation of the ship's screw in the event of wreck.

(*j*) Any other questions appertaining to the management of a steamship which the Examiner may think it necessary to put to him.

52. **Steamship certificates, how changed.**—A candidate possessing a certificate for foreign-going steamships, and desiring to be examined for an Ordinary certificate, must prove that he has served at sea at least one year in a square-rigged sailing vessel, unless he has previously held an Ordinary certificate of a lower grade.

53. **Mate, Home-trade.**—A candidate must be not less than nineteen years of age, and have served four years at sea.

Every candidate will be required to produce a valid Certificate of Efficiency as Lifeboatman.

54. **Mate, Home-Trade: Navigation.**—He must write a legible hand and spell correctly, and understand the first five rules of arithmetic, both simple and compound. He must be able to take a bearing by compass, be conversant with the use of a Mercator's Chart, and be able to find, on a chart or plan, the course or courses to steer and the distance or distances from one given position to another; to find the ship's position, together with the set and drift (if any) on a chart or plan from cross bearings of two objects; to find the ship's position from two bearings of the same or different objects, the course and distance run between taking the bearings being given, making due allowance for a given tide or current; also the distance of the ship from the objects or any given position at the time of taking the second bearing; to find on a chart or plan the course to steer by compass in order to

counteract the effect of a given tide or current and to find the distance the ship will make good towards a given point in a certain time, and to work out practically the correction to apply to soundings taken at a given time and place, to compare with the depth marked on the chart; also, to fix the ship's position by horizontal sextant angles, using a station pointer for plotting it on the chart or plan, etc., and give a method of finding approximately the time of high water at any given place without the aid of the Admiralty or other Tide Tables. He will also be required to explain orally the markings, signs and abbreviations on Admiralty charts and plans, the use of the sextant, to be able to observe with it, to read *off* and *on* the arc, and to find the index error by the horizon. He will also be required to attain a minimum speed of 10 words a minute in semaphore and 6 words a minute in Morse flashing and 5 words a minute in Morse flag waving, and to have a good working knowledge of the International Code of Signals and Allied Signal Manual.

55. **Mate, Home-trade: Seamanship.**—He must possess a thorough knowledge of the Rule of the Road as regards both steamers and sailing vessels, their regulation lights, and fog and sound signals. He must be able to describe the signals of distress, the signals to be made by ships wanting a pilot, and the liabilities and penalties incurred by the misuse of these signals: also the use and management of the rocket apparatus in the event of his vessel being stranded. He must be able to mark and use the lead log lines, to moor and unmoor a vessel, and to manage a ship's boat in heavy weather, etc., etc. He must also understand the construction, use and action of the bulkhead sluices, the engine-room telegraph, etc., and to answer any other questions appertaining to the duties of the Mate of a home-trade ship which the examiner may think proper to put to him.

56. **Master, Home-trade*.**—A candidate must be not less than twenty-one years of age and have served five years at sea, of which—

(*a*) one year must have been in a capacity not lower than that of Only Mate of a home-trade or coasting vessel, whilst holding a Mate's certificate for home-trade ships, or a Second Mate's certificate for foreign-going vessels;

(*b*) *or*, two and a half years must have been in a capacity not lower than Second Mate of a home-trade or coasting vessel *in charge of a watch*, whilst holding a Mate's certificate for home-trade ships, or a Second Mate's certificate for foreign-going vessels (*see* rule 84).

(*c*) *or*, one year must have been as Pilot with a First Class pilot's certificate (*see* rule 79).

57. **Master, Home-trade: Navigation.**—In addition to the qualifications required of a Mate of a home-trade passenger ship, a Master will be required to find the latitude by a meridian altitude of the sun, find compass corrections by Amplitude and Time Azimuth of the sun, and to give written answers to certain practical questions on the subject of the deviation of the compass. (*See* also supplementary *viva voce* test rule 129.)

58. **Master, Home-trade: Seamanship.**—In addition to the qualifications required of a Mate of a home-trade ship, a Master must understand how to rig a sea anchor, and what means to apply to keep a steamship with machinery disabled out of the trough of the sea; also how to get a cast of the lead in heavy weather, etc. He will be examined as to his resources for the preservation of the crew and passengers in the event of wreck and the steps to be taken if his vessel is disabled and drifting towards a lee shore, and will be required to answer any other questions appertaining to the management of a home-trade ship which the Examiner may think necessary to put to him.

59. **Yacht Certificate.**—The examination for these certificates is purely voluntary and is confined to persons who command their own British sea-going pleasure yachts. A Master of a yacht who is not also the sole owner, or who is under 21 years of age, is not eligible for examination.

* For convenience of calculation the service required is stated in a tabular form in Appendix H.

Only one description of certificate will be issued, whether the yacht is foreign-going or cruises within the home-trade limits.

The certificate will not entitle the holder to command any vessel except the pleasure yacht or yachts, of which he is at the time the sole owner.

Candidates are not required to have served any specified time afloat, as it is believed that their sea knowledge will be sufficiently tested by the examination they will have to pass in seamanship.

Testimonials of service need not be shown, but a candidate for examination will be required to produce a statutory declaration to the effect (*1*) that he is sole owner of the yacht; (*2*) that the yacht is sea-going; (*3*) that it is not to be used for trading purposes. He will also be required to fill up the form of application (Form Exn. 2), and pay the fee of Rs. 30 at the Port Office, as prescribed in rule 21.

In all other respects, except that the candidate will not be required to produce a "First Aid" certificate, the regulations relating to examinations of Masters of foreign-going ships will apply in these cases.

60. **Yacht Master: Navigation.**—The examination in navigation for a Yacht Master's certificate will be precisely the same as that prescribed for an Ordinary Master's certificate, except that in the civil duties of a shipmaster the Master of a yacht will only be expected to possess a knowledge of what he is required to do by M. S. Acts.

61. **Yacht Master: Seamanship.**—He must give satisfactory answers as to his knowledge of making and taking in sail, and as to the management of a yacht under canvas in moderate and in stormy weather. He must have a thorough knowledge of the Rule of the Road at sea as regards both steamers and sailing vessels, their regulation lights and fog and sound signals, and be able to describe the signals of distress, and the signals to be made by ships wanting a pilot and the liabilities and penalties incurred by the misuse of these signals. He must also understand the use and management of the rocket apparatus in the event of his vessel being stranded. He must be able to mark and use the lead and log lines; to cast a vessel on a lee shore; to moor and unmoor a ship; to keep a clear anchor, and to carry out an anchor. He must know how to keep his vessel out of the trough of the sea in the event of accident; how to rig rafts and jury rudders, etc.; and what steps to take if his vessel is disabled or unmanageable and drifting towards a lee shore. He will also be examined as to his resources for the preservation of the crew in the event of wreck. He must also possess a knowledge of the measures he should adopt for preventing and checking an outbreak of scurvy on board; and be prepared to answer any other questions relating to the management of a yacht, either steam or sailing, which the examiner may ask.

62. **Voluntary Examination in Compass Deviation.**—Any person holding a certificate of any grade in the foreign or home trade or as Master of his own pleasure yacht, who wishes to pass a voluntary examination in compass deviation, can at any time be examined upon filling up the usual form of application, and paying to the Port Officer the fee of Rs. 15. If the candidate passes the examination a note to that effect will be made upon his certificate.

63. **Voluntary Examination in signalling.**—The examination in Signalling as prescribed for candidates for the Extra Master's certificate is open as a voluntary examination to all persons holding, or who have passed for, or who are candidates for, a certificate of competency of any grade.

If the candidate passes, the fact with the date and place of passing will be recorded upon his certificate of competency.

Candidates may be examined at any port where Ordinary examinations are held upon filling up the form of application (Exn. 2) and paying the fee of Rs. 15. (*See* Appendix B.)

No fee, however, will be charged for this examination if it is taken at the same time as that at which a candidate is examined for any certificate of competency.

64. **Voluntary Examination in Steam.**—These examinations are provided for the purpose of giving Masters and Mates who are possessed of certificates of competency an opportunity of undergoing a voluntary examination as to their practical knowledge of the use and working of the steam-engine. They are conducted under the superintendence of the Port Officer at such times as he may appoint for the purpose.

The examination is open to any person who holds a Certificate of any grade in the foreign or home trade or as Master of his own pleasure yacht. Full particulars of the examination are given in Appendix F.

65. **Examination in Steam: how to apply.**—Candidates should fill up the form of application (Form Exn. 2) at the Port Office, pay the fee of Rs. 15 and deposit their certificates and testimonials with the Port Officer, who will inform them when and where to attend to be examined. The usual testimonials for sobriety and good conduct for at least the last 18 months preceding the date of application to be examined must be produced.

66. **Examination in Steam: endorsement of certificate.**—If the candidate passes, Form Exn. 15, together with a written report of the examination, should be sent to the Port Officer and the candidate's certificate, together with the Form Exn. 2, will be sent to the Local Government; the words "Certified to have passed in Steam," with the date and place of examination, will then be entered on the certificate and its duplicate, and the certificate will be sent to the Port Officer at the port named in the Form Exn. 2, and will be delivered to the candidate in the usual manner.

The endorsement of a Master's or Mate's Certificate for "Steam" does not, however, imply that he is qualified to perform the duties of an Engineer.

67. **Examination in Steam: failure.**—If the candidate fails to pass his Certificate will be returned to him at once, but he may not present himself for re-examination until the expiration of three months from the date of failure.

68. **Certificates of Service.**—A person who has attained the rank of lieutenant in His Majesty's Navy or in His Majesty's Royal Indian Marine Service, is entitled to apply for a certificate of service as Master of a foreign-going ship without examination. This certificate will not entitle the holder to go to sea as Master or Mate of a home-trade ship.

Certificate of service will be issued by the Board of Trade only. Applications for certificates of service of the Royal Indian Marine must be made on a printed form, Exn. 18 which will be supplied free of charge on application to the Director of the Royal Indian Marine.

Applicants on duty in India should submit their claims to the Director for transmission to the Government of India and the India Office. Officers on leave in England should submit their claims to the India Office on the printed form which may be obtained from that office.

Applications for certificates of service by officers of the Royal Navy on the active list must be made through their commanding officers, and applications from officers of the Royal Navy on half-pay must be made to the Secretary of the Admiralty, who in either case will forward the application to the Board of Trade.

69. **Ambulance Certificates and Government Awards.**—An officer in the Mercantile Marine who holds a certificate of proficiency in First Aid to the Injured from the St. John's or St. Andrew's Ambulance Association or some equivalent certificate, can have the fact endorsed on his certificate of competency provided the latter was issued before April 1st, 1908, if the two certificates are forwarded to the Port Officer.

Recipients of Government awards can also have the fact stamped on their certificates of competency, if they submit evidence of the award together with their certificate in a similar manner.

CHAPTER III.

RULES FOR ESTIMATING SEA SERVICE.

70. **Sea service.**—In these Regulations sea service is reckoned from the commencement to the termination of the voyage. The certificates of discharge for service in the foreign trade will generally be accepted as proof of sea service, but certificates of discharge for service in the home or coasting trade must always be sent to the Port Officer for verification. Port Officer and Examiners will be careful to see that these discharges have not been in any way tampered with, and will report any suspicious case to the Local Government.

For all certificates of competency as Master or Mate in the Mercantile Marine, the qualifying service usually required is service performed in ordinary trading vessels. While the Regulations provide for the acceptance in part of certain kinds of non-trading service (*e.g.*, that performed in fishing-boats, yachts, pilot vessels, etc.), non-trading service not specially provided for in the Regulations cannot be accepted as qualifying service unless it has been submitted to the Local Government and their sanction obtained.

71. **Sea service for foreign-going certificates.**—For foreign-going certificates the term "sea service" means, unless otherwise stated, service performed in foreign-going vessels.

72. **Service under the Admiralty.**—All service afloat in His Majesty's ships or in auxiliary supply ships or any other ships in attendance on the Fleet between August 4th, 1914 and December 31st, 1920 inclusive will be accepted in full (subject to the ordinary conditions as laid down in these Regulations) as qualifying sea service for either Home Trade or Foreign-going certificate.

The Local Government cannot undertake to accept the whole or any definite proportion of service in the Royal Naval Reserve, which is not qualifying service in accordance with these Regulations, but they will be prepared to consider sympathetically an application for examination from a candidate who has been prevented by his service in the Royal Naval Reserve between August 4th, 1914 and December 31st, 1920 inclusive from complying fully with the requirements.

73. **Service in the Army.**—The Local Government is anxious that, so far as is reasonably possible, seamen or apprentices who served in the Army between August 4th, 1914 and December 31st, 1920 inclusive, should not be hindered in their ordinary profession; and they are prepared to consider sympathetically any application to be examined by a candidate who has been prevented from complying fully with the Regulations owing to his service in the Army.

74. **Officers and seamen interned abroad.**—A portion of the time spent by officers and seamen interned abroad between August 4th, 1914 and December 31st, 1920 inclusive, will be accepted in lieu of a portion of the qualifying sea service required to qualify them for examination for a certificate of competency. The amount of such time so allowed will be decided by the Port Officer.

75. **Service in Home Trade.**—For Home-Trade ship certificates serving in the home-trade is regarded as equivalent to service in the foreign trade; but for Foreign-going certificates it is regarded as only equivalent to two-thirds of the time served in the foreign trade.

The amount of service as Master, First Mate or only Mate in the home trade which will qualify a candidate for examination for a certificate as Master or First Mate (foreign-going) is shown in Rules 32 and 35.

In addition the Port Officer will be prepared to consider on its merits any application by a candidate for a first Mate's (foreign-going) certificate for the acceptance of time served as Second Mate in the home trade. The acceptance of such service will be subject to the following general considerations:—

(*a*) An adequate proportion of the time must have been spent in actual service at sea, *i.e.*, outside partially smooth water limits.

(*b*) The service must have involved real responsibility and an adequate proportion of it must have been spent in sole charge of a watch at sea.

(*c*) The service must have been performed while in the possession of a certificate as Second Mate (foreign-going).

The proportion of the time which will be accepted will depend upon the particular circumstances of each case, but in no case will time spent in the home trade be accepted as equivalent to more than two-thirds of the same period of time spent in the foreign trade. Every case in which a candidate claims such services as qualifying must be referred to the Port Officer.

Service as Second Mate in the home trade will not be accepted as qualifying for examination for a Master's certificate (foreign-going).

Service in a lower grade than Second Mate in the home trade will not be recognised as Officer's service towards qualifying a candidate for examination for a foreign-going certificate unless the candidate can produce a testimonial certifying that the service was merely a preliminary to or the finish of a foreign-going voyage and he served on the foreign voyage in a capacity not lower than the capacity in which he served on the coasting articles.

In the case of coasting voyages service in ships trading entirely abroad will be accepted as equivalent to service in foreign-going ships provided that the distance between the extreme ports visited during the course of the voyage is at least 500 miles. If the distance is less than 500 miles, the service will only be accepted as equivalent to service in the home trade. In all cases the length of service is deemed to commence on the date of sailing from the port of departure or home port and to end on the date of arrival at the home port. Such service must be vouched for in the form laid down in Appendix L.

76. **Certificate, meaning of.**—By the word " certificate " is meant a certificate of competency granted by the Board of Trade under the Merchant Shipping Acts, or by the Government of British self-governing Dominion, Colony, or Possession, under an Order in Council issued in pursuance of the Merchant Shipping Acts.

A list of the Colonial certificates referred to will be found in Appendix K. They are of the same force as the corresponding certificates granted by the Board of Trade.

77. **Colonial local certificates.**—The holder of a Colonial certificate for foreign-going ships not granted under the Merchant Shipping Acts who desires to be examined for a Colonial certificate of the same grade which is granted under the said Acts, must prove that he has performed the amount of service required by these rules to entitle him to hold such a certificate. He must also produce satisfactory testimonials as to character for at least the last 12 months of sea service preceding his application to be examined in accordance with these rules.

78. **Foreign-going certificates.**—Where a foreign-going certificate is required in order to qualify a candidate for examination, the certificate may be either an Ordinary certificate, or a certificate for fore-and-aft rigged vessels, or a certificate for foreign-going steamships.

79. **Pilot defined.**—The term " pilot " in these rules (*see* rules 32 and 56) means a pilot who is employed in general pilotage, and holds a first class pilot's certificate from some competent authority authorising him to pilot vessels outside harbour and partially smooth water limits. A Master Pilot of the Bengal Pilot Service is for the purpose of this rule to be considered as a first class pilot.

80. **Nature of Service determined by actual position on board ship.**—Sea service, in the foreign or home trade, cannot be regarded as qualifying for examination for certificates of competency unless it can be verified by reference to the articles of the ship on which it was performed, *e.g.*, service claimed by testimonial or otherwise to have been as Mate when the actual rating as shown by the articles was only that of boat-swain or other petty officer will not be accepted where officer's service is required.

81. **Officer's service.**—For the purposes of these rules service as First Mate means service as the senior of the three-watch-keeping officers on board a ship, service as Second Mate means service as next in seniority and so on—for instance service as Junior or auxiliary First Mate or as First Mate under a Chief Officer will count as First Mate's service if the Chief Officer did not keep a watch but otherwise will

count as Second Mate's Service. Similarly service as junior or auxiliary Second Mate or as Second Mate below an auxiliary First Mate will count as Second Mate's service if there were only one watch-keeping officer above him, but otherwise will count as Third Mate's service. The facts in each case must be clearly established by the candidate's testimonials. For the definition of "watch-keeping service" *see* rule 84.

82. **Service in possession of certificate.**—Officer's service to be recognised as qualifying for purposes of examination must be performed with the requisite certificate as specified in appendix I. The officer's service performed by men who have been duly promoted during the course of a voyage (*see* rule 85) or who, in consequence of serving in vessels plying between ports abroad, have been unable to obtain the necessary certificates, may, however, be recognised, provided that it is in other respects satisfactory.

83. **Foreign officers.**—Foreign officers who wish to apply for a British certificate of competency must in all cases have performed their qualifying officer's service with the requisite British certificate. The service may have been performed in foreign vessels if the candidate can produce satisfactory testimonials as to conduct and character, and is able to prove that the service has been in the required capacities, and that during the period of service he has held a British certificate of competency of the grade required by the rules (*see* rule 86).

84. **In charge of a watch.**—When service in charge of a watch in either the foreign or home trade is specified in the rules, candidates for certificates of competency as First Mate must be able to prove that during eight months at least of their service they have kept full regular watch *during the whole voyage, i.e., from port to port*, which, if in the foreign trade, must amount to not less than 8 hours of each 24 hours' service. Where a candidate can prove eight months of such full service, service performed in cases where watches were doubled at any time during the voyage will be accepted as equivalent to half the same period of full watch-keeping service. No amount of occasional service will, by itself, be accepted as qualifying service. Candidates for certificates of competency as Master will be required to have served during the whole of the time specified by the rules, in full charge of a watch, and no service performed under the system of double watches, except as the senior officer, will be accepted as qualifying service for a certificate of this grade. Great care must be exercised by the Examiners and others in regard to such service and unless the candidate produces a clear and satisfactory testimonial specially setting forth the above facts, from the Master or owner of the vessel in which the service was performed, it must not be accepted.

85. **Promotion during voyage.**—Whenever a man has, from any cause, been regularly promoted on the occurrence of a vacancy in the course of the voyage from the rank in which he first shipped, and such promotion, with the ground on which it has been made, is properly entered in the articles and in the Official Log Book, he will receive credit for his service in the higher grade for the period subsequent to his promotion.

86. **Evidence as to Service in foreign vessels.**—The testimonials of service of foreigners and of officers and seamen who are British subjects serving in foreign vessels, which cannot be verified by the Port Officers, must be confirmed either by the Consul of the country to which the ship in which the candidate served belonged or by some other recognised official authority of that country, or by the testimony of some credible person on the spot having personal knowledge of the facts required to be established. The production, however, of such proofs will not of necessity be deemed sufficient. Each case will be decided on its own merits, and if the sufficiency of the proofs given appears to be at all doubtful, it must be referred to the local Government for decision.

87. **Auxiliary screw ships.**—Service in vessels with auxiliary steam or motor power which use their propelling machinery only in calms or during light winds, is considered as service performed in sailing vessels.

88. **Excursion steamers.**—In the case of excursion steamers only such service as can be proved to have been performed at sea will be accepted.

89. **Service as carpenter, sailmaker, cook, steward, etc.**—Candidates whose service has been performed in capacities other than apprentice, midshipman, cadet, ordinary seaman or able seaman—*e.g.*, men who

have served as carpenter, or sailmaker, or as cook in small vessels where cooking is only a part of a man's duty—will be required to satisfy the Port Officer that they have during the whole time claimed performed deck duties in addition to their own particular work, and that they have a good knowledge of seamanship. These facts may possibly be proved by the production of satisfactory certificates from the Masters with whom the candidate has served; but such service will only be accepted as equivalent to two-thirds of the time served as ordinary deck hand. Failing satisfactory evidence, the applicant will be required to perform additional service in the capacity of seaman. Service as cook (under other conditions than the above), or as steward, purser, will not be accepted.

90. **Service as wireless operator.**—If a candidate has been engaged on articles of agreement as seaman or in any seaman rating and has served both as a seaman and as a wireless operator two-thirds of such service may be counted as qualifying service. But the candidate must prove that during the whole period claimed he performed deck duties in addition to the duties of a wireless operator.

If a candidate has been engaged on articles of agreement as a wireless operator and has served as such, one quarter of the service up to a maximum of twelve months may be counted as qualifying service.

91. **Service in fishing or pilot vessels.**—Service performed exclusively in trawlers and other deep sea fishing vessels, or in pilot vessels, will not qualify a candidate for examination. He must in addition prove the following service:—

(*a*) For a Foreign-going certificate, service for at least 18 months in an ordinary trading vessel in the foreign trade, or the equivalent period, 27 months, in the home or coasting trade.

(*b*) For a Home-Trade Ship certificate, service for at least twelve months in an ordinary trading vessel in the foreign, home, or coasting trade.

92. **Service in yachts.**—Service in pleasure yachts will be accepted as qualifying service under the following conditions: —

(*a*) It must in all cases be verified by satisfactory proofs, which must set forth clearly and in detail the nature and duration of the service claimed, and it must be distinctly understood that only actual sea service will be accepted, and that service in harbour or port is inadmissible.

(*b*) Service in foreign-going yachts will be accepted in full; and service performed within Home-Trade limits in sailing yachts of not less than 50 tons net register or in steam yachts of not less than 80 tons gross register will be accepted in the proportion stated in rule 75; but candidates must also show (1) for a Foreign-going certificate, service for at least 18 months in an ordinary trading vessel in the foreign trade, or for the equivalent period, 27 months, in an ordinary trading vessel in the home or coasting trade; (2) for a Home-Trade ship certificate, service for at least 12 months in an ordinary trading vessel in the foreign, home or coasting trade.

(*c*) Service within Home-Trade limits in sailing yachts of 20 tons net register, or in steam yachts of 40 tons gross register, will be accepted towards qualifying a candidate for a foreign-going certificate as equivalent to half the same time served in the foreign trade, but no amount of such service shall count as more than two years' service in the foreign trade, and no such service shall count as officer's service to qualify candidates for foreign-going certificates.

(*d*) Service within home-trade limits in sailing yachts of not less than 20 tons net register, or in steam yacht of not less than 40 tons gross register, will be accepted at the ordinary rate as qualifying service for Home-Trade Ship certificates, but candidates must prove that they have in addition served for at least 12 months in an ordinary trading vessel in the foreign, home, or coasting trade.

(*e*) Service within Home-Trade limits in sailing yachts of less than 20 tons net register, or in steam yachts of less than 40 tons gross register, will not be accepted as qualifying service for any class of certificate.

93. **Service in tugs, War Department vessels, etc.**—Service performed in tugs outside partially smooth water limits may be accepted as sea service for the purpose of qualifying a candidate for a Mate's or Master's certificate for Home-Trade Ships only.

Service performed in War Department vessels employed outside partially smooth water limits may be accepted as sea service to qualify a candidate for a Mate's or Master's certificate for home-trade ships only. This service cannot be accepted towards qualifying a candidate for a Foreign-going certificate, unless there should be some very exceptional circumstances, when the case, together with all the candidate's papers, should be submitted to the Port Officer for his consideration.

94. **Service in dredgers.**—Service in steam hopper barges may, subject to the provisions of rule 96, be allowed to count towards qualifying a candidate for a Mate's certificate of competency for home-trade ships provided the candidate can prove at least two years' service in an ordinary trading vessel in either the home, coasting, or foreign trade. Service in these steam hoppers will not be accepted as officer's service towards qualifying a candidate for a Master's certificate.

95. **Service in lightships or engine-room.**—Service in lightships or in an engine-room will not be accepted as sea service.

96. **Service on rivers.**—Service performed on rivers, no matter of what size, and service performed within smooth or partially smooth water limits will not be accepted.

Where any doubt whatever exists on this point, the candidate will be required to produce a certificate from the Master or owner of the vessel in which the service was performed, before the service can be accepted.

97. **Service in cable ships.**—A candidate, a part of whose qualifying service has been performed in cable ships, will be required to produce, in addition to the usual evidence of sea service, a statement or certificate from the owners of the vessel showing the amount of time actually spent at sea. If the time so spent constitutes or exceeds two-thirds of the total time on articles, this total time may be accepted in full as qualifying service, but in the event of the actual sea service falling below this proportion, the deficiency must be made up by additional service at sea before the total time on articles can be accepted in full as qualifying service.

98. **Training ships.**—Time served on board a training ship will be allowed to count as equivalent to one-half the same time spent in service at sea, up to a limit of two years (*i.e*, no length of service will be allowed to count as more than one year at sea), provided that the candidate can produce a certificate from the Committee or Captain Superintendent that he has conducted himself creditably and passed a good examination in seamanship so far as it is practised in the training ship, as well as in other matters down to the time of his leaving the ship. Training ship service will not be regarded as equivalent to service in square-rigged vessels. A similar concession is allowed in the case of time spent at the Nautical College, Pangbourne.

99. **Shore Schools for nautical training.**—Time spent at a school for Nautical Training conducted on premises ashore may be allowed to count subject to age limit laid down in rule 100 in some proportion, not exceeding one-half, as service at sea provided that—

(*a*) the school is recognised under the appropriate Regulations by the Board of Education or by the Scottish Education Department as the case may be;

(*b*) after an inspection by one of their officers the Board of Trade are satisfied that the school gives a training that justifies time spent there being reckoned as part of the necessary qualifying time for a certificate of competency;

(*c*) the candidate produces a satisfactory certificate as regards conduct and proficiency from the authorities of the school on leaving it.

The schools to which these arrangements may apply are of three kinds:—

(*i*) Schools at which a boy resides and receives training for a period of years: the maximum remission of sea service that will be allowed in respect of attendance at such a school will be fixed at the time of approval; it will never exceed 12 months.

(*ii*) Courses in navigation and seamanship at junior Technical Schools or similar non-residential institutions which boys attend before going to sea: the maximum remission of sea service in these cases will be fixed at the time of approval; it will never exceed six months.

(*iii*) Senior courses in Navigation at Technical or other similar non-residential Schools which candidates attend after completing the whole or the larger part of the service required to qualify for examination for a second Mate's Certificate: the maximum remission of sea service in these cases will be fixed at the time of approval; it will never exceed three months.

In the case of schools of classes (*ii*) and (*iii*) the certificate which the candidate produces [clause (*c*) above] must in addition testify to the candidate's continuous and regular attendance at all the approved classes and also in the case of schools of class (*iii*) must state the total number of hours during which he has attended at the school.

A candidate who at different times has attended two or more approved schools of Nautical Training will be allowed a remission of sea service in respect of attendance at each of them subject to the condition that the total remission of sea service in respect of attendance at approved schools will not in any event exceed 12 months.

Time spent at approved schools will not be accepted in lieu of any part of the officer's service required to qualify a candidate for examination for a certificate as First Mate or Master; or in lieu of sea service required in consequence of failure in seamanship (*see* rule 15).

A list of approved schools of nautical training is given in Appendix I.

100. **Training ships and schools: Age limit.**— No allowance will be made in respect of time spent on board training ships or at schools of nautical training after the 1st January 1925, by boys younger than 14. Time so spent before the 1st January 1925, will not be affected by this alteration, regardless of the date at which the candidates concerned present themselves for examination.

101. **Apprentices.**—The *whole* of the time claimed under indentures of apprenticeship will be accepted as actual sea service to qualify under rule 29 for a Second Mate's certificate provided (*a*) that the indentures have not been cancelled through some fault of the candidate, but are endorsed by the owner or Master to whom he was bound to the effect that he has performed his service faithfully during the time he remained as apprentice; and (*b*) that the candidate has served at sea four-fifths of the time claimed, that is to say, has not spent more than one-fifth of the time in home ports.*

In cases where an apprentice is qualified for examination before the expiration of his indentures, *e.g.*, where he has had training ship or other sea service prior to being bound, which, together with his actual time as apprentice, makes up the required four-years, or where his indentures are for a period of more than four years, a letter from the Owner or Master will be accepted in place of the endorsement referred to above.

In the event of the candidate being short of the required four-fifths of the time claimed as apprentice out of the United Kingdom, he will be required to show sufficient additional sea service, either as seaman or junior officer to make up four-fifths of the time claimed.

The above stated general concession to apprentices cannot, however, be taken to cover a case in which during a large proportion of the period of apprenticeship, the vessel on which the apprentice is serving has been laid up in a foreign port. The proportion of the period of apprenticeship which can be accepted as qualifying service in such a case is dependent on the actual circumstances and each case will be considered on its merits. The Local Government are prepared to make as generous an allowance for such service as they properly can, but they are unable to forego the essential condition that candidates for certificates of competency must have sufficient experience of actual sea service.

* In the case of cable ships the time may be counted in full if two-thirds of this period of four-fifths, i.e., eight-fifteenths of the whole-time under indentures has been spent in service on board the ship out of the United Kingdom and away from the ships' base port. (*Vide* rule 97.)

102. **Midshipmen and cadets.**—The *whole* of the time served as midshipman or cadet under indentures will also be accepted subject to the *same* conditions as those laid down for apprentices; and the same will be the case even when not bound by indentures, provided that the service as midshipman or cadet has been continuous, and that on the date of the termination of the period of service claimed in this capacity the candidate was on articles of agreement, and that he is able to comply with the requirements laid down in the matter of serving or making up the four-fifths period at sea during the time claimed.

103. **Lighthouse tenders.**—Service performed in the sea-going steam vessels of the Trinity House, of the Commissioners of Northern Lighthouses or of the Commisisoners of Irish Lights, or in Irish and Scotch Fishery Cruisers, will be accepted as sea service for the purpose of qualifying a candidate for examination for a home-trade ship certificate; but for a foreign-going certificate a candidate must show in addition to this service calculated in accordance with rule 75 at least twelve months in an ordinary trading vessel. In order to qualify a candidate for an ordinary certificate, this twelve months must have been performed in a square-rigged sailing vessel.

104. **Service in Royal Navy.**—Officers of the Royal Navy are at liberty to apply for certificates of service and to be examined for certificates of competency in the Mercantile Marine, but the Lords Commissioners of the Admiralty have directed that the application of officers on the active list should be made through their commanding officers, and that the applications of officers on half-pay should be made to the Secretary of the Admiralty, who, in either case, will forward the application to the Board of Trade. In the case of Royal Indian Marine officers, applications for certificates of service should be made on a printed form Exn. 18, which will be supplied free of charge on application to the Director of the Royal Indian Marine. Applicants on duty in India should submit their claims to the Director for transmission to the Government of India and the India Office. Officers on leave in England should submit their claims to the India Office on the printed form which may be obtained from that office.

The conditions on which certificates of service are issued are stated in rule 68.

105. **Qualifications required of Naval and Indian Marine Officers.**—Officers of the Royal Navy or of the Royal Indian Marine who wish to be examined for certificates of competency in the Mercantile Marine will be required to prove the following service, and if an officer wishes to obtain the ordinary certificate for foreign-going ships he must prove that at least twelve months of this required period was served under sail alone:—

(*a*) For second Mate. The officer must prove four years' service at sea.

(*b*) For only Mate. Five years' service at sea.

(*c*) For First Mate or Master. The officer must prove that he has attained the rank of lieutenant in the Royal Navy, or in the Royal Indian Marine.

106. **Service in Naval Training Colleges.**—Time spent at the Naval College at Darmouth will, subject to the conditions laid down in rule 99, be permitted to count as equivalent to one-half the same time spent in service at sea, and a similar allowance will be made in respect of time spent on courses on shore after promotion to the Acting Sub-Lieutenent, subject to the condition that the total remission of sea service in respect of all time spent on shore shall not exceed twelve months. Time spent in shore training will not be accepted in lieu of watch-keeping service.

107. **Service in Royal Naval Reserve.**—Lieutenants, sub-lieutenants, and acting sub-lieutenants of the Royal Naval Reserve who perform sea service on board His Majesty's ships, will if accompanied by a good report, be allowed to count such service as if it had been performed in foreign-going merchant ships, and the service will rank according to the certificate of competency held by the candidate at the time.

The time spent in periodical training in the Royal Naval Reserve on board sea-going vessels of the Royal Navy, if accompanied by a good report, will be accepted in full, but in the case of midshipmen, will not count as officer's service. In the case of service in Harbour ships and shore establishments of the Royal or Dominion Navies, only one-half of the time will be accepted as sea service, and no such service must amount to more than one-fourth of the time required for the particular grade of certificate applied for.

CHAPTER IV.

CONDUCT OF THE EXAMINATIONS.

108. The examinations will begin at 10 A.M. on each day. A regular luncheon interval will be given each day between 1 P.M. and 2 P.M., the *viva voce* and practical parts of the examination being taken at such times as may be convenient. The time allotted for each written part of the examination for each grade of certificate will be as follows:—

SECOND MATE.—Paper on Navigation and Nautical Astronomy 3 hours; Nautical Astronomy and Trigonometry 2 hours; Chart work 3 hours; Essay 1 hour.

FIRST OR ONLY MATE.—Paper on Navigation and Nautical Astronomy, 3 hours; Nautical Astronomy and Trigonometry, 2 hours; Chart work, 3 hours; Sumner problem, 2 hours; Meteorology paper, 1½ hours

MASTER.—Paper on Navigation and Nautical Astronomy, 3 hours; Nautical Astronomy and Trigonometry, 2 hours; Chart work, 3 hours; Meteorology paper, 1½ hours; Compass Deviation, 1½ hours; Naval Architecture, 1½ hours; Essay, 2 hours. A two hours' paper on a great circle problem will be added in some instances, and either the paper on Meteorology or Essay will be omitted.

HOME-TRADE MATE.—Essay to test spelling one hour; Arithmetic and Navigation three hours; Chart work three hours.

HOME-TRADE MASTER.—Arithmetic and Navigation paper, 2 hours; Chart work, 3 hours; Nautical Astronomy and Compass questions, 3 hours.

109. **Candidates to be punctual.**—Candidates are required to appear at the examination room punctually at the time appointed.

110. **Loose paper and books removed.**—Before commencing the examination the tables or desks must be cleared of all scraps of paper or books that are not used in the examination.

111. **No strangers admitted.**—No person will be allowed in the room during the examination other than those whose duties require them to be present.

No instructors will be allowed on the premises.

112. **Books and papers strictly forbidden.**—Candidates are prohibited from bringing into the examination room books or papers of any kind whatever. The slightest infringement of this rule will subject the offender to all the penalties of a failure, and he will not be allowed to present himself for re-examination for a period of three months.

113. **All work to be shown.**—No candidate will be allowed to work out his problems on waste paper, or to write on the blotting paper supplied for his use in the examination. Violation of this rule will subject the candidate to all the penalties of a failure.

A sheet of blotting paper should be issued to each candidate with the first examination paper, and it must be returned to the Examiner when the last paper is completed each day. The Examiner will be careful to see that the blotting paper has not been used by the candidate in solving his problems, or for conveying information to other candidates.

114. **Instruments, Books, etc., are provided.**—All instruments, books, etc., necessary for use in the examinations are supplied by the Local Government.

115. **Leaving room or building.**—No candidate may leave the examination room without permission and without giving up the paper on which he is engaged. Under no circumstances will a candidate be allowed to leave the building while the examination is proceeding. Violation of this rule will subject the candidate to all the penalties of a failure.

116. **Copying, etc., to be prevented.**—Candidates should be so placed as to prevent one copying from the other, and no communication whatever between the candidates should be allowed.

117. **Penalty for Copying, etc.**—In the event of any candidate being discovered referring to any book or paper, or copying from another, or affording any assistance or giving any information to another, or communicating in any way with another, during the time of examination, or copying any part of the problems for the purpose of taking them out of the examination rooms he will subject himself to all the penalties of a failure and will not be allowed to be examined for a period of six months.

A candidate guilty of a second offence will not be allowed to be examined until 12 months have elapsed.

118. **Injury to books, instruments, etc.**—If a candidate defaces, blots, writes in, or otherwise injures any book or form belonging to the Local Government, his papers will be retained until he has replaced the damaged book or document. He will not be allowed to remove the damaged book or document or instruments and will be subjected to all the penalties of a failure.

119. **Silence.**—Perfect silence is to be preserved in the examination room.

120. **Penalty for breach of rules.**—Any candidate violating any of the regulations, or being guilty of insolence to the Examiner, or of disorderly or improper conduct in or about the room, will render himself liable to the postponement of his examination, or, if he has passed, to the detention of his certificate for such period as the Local Government may direct.

121. **Examination papers: how to deal with.**—The examiner is expected to take special precautions to preclude the possibility of any person having access to examination papers. The responsibility of ensuring that this is effectually done will rest with the examiner. The examination papers of candidates must in all cases be sent to the Port Officer for his approval, together with the report of the examination on the forms Exn. 14 and Exn. 34.

122. **Examination in Navigation.**—The whole of the written portion of the examination will be taken on the marks system. The candidate will be furnished with sheets of the blank ruled paper (Exn. 30)* which is supplied for the purpose, with instructions that he is to work or write only on one side of the paper, and to answer in a clear and legible hand each of the questions on the paper, and to commence each answer by writing down the number of the question to which it relates in the margin. Marks will be allotted for each question, and candidates will be required to obtain 75 per cent. of the total marks in order to pass for an Ordinary Certificate. Papers will not be handed back to candidates for correction. Candidates will be allowed to complete the whole of their written work even although they may have lost more than 25 per cent. of the total marks obtainable before the conclusion of the examination.

In the 1925 Nautical Almanac (abridged edition) the time styled G. H. T., are reckoned from mid-night as in civil usage and not from noon. The problem in Nautical astronomy has been revised accordingly and all times therein given will be in the 24 hours notation unless otherwise stated in the problem.

123. **Compass Deviation.**—In answering questions on the tentative method of compass adjustment, the candidate will be tested by Beall's Compass Deviascope.

124. **Barometer, tides, etc.**—The examination on the barometer, thermometer, and hydrometer, prevailing winds and currents of the globe, trade, routes, and tides, will be conducted orally, and the questions asked by the Examiner, which will be constanly varied, will be confined to and based on the information given in the text-books mentioned in Appendix G; candidates will be required to have a fair intelligent knowledge of the contents of those books.

125. **Sextant.**—Particular attention should be paid to the sextant, the examination in which will be conducted orally and practically. Every candidate will be required to measure both vertical and horizontal angles, and will be examined practically as to his knowledge of the adjustments and the use of the various screws; he must be able to read correctly on and off the arc, and must also be able to find the index error both by the horizon and by the sun.

126. **Corrections by tables.**—The corrections by inspection of tables given in some of the works on navigation will not be allowed; every correction must appear on the papers of the candidates.

---

* No prescribed form.

127. **Degree of precision required.**—Degree of precision required in the solution of the problems:—

(*a*) Candidates are expected to work their problems to the nearest half-minute of arc and to the nearest second in time.

(*b*) In interpolating for the correct deviation to be applied in solving the chart questions, it will usually be sufficient if the candidate works throughout with the nearest degree of deviation taken from the deviation card; and even in cases where the deviations may vary but little, the nearest half degree used throughout will be sufficiently precise. It is not necessary that the candidate should waste his time in solving the course to odd minutes, as is sometimes done.

(*c*) In calculating the correction to apply to soundings the candidate is not required to work to the exact inch, as is sometimes done. It will be sufficient if he brings his answer within half a foot or so of a precise result.

128. **Candidates may use own method.**—Except where a particular method is specified in the questions candidates will be allowed to work out the various problems according to any method they have been accustomed to use, provided such method is correct in principle.

129. **Supplementary viva voce.**—Candidates will be examined orally as to their knowledge of all their written and worked papers.

130. **No candidate to be examined twice in a week.**—A candidate will not be allowed to undergo examination for the same grade of certificate twice in the same week, unless under very special and urgent circumstances, the Examiner should see fit to relax this rule. In that case a special set of problems should be supplied to the candidate.

Appendix B.

(*See* Rules 29 and 63.)

EXAMINATION IN SIGNALLING.

The examination in Signalling should in all cases and for all grades commence with an examination in the International Code and be followed by an examination in the Allied Signal Manual, including Morse Flashing, Flagwaving and Semaphore.

International Code.—Examiners are recommended to frame the examination in the International Code of Signals, upon the instructions and illustrations given at the commencement of Parts I and II of the Signal Books. The information there given will be found sufficient to indicate all the characteristics of the Code.

By the form of the hoist, an observer can at sight understand the nature of any signal he sees flying; the examination should, therefore, tend to elicit a clear knowledge of all the distinctive features of the Code.

With this object in view, the examiners should question the candidates as to the distinguishing forms of the respective hoists, which will be indicated according as a burgee, a pennant, or a square flag is uppermost, and also with regard to the number of flags, and the position of the Code flag when used in the hoist; making the 1, 2, 3 and 4 flag signals with the flags supplied for the purpose, and varying the signals made, showing 2 and 3 flag signals, with and without the Code flag included, or a Geographical or a Vocabulary signal, the name of a merchant ship or of a ship of war.

As the two latter signals would not be found in the Signal Book, the candidate should know where to find them and how to look them out.

The candidate should:—(*a*) Be able to read a signal at sight, so far as to name the flags composing the hoist. (*b*) Know the use of the Code pennant and of the pennants C and D, "Yes" and "No," also of the two burgees A and B, and the square flags S and P, and the flags used to indicate cholera, plague, etc., on board, and the quarantine flag. (*c*) Be required to signal some word or words not included in the vocabulary of the Code either by letters or by the Spelling Table (page 516) or both. (*d*) Have a knowledge of the Distant Signals, and of their object, and the different modes of signalling therewith. (*e*) Know the special Morse signals indicated by certain letters as given on page 550. (*f*) Have a good knowledge of the Distress Signals and understand the penalty which may be incurred by their improper use.

The International Code is used on board His Majesty's ships, and it has been adopted by all the principal Maritime Powers for their public as well as merchant ships.

Allied Signal Manual.—Candidates will be expected to know the meaning of any or all of the single flag signals given therein, and the significations of the Pilot Jack when incorporated in a hoist. They should also be required to make or read from the Pilot Jack table a hoist given by the Examiner. Candidates need not be expected to commit the Pilot Jack table to memory, but there should be no hesitation whatever in making or reading a signal. They should also know how to recognise any of the special Signals given at the end of the Allied Signal Manual.

Morse Flashing, Flagwaving and Semaphore.—Candidates for the voluntary examination in signalling will be required to attain a minimum speed of 12 words a minute in semaphore, 10 words a minute in Morse flashing and 6 words a minute in Morse flagwaving (the average length of a word being taken as 5 letters).

Candidates for other certificates will only be required to attain a speed of 6 words a minute in Morse flashing and 5 words a minute in Morse flagwaving and 10 words a minute in Semaphore.

In the ordinary examination, it will be sufficient if in Morse flashing a candidate is given a test card and a spelling message of 10 words, in Morse flagwaving a spelling message of 10 words, and in Semaphore a spelling message of 25 words.

In the voluntary examination in signalling, the Semaphore test will be a spelling message of 50 words.

The Morse, flashing and flagwaving test will be a test message (*see* Allied Signal Manual) followed by a spelling message of 25 words.

The candidates must attain a degree of accuracy of at least 90 per cent. both in making and reading in each method, *i.e.*, Flashing, Flagwaving and Semaphore.

In the examination in Morse flashing and flagwaving the candidate should be first required to make a test message, followed by a spelling message of 25 words. The examiner should then make a test message followed by a spelling message of 25 words to be read by the candidate.

The same procedure must be observed in the Semaphore examination, except that, as a test message is not given, the candidate will be required to make a spelling message of 50 words and then to read a message of 50 words made by the Examiner. The Semaphore messages may be made either by hand flags or mechanical Semaphore or both at the discretion of the Examiner.

In the Morse flashing and flagwaving examination, marks will be allotted for the test message in the proportion of 50·78 of a mark for each correct letter (see table at back of test card), and for the spelling message 2 marks for each correct word or group of figures. The candidate must for a pass gain an aggregate of at least 90 per cent. of the maximum marks in both spelling and test messages.

In the Semaphore examination 2 marks will be allotted for each correct word and 90 per cent. of the maximum must be obtained for a pass.

The spelling message is left to the discretion of the Examiner, and may be a passage from any book or newspaper in English. When the passage contains figures and the candidate does not choose to spell them out, the Examiner should see that the proper signs are made before and after the figures.

The message as read by the candidate should be taken down by another candidate where possible, otherwise by a clerk, or other person according as the Examiner may deem expedient.

Candidates should be thoroughly tested in the various signs and the procedure of calling up, sending and answering a signal, as laid down in the Allied Signal Manual, and this course should always be strictly adhered to.

Particular attention should be paid by Examiners to the accurate spacing of the Morse signs, and to the intervals between letters and words, both in flashing and flagwaving, and also to the correct making of the Semaphore signs. Any attempted increase of speed at the expense of accuracy should be discouraged.

The block letter test and spelling message as read by the candidate should be forwarded on the Form Exn. 19*a*, together with the percentage of marks allotted and report on the Form Exn. 19*b* to the Port Officer, with any remarks the Examiner may have to add with respect to the examination.

Note.—The International Code of Signals, with the Signal Letters of British Ships, is prepared by the Registrar-General of Shipping and Seamen, and may be obtained of the publishers, Messrs. Spottiswoode, Ballantyne & Co., 1, New Street Square, London, E. C. 4, and the principal booksellers at the various ports, price 5*s*.

The Official Mercantile Navy List and Maritime Directory may be obtained in like manner, price 25*s*.

The Allied Signal Manual may be obtained through any bookseller, or directly from His Majesty's Stationery Office, price 1*s*.

The attention of candidates is drawn to the fact that the Admiralty after consultation with the Board of Trade have established Signal Schools at London, Liverpool, South Shields, Glassgow and Cardiff where candidates for certificates of competency can obtain instructions in signalling free of charge.

APPENDIX C.

REGULATIONS FOR PREVENTING COLLISIONS AT SEA.

1. ORDER IN COUNCIL OF OCTOBER 13, 1910.

SCHEDULE 1.

Preliminary.

These Rules shall be followed by all vessels upon the high seas and in all waters connected therewith navigable by sea-going vessels.

In the following Rules every steam vessel which is under sail and not under steam is to be considered a sailing vessel, and every vessel under steam, whether under sail or not, it to be considered a steam vessel.

The word "steam vessel" shall include any vessel propelled by machinery.

A vessel is "under way" within the meaning of these Rules, when she is not at anchor, or made fast to the shore or aground.

Rules concerning lights, etc.

The word "visible" in these Rules, when applied to lights, shall mean visible on a dark night with a clear atmosphere.

Article 1. The rules concerning lights shall be complied with in all weathers from sunset to sunrise and during such time no other lights which may be mistaken for the prescribed lights shall be exhibited.

Article 2. A steam vessel when under way shall carry:—

(*a*) On or in front of the foremast, or if a vessel without a foremast, then in the fore part of the vessel, at a height above the hull, of not less than 20 feet, and if the breadth of the vessel exceeds 20 feet, then at a height above the hull not less than such a breadth, so, however, that the light need not be carried at a greater height above the hull than 40 feet, a bright white light so constructed as to show an unbroken light over an arc of the horizon of 20 points of the compass, so fixed as to throw the light 10 points on each side of the vessel, viz., from light ahead to 2 points abaft the beam on either side, and of such a character as to be visible at a distance of at least 5 miles.

(*b*) On the starboard side a green light so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to two points abaft the beam on the starboard side, and of such a character as to be visible at a distance of at least 2 miles.

(*c*) On the port side a red light so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to two points abaft the beam on the port side, and of such a character as to be visible at a distance of at least two miles.

(*d*) The said green and red side-lights shall be fitted with in-board screens projecting at least 3 feet forward from the light, so as to prevent these lights from being seen across the bow.

(*e*) A steam vessel when under way may carry an additional white light similar in construction to the light mentioned in subdivision (*a*). These two lights shall be so placed in line with the keel that one shall be at least 15 feet higher than the other, and in such a position with reference to each other that the lower light shall be forward of the upper one. The vertical distance between these lights shall be less than the horizontal distance.

Article 3. A steam vessel when towing another vessel shall, in addition to her side-lights, carry two bright white lights in a vertical line one over the other, not less than 6 feet apart, and when towing more than one vessel shall carry an additional bright white light 6 feet above or below such lights, if the length of the tow, measuring from the stern of the towing vessel to the stern of the last vessel towed, exceeds 600 feet. Each of these lights shall be of the same construction and character, and shall be carried in the same position as the white light mentioned in Article 2 (*a*), except the additional light, which may be carried at a height of not less than 14 feet above the hull.

Such steam vessel may carry a small white light abaft the funnel or aftermast for the vessel towed to steer by, but such light shall not be visible forward of the beam.

Article 4. (*a*) A vessel which from any accident is not under command shall carry at the same height as the white light mentioned in Article 2 (*a*), where they can best be seen, and, if a steam vessel, in lieu of that light, two red lights, in a vertical line one over the other, not less than 6 feet apart, and of such a character as to be visible all round the horizon at a distance of at least 2 miles; and shall by day carry in a vertical line one over the other not less than 6 feet apart, where they can best be seen, two black balls or shapes each 2 feet in diameter.

(*b*) A vessel employed in laying or in picking up a telegraph cable shall carry in the same position as the white light mentioned in Article 2 (*a*), and if a steam vessel, in lieu of that light, three lights in a vertical line one over the other, not less than 6 feet apart. The highest and lowest of these lights shall be red, and the middle light shall be white, and they shall be of such a character as to be visible all round the horizon, at a distance of at least 2 miles. By day she shall carry in a vertical line one over the other, not less than 6 feet apart, where they can best be seen, three shapes not less than 2 feet in diameter, of which the highest and lowest shall be globular in shape and red in colour, and the middle one diamond in shape and white.

(*c*) The vessel referred to in this Article when not making way through the water, shall not carry the side-lights, but when making way shall carry them.

(*d*) The lights and shapes required to be shown by this Article are to be taken by other vessels as signals that the vessel showing them is not under command and cannot therefore get out of the way.

These signals are not signals of vessels in distress and requiring assistance. Such signals are contained in Article 31.

Article 5. A sailing vessel under way, and any vessel being towed, shall carry the same lights as are prescribed by Article 2 for a steam vessel under way, with the exception of the white lights mentioned therein, which they shall never carry.

Article 6. Whenever, as in the case of small vessels under way during the bad weather, the green and red side-lights cannot be fixed, these lights shall be kept at hand lighted and ready for use, and shall, on the approach of or to other vessels, be exhibited on their respective sides in sufficient time to prevent collision, in such manner as to make them most visible, and so that the green light shall not be seen on the port side nor the red light on the starboard side, nor, if practicable, more than 2 points abaft the beam on their respective sides.

To make the use of these portable lights more certain and easy, the lanterns containing them shall each be painted outside with the colour of the light they respectively contain, and shall be provided with proper screens.

Article 7. Steam vessels of less than 40, and vessels under oars or sails of less than 20 tons gross tonnage, respectively, and rowing boats, when under way, shall not be obliged to carry the lights mentioned in Article 2 (*a*), (*b*) and (*c*) but if they do not carry them they shall be provided with the following lights:—

1. Steam vessels of less than 40 tons shall carry:—

(*a*) In the forepart of the vessel, or on or in front of the funnel, where it can best be seen, and at a hight above the gunwale of not less than 9 feet a bright white light constructed and fixed as prescribed in Article 2 (*a*) and of such a character as to be visible at a distance of at least 2 miles.

(*b*) Green and red side-lights constructed and fixed as prescribed in Article 2 (*b*) and (*c*) and of such character as to be visible at a distance of at least a mile, or a combined lantern showing a green light and a red light from right ahead to 2 points abaft the beam on their respective sides. Such lanterns shall be carried not less than 3 feet below the white light.

2. Small steamboats, such as are carried by sea-going vessels, may carry the white light at a less height than 9 feet above the gunwale, but it shall be carried above the combined lantern, mentioned in subdivision I (*b*).

3. Vessels under oars or sails, of less than 20 tons, shall have ready at hand a lantern with a green glass on one side and a red glass on the other, which on the approach of or to other vessel shall be exhibited in sufficient time to prevent collision, so that the green light shall not be seen on the port side nor the red light on the starboard side.

4. Rowing boats, whether under oars or sail, shall have ready at hand a lantern showing a white light, which shall be temporarily exhibited in sufficient time to prevent collision.

The vessel referred to in this Article shall not be obliged to carry the lights prescribed by Article 4 (*a*) and Article 11, last paragraph.

Article 8. Pilot-vessels, when engaged on their station on pilotage duty, shall not show the lights required for other vessels, but shall carry a white light at the masthead, visible all round the horizon, and shall also exhibit flare-up light or flare-up lights at short intervals, which shall never exceed fifteen minutes.

On the near approach of or to other vessels they shall have their side-lights lighted, ready for use, and shall flash or show them at short intervals, to indicate the direction in which they are heading, but the green light shall not be shown on the port side, nor the red light on the starboard side.

A pilot-vessel of such a class as to be obliged to go alongside of a vessel to put a pilot on board, may show the white light instead of carrying it at the masthead and may, instead of the coloured lights above mentioned, have at hand ready for use a lantern with a green glass on the one side and a red glass on the other, to be used as prescribed above.

A steam pilot-vessel exclusively employed for the service of pilots licensed or certified by any pilotage authority or the Committee of any pilotage district, when engaged on her station on pilotage duty and not at anchor, shall, in addition to the lights required for all pilot boats, carry at a distance of eight feet below her white masthead light a red light visible all round the horizon and of such a character as to be visible on a dark night with a clear atmosphere at a distance of at least two miles, and also the coloured side-lights required to be carried by vessels when under way.

When engaged on her station on pilotage duty and at anchor she shall carry, in addition to the lights required for all pilot boats, the red light above mentioned, but not the coloured side lights.

Pilot-vessels, when not engaged on their station on pilotage duty, shall carry lights similar to those of other vessels of their tonnage.

Article 9.*† Fishing-vessels and fishing-boats, when under way and when not required by this Article to carry or show the lights hereinafter specified, shall carry or show the lights prescribed for vessels of their tonnage under way.

(*a*) Open boats, by which it is to be understood boats not protected from the entry of sea water by means of a continuous deck, when engaged in any fishing at night with outlaying tackle extending not more than 150 feet horizontally from the boat into the seaway shall carry one all-round white light.

Open boats, when fishing at night with outlying tackle extending more than 150 feet horizontally from the boat into the seaway, shall carry one all round white light, and in addition, on approaching or being approached by other vessels, shall show a second white light at least 3 feet below the first light and at a horizontal distance of at least 5 feet away from it in the direction in which the outlying tackle is attached.

(*b*)‡ Vessels and boats, except open boats as defined in subdivision (*a*), when fishing with drift-nets shall, so long as the nets are wholly or partly in the water, carry two white lights where they can best be seen. Such lights shall be placed so that the vertical distance between them shall be not less than 6 feet, and not more than 15 feet, and so that the horizontal distance between them, measured in a line with the keel, shall be not less than 5 feet and not more than 10 feet. The lower of these two lights shall be in the direction of the nets, and both of them shall be of such a character as to show all round the horizon and to be visible at a distance of not less than 3 miles.

Within the Mediterranean Sea and in the seas bordering the coasts of Japan and Korea§ sailing fishing vessels of less than 20 tons gross tonnage shall not be obliged to carry the lower of these two lights; should they however, not carry it, they shall show in the same position (in the direction of the net or gear) a white light, visible at a distance of not less than one sea mile, on the approach of or to other vessels.

(*c*) Vessels and boats, except open boats as defined in subdivision (*a*), when line-fishing with their lines out and attached to or hauling their lines, and when not at anchor or stationary within the meaning of subdivision (*b*), shall carry the same lights as vessels fishing with drift-nets. When shooting lines, or fishing with towing lines, they shall carry the lights prescribed for a steam or sailing vessel under way, respectively.

* This article does not apply to Chinese or Siamese vessels.

† The expression "Mediterranean Sea" contained in sub-sections (*b*) and (*c*) of this article includes the Black Sea and the other adjacent inland seas in communication with it.

‡ Dutch vessels and boats when engaged in the "kol" or handlijne fishing will carry the lights prescribed for vessels fishing with drift-nets.

§ Also, as regards Russian vessels in the seas (excluding the Baltic) bordering the coasts of Russia.

Within the Mediterranean Sea and in the seas bordering the coasts of Japan and Korea* sailing fishing vessels of less than 20 tons gross tonnage shall not be obliged to carry the lower of these two lights! should they, however, not carry it, they shall show in the same position (in the direction of the lines) a white light, visible at a distance of not less than one sea mile, on the approach of or to other vessels.

(*d*) Vessels, when engaged in trawling by which is meant the dragging of an apparatus along the bottom of the sea—

1. If steam vessels, shall carry, in the same position as the white light mentioned in Article 2 (*a*) a tricoloured lantern so constructed and fixed as to show a white light from right ahead to two points on each bow and a green light and a red light over an arc of the horizon from two points on each bow to two points abaft the beam on the starboard and port sides, respectively; and not less than 6 nor more than 12 feet below the tricoloured lantern a white light in a lantern, so constructed as to show a clear uniform and unbroken light all round the horizon.

2. If sailing vessels shall carry a white light in a lantern, so constructed as to show a clear, uniform and unbroken light all round the horizon, and shall also, on the approach of or to other vessels, show where it can best be seen a white flare-up light or torch in sufficient time to prevent collision.

All lights mentioned in subdivision (*d*) 1 and 2 shall be visible at a distance of at least 2 miles.

(*e*) Oyster dredgers and other vessels fishing with dredge-nets shall carry and show the same lights as trawlers.

(*f*) Fishing-vessels and fishing-boats may at any time use a flare-up light in addition to the lights which they are by this Article required to carry and show, and they may also use working lights.

(*g*) Every fishing-vessel and every fishing boat under 150 feet in length, when at anchor, shall exhibit a white light visible all round the horizon at a distance of at least one mile.

Every fishing-vessel of 150 feet in length or upwards, when at anchor, shall exhibit a white light visible all round the horizon at a distance of at least one mile, and shall exhibit a second light as provided for vessels of such length by Article 11.

Should any such vessel, whether under 150 feet in length, or of 150 feet in length or upwards, be attached to a net or other fishing gear, she shall on the approach of other vessels show an additional white light at least 3 feet below the anchor light, and at a horizontal distance of at least 5 feet away from it in the direction of the net or gear.

(*h*) If a vessel or boat when fishing becomes stationary in consequence of her gear getting fast to a rock or other obstruction, she shall in daytime haul down the day-signal required by subdivision (*k*); at night show the light or lights prescribed for a vessel at anchor; and during fog, mist, falling snow, or heavy rain-storms make the signal prescribed for a vessel at anchor. [*See* subdivision (*d*), and the last paragraph of Article 15.]

(*i*) In fog, mist, falling snow, or heavy rain-storms, drift-net vessels attached to their nets, and vessels when trawling, dredging, or fishing with any kind of dredge-net, and vessels line-fishing with their lines out,shall, if of 20 tons gross tonnage or upwards, respectively, at intervals of not more than one minute, make a blast, if steam vessels, with the whistle or siren, and if sailing vessels, with the fog-horn; each blast to be followed by ringing the bell. Fishing vessels and boats of less than 20 tons gross tonnage shall not be obliged to give the abovementioned signals; but if they do not,they shall make some other efficient sound signal at intervals of not more than one minute.

(*j*) All vessels or boats fishing with nets or lines or trawls, when under way, shall in daytime indicate their occupation, to an approaching vessel by displaying a basket or other efficient signal where it can best be seen. If vessels or boats at anchor have their great out they shall, on the approach of other vessels, show the same signal on the side on which those vessels can pass.

The vessels required by this Article to carry or show the lights hereinbefore specified shall not be obliged to carry the lights prescribed by Article 4 (*a*), and the last paragraph of Article 11.

Article 10. A vessel which is being overtaken by another shall show from her stern to such last-mentioned vessel a white light or a flare-up light.

The white light required to be shown by this Article may be fixed and carried in a lantern, but in such case the lantern shall be so constructed, fitted, and screened that it shall throw an unbroken light over an arc of the horizon of 12 points of the compass, viz., for 6 points from right aft on each side of the vessel, so as to be visible at a distance of at least 1 mile. Such light shall be carried as nearly as practicable on the same level as the side-lights.

Article 11. A vessel under 150 feet in length, when at anchor, shall carry forward, where it can best be seen, but at a height not exceeding 20 feet above the hull, a white light in a lantern so constructed as to show a clear, uniform and unbroken light visible all round the horizon at a distance of at least 1 mile.

A vessel of 150 feet or upwards in length, when at anchor, shall carry in the forward part of the vessel, at a height of not less than 20, and not exceeding 40 feet above the hull, one such light, and at or near the stern of the vessel, and at such a height that it shall be not less than 15 feet lower than the forward light, another such light.

The length of the vessel shall be deemed to be the length appearing in her certificate of registry.

A vessel aground in or near a fairway shall carry the above light or lights and the two red lights prescribed by Article 4 (*a*).

* Also, as regards Russian vessels in the seas (excluding the Baltic) bordering the coasts of Russia.

Article 12. Every vessel may, if necessary in order to attract attention, in addition to the lights which she is by these Rules required to carry, show a flare-up light or use any detonating signal that cannot be mistaken for a distress signal.

Article 13. Nothing in these Rules shall interfere with the operation of any special rules made by the Government of any nation with respect to additional station and signal lights for two or more ships of war or for vessels sailing under convoy, or with the exhibition of recognition signals adopted by ship-owners, which have been authorised by their respective Governments and duly registered and published.

Article 14. A steam vessel proceeding under sail only, but having her funnel up, shall carry in daytime, forward, where it can best be seen, one black ball or shape 2 feet in diameter.

Sound-signals for Fog, etc.

Article 15. All signals prescribed by this Article for vessels under way shall be given:—

1. By "steam vessels" on the whistle or siren.

2. By "sailing vessels and vessels towed" on the fog-horn.

The words "prolonged blast" used in this Article shall mean a blast of from 4 to 6 seconds' duration.

A steam vessel shall be provided with an efficient whistle or siren, sounded by steam or some substitute for steam, so placed that the sound may not be intercepted by any obstruction, and with an efficient fog-horn, to be sounded by mechanical means, and also with an efficient bell.* A sailing vessel of 20 tons gross tonnage or upwards shall be provided with a similar fog-horn and bell.

In fog, mist, falling snow, or heavy rain-storms, whether by day or night, the signals described in this Article shall be used as follows, viz.:—

(*a*) A steam vessel having way upon her, shall sound, at intervals of not more than 2 minutes, a prolonged blast.

(*b*) A steam vessel under way, but stopped and having no way upon her, shall sound, at intervals of not more than 2 minutes, two prolonged blasts, with an interval of about 1 second between them.

(*c*) A sailing vessel under way shall sound, at intervals of not more than 1 minute, when on the starboard tack one blast, when on the port tack two blasts in succession, and when with the wind abaft the beam three blasts in succession.

(*d*) A vessel, when at anchor, shall, at intervals of not more than 1 minute, ring the bell rapidly for about 5 seconds.

(*e*) A vessel, when towing a vessel employed in laying or picking up a telegraph cable, and a vessel under way, which is unable to get out of the way of an approaching vessel through being not under command, or unable to manœvre as required by these Rules, shall, instead of the signals prescribed in subdivisions (*a*) and (*c*) of this Article, at intervals of not more than 2 minutes, sound three blasts in succession, viz.: one prolonged blast followed by two short blasts. A vessel towed may give this signal and she shall not give any other.

Sailing vessels and boats less than 20 tons gross tonnage shall not be obliged to give the abovementioned signals, but if they do not, they shall make some other efficient sound-signal at intervals of not more than 1 minute.†

Speed of ships to be Moderate in Fog, etc.

Article 16. Every vessel shall, in a fog, mist, falling snow or heavy rain storms, go at a moderate speed, having careful regard to the existing circumstances and conditions.

A steam vessel hearing, apparently forward of her beam, the fog-signal of a vessel the position of which is not ascertained, shall, so far as the circumstances of the case admit, stop her engines, and then navigate with caution until danger of collision is over.

STEERING AND SAILING RULES.

Preliminary—Risk of Collision.

Risk of collision can, when circumstances permit, be ascertained by carefully watching the compass bearing of an approaching vessel. If the bearing does not appreciably change, such risk should be deemed to exist.

---

* In all cases where the rules require a bell to be used a drum may be substituted on board Turkish vessels or a gong where such articles are used on board small sea-going vessels.

† Dutch steam pilot-vessels, when engaged on their station on pilotage duty in fog, mist, falling snow, or heavy rain storms are required to make at intervals of 2 minutes at most one long blast with the siren, followed after 1 second by a long blast with the steam whistle and again after 1 second by a long blast on the siren. When not engaged on their station on pilotage duty, they make the same signals as other steamships.

Article 17. When two sailing vessels are approaching one another, so as to involve risk of collision, one of them shall keep out of the way of the other, as follows, viz.:—

(*a*) A vessel which is running free shall keep out of the way of a vessel which is close-hauled.

(*b*) A vessel which is close-hauled on the port tack shall keep out of the way of a vessel which is close-hauled on the starboard tack.

(*c*) When both are running free, with the wind on different sides, the vessel which has the wind on the port side shall keep out of the way of the other.

(*d*) When both are running free, with the wind on the same side, the vessel which is to windward shall keep out of the way of the vessel which is to leeward.

(*e*) A vessel which has the wind aft shall keep out of the way of the other vessel.

Article 18. When two steam vessels are meeting end on, or nearly end on, so as to involve risk of collision, each shall alter her course to starboard, so that each may pass on the port side of the other.

This Article only applies to cases where vessels are meeting end on, or nearly end on, in such a manner as to involve risk of collision, and does not apply to two vessels which must, if both keep on their respective courses, pass clear of each other.

The only cases to which it does apply are when each of the two vessels is end on, or nearly end on, to the other; in other words, to cases in which, by day, each vessel sees the masts of the other in a line, or nearly in a line, with her own; and, by night, to cases to which each vessel is in such a position as to see both the side lights of the other.

It does not apply, by day, to cases in which a vessel sees another ahead crossing her own course; or by night, to cases where the red light of one vessel is opposed to the red light of the other, or where the green light of one vessel is opposed to the green light of the other, or where a red light without a green light, or a green light without a red light, is seen ahead or where both green and red lights are seen anywhere but ahead.

Article 19. When two steam vessels are crossing, so as to involve risk of collision, the vessel which has the other on her own starboard side shall keep out of the way of the other.

Article 20. When a steam vessel and a sailing vessel are proceeding in such directions as to involve risk of collision, the steam vessel shall keep out of the way of the sailing vessel.

Article 21. Where by any of these Rules one of two vessels is to keep out of the way, the other shall keep her course and speed.

Note.—When, in consequence of thick weather or other causes, such vessel finds herself so close that collision cannot be avoided by the action of the giving-way vessel alone, she also shall take such action as will best aid to avert collision. (*See* Articles 27 and 29.)

Article 22. Every vessel which is directed by these Rules to keep out of the way of another vessel shall, if the circumstances of the case admit, avoid crossing ahead of the other.

Article 23. Every steam vessel which is directed by these Rules to keep out of the way of another vessel shall on approaching her, if necessary, slacken her speed or stop or reverse.

Article 24. Notwithstanding anything contained in these Rules, every vessel, overtaking any other, shall keep out of the way of the overtaken vessel.

Every vessel coming up with another vessel from any direction more than two points abaft her beam, *i.e.*, in such a position, with reference to the vessel which she is overtaking that at night she would be unable to see either of that vessel's side-lights, shall be deemed to be an overtaking vessel; and no subsequent alteration of the bearing between the two vessels shall make the overtaking vessel a crossing vessel within the meaning of these Rules, or relieve her of the duty of keeping clear of the overtaken vessel until she is finally past and clear.

As by day the overtaking vessel cannot always know with certainty whether she is forward or abaft this direction from the other vessel, she should, if in doubt, assume that she is an overtaking vessel and keep out of the way.

Article 25. In narrow channels every steam vessel shall, when it is safe and practicable, keep to that side of the fairway or mid-channel which lies on the starboard side of such vessel.

Article 26. Sailing vessels under way shall keep out of the way of sailing vessels or boats fishing with nets, or lines, or trawls. This Rule shall not give to any vessel or boat engaged in fishing the right of obstructing a fairway used by vessels other than fishing vessels or boats.

Article 27. In obeying and construing these Rules, due regard shall be had to all dangers of navigation and collision, and to any special circumstances which may render a departure from the above Rules necessary in order to avoid immediate danger.

Sound Signals for Vessels in Sight of one another.

Article 28. The words "short blast" used in this Article shall mean a blast of about one second's duration.

When vessels are in sight of one another, a steam vessel under way, in taking any course authorised or required by these Rules, shall indicate that course by the following signals on her whistle or siren, viz.:—

One short blast to mean, "I am directing my course to starboard."

Two short blasts to mean, "I am directing my course to port."

Three short blasts to mean, "My engines are going full speed astern."

No Vessels under any circumstances to neglect proper precautions.

Article 29. Nothing in these Rules shall exonerate any vessel, or the owner, or master, or crew thereof, from the consequences of any neglect to carry lights or signals, or of any neglect to keep a proper look-out, or of the neglect of any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case.

Reservation of Rules for Harbours and Inland Navigation.

Article 30. Nothing in these Rules shall interfere with the operation of a special rule, duly made by local authority, relative to the navigation of any harbour, river, or inland waters.

*Distress Signals.**

Article 31. When a vessel is in distress and requires assistance from other vessels or from the shore the following shall be the signals to be used or displayed by her, either together or separately, viz.:—

In the daytime—

1. A gun or other explosive signal fired at intervals of about a minute.
2. The International Code signal of distress indicated by N.C.
3. †The distant signal, consisting of a square flag, having either above or below it a ball or anything resembling a ball.
4. A continuous sounding with any fog-signal apparatus.

At night—

1. A gun or other explosive signal fired at intervals of about a minute.
2. Flames on the vessel (as from a burning tar-barrel, oil barrel, etc.).
3. Rockets or shells, throwing stars of any colour or description, fired one at a time, at short intervals.
4. A continuous sounding with any fog-signal apparatus.

AIDS TO MEMORY in four verses, by the late MR. THOMAS GRAY, C.B.

1. *Two Steam Ships meeting.*

When both side lights you see ahead—
Port your helm and show your RED.

2. *Two Steam Ships passing.*

GREEN to GREEN—or, RED to RED—
Perfect safety—Go ahead!

3. *Two Steam Ships crossing.*

Note.—This is the position of greatest danger: there is nothing for it but good look-out, caution and judgment.

If to your starboard RED appear,
It is your duty to keep clear;
To act as judgment says is proper:—
To Port—or Starboard—Back,—or, Stop her.
But when upon your Port is seen
A Steamer's Starboard Light of GREEN
There's not so much for you to do,
For GREEN to Port keeps clear of you.

4. *All ships must keep a good look-out, and Steam Ships must stop and go astern, if necessary.*

Both in safety and in doubt
Always keep a good look-out;
In danger, with no room to turn, Ease her, stop her, go astern.

* If a master of a vessel uses or displays, or causes or permits any person under his authority to use or display, any of those signals of distress, except in the case of a vessel being in distress, he shall be liable to pay compensation for any labour undertaken, risk incurred, or less sustained in consequence of that signal having been supposed to be a signal of distress, and that compensation may, without prejudice to any other remedy be recovered in the same manner in which salvage is recoverable. [Merchant Shipping Act, 1894, section 434 (2).]

† A further distress signal is provided in the International Code of Signals. It is a distant signal consisting of a cone point upwards having either above it or below it a ball, or anything resembling a ball. This signal has not been sanctioned by order in Council under the provisions of section 435 of the Merchant Shipping Act, 1894.

APPENDIX D.

SIGNALS TO BE MADE BY SHIP WANTING A PILOT.

In the daytime.—The following signals, numbered 1, 2, 3 and 4, when used or displayed together or separately, shall be deemed to be signals for a pilot in the daytime, viz.:—

1. To be hoisted at the fore, the Union Jack, having round it a white border, one-fifth of the breadth of the flag; or
2. The International Code Pilotage signal indicated by PT.
3. The International Code Flag S, with or without the Code Pennant over it.
4. The distant signal, consisting of a cone point upwards, having above it two balls or shapes resembling balls.

At night.—The following signals, numbered 1 and 2, when used or displayed together or separately, shall be deemed to be signals for a pilot at night, viz.:—

1. The pyrotechnic light, commonly known as a blue light, every fifteen minutes; or
2. A bright white light, flashed or shown at short or frequent intervals just above the bulwarks, for about a minute at a time.

If a master of vessel uses or displays, or causes or permits any person under his authority to use or display, any of the pilot signals for any other purpose than that of summoning a pilot or uses or causes or permits any person under his authority to use any other signal for a pilot, he shall for each offence be liable to a fine not exceeding twenty pounds. [Merchant Shipping Act, 1894, section 615 (3).]

(7) CHART WORK.

Time allowed, 3 hours.

1. Early one morning during neap tides and about half an hour before high water at Dover, when steering N. 150° W. by Compass, Great Castle Head Lights were observed in line bearing N. 63° E. The log then registered 97½ miles; 16½ minutes later the red sector of Smalls Light was entered and after an interval of 46 minutes the light turned white, log 110. The course was then altered to N. 4° E. by Compass. On this course South Bishop Lt.-H. and Hill 444 (Ramsey Island) were observed in line when abeam. When the log showed 122, the course was altered to N. 63° E. by Compass and soon afterwards Ramsey Hill opened Eastward of North Bishop bearing S. 19° E. When the log showed 146, Strumble Head Lt.-H. bore S. 3° W. by Compass, and Kemmaes Head bore S. 71° E. by the same Compass.

   Project the above traverse, making due allowance for tidal drift as indicated on the chart, and find the position of the ship at the time of leaving the red sector of Smalls Light. Find also the distances from South Bishop and Strumble Head lighthouses when abeam, the total distance made good and the average speed, and also the deviation on each course steered.
2. Find the course to steer by Compass, using deviation card No. 5, in order to counteract the effect of the tidal stream as indicated on the chart 4 hours after high water at Dover, 10th September, 1925, ship steaming 12 knots, to reach Mid Channel Rock Buoy, from the following position:—Smalls Lt.-H., 57°, Barrels Rock, 46°, Grassholm I. (right extreme).
3. On 7th September, 1925, at 06h. 45m., standard time, being off Fishguard, took a cast of the lead and found the depth to be 19 fathoms. Required the depth marked on the chart in the position when the cast was obtained.

APPENDIX F.

(*See* Rule 64.)

EXAMINATION OF A MASTER OR MATE IN STEAM.

The examination is partly *viva voce*, and extends to a general knowledge of the practical use of coal and oil fuel and working of steam engines including turbines and boilers, and of the various valves, fittings, and pieces of machinery connected with them and of the way in which electric lighting is carried out on board ship.

Candidates must:—

(*a*) Have a thorough grasp of the construction of the steam engine and boiler, to enable them to understand the nature and importance of any defect which may be reported to them by the Chief Engineer.

(*b*) Know the names and understand the uses of the various parts of engines and boilers, and their connecting pipes, valves, cocks, etc.

(*c*) Have a knowledge of the strength of materials, of the principal repairs in connection with engines, boilers and pipes, and how these repairs are accomplished.

(*d*) Be able to form an independent opinion as to a breakdown, and the consequent propriety or impropriety of proceeding under steam with temporarily repaired or defective machinery.

(*e*) Understand how to estimate approximately the reduction of fuel required for reduced speed, and be able to satisfy themselves as to the sufficiency of the coal or other fuel on board for the voyage.

(*f*) Have an intelligent grasp of the general run of pipes and connections in the engine-room, the working of cocks, the opening and closing of cocks and valves, and know how mistakes of importance may be made and how best to guard against such mistakes.

(*g*) Be capable of being left in charge of the feeding of a set of boilers, understand the working of the water gauge, and be able to guard against being misled by false indications of the gauge glass.

(*h*) Understand the operations of blowing down and surfacing, the reasons for such practices and the danger which may result from the neglect of them in certain circumstances.

A Master or Mate presenting himself for examination in steam must be understood to have made up for his want of practical experience by reading about the steam engine. He ought, therefore, to show that he intelligently understands the rationale of its action. Under this head he should be able to state approximately the quantity of heat required in the formation of steam, the relation of "latent" heat to "sensible" heat, how much steam can be raised by the combustion of one pound of coal, what horse power measure is, what indicated horse-power is, what is the action of the slide valve, the course of the steam through the engine, the advantage of working expansively, and how the expansive action is shown by the indicator diagram.

He should know the uses of the various parts of the engines and dynamos used for electric lighting, and how they and the cables are fitted in the hull; how wires are jointed, insulated and cased; why it is desirable that they should be led along places which are dry and accessible; what "short circuiting" is and what are the causes which produce it; what is its danger in coal bunkers and petroleum carrying steamers; what are the uses of switches and cut-outs, and why it is so important to prevent short circuiting taking place.

Candidates will be required to give written answers to sixteen out of twenty questions in engineering knowledge. These questions will not be difficult, theoretical, or book questions, but such as any man of ordinary capacity who has a fair amount of practical knowledge of the use and working of the steam-engine ought to answer.

Examiners will require all candidates to fill up a form, Exn. 15*b*, and they will forward it to the Port Officer, Calcutta, with the report of the examination.

If a candidate refers to any book, paper or memorandum, or obtains information from another candidate or any other persons during the examination, he will be treated as having failed, will forfeit his fee, and will be excluded from further examination for such period as the Local Government will determine.

The Examiners will report, in the case of failure, the nature of the question or questions that decided the failure, or the point in the management of the engines or boilers in which the candidate was deficient.

Applicants for the voluntary examination need not necessarily have served on board steamships; all that is required is that they shall have a practical knowledge of the use and working of the steam engine.

Practical knowledge is best gained in the engine-room; and the examination of an officer who does not produce official evidence of service in steamships, and of experience of engines must necessarily be more searching than in the case of one who produces evidence of such service and experience.

The answers to the Questions in Engineering Knowledge are frequently given by candidates as learned by rote from a book. Candidates should, therefore, be asked such *viva voce* questions as will necessitate answers in different words, so as to discover whether they have the root of the matter in them.

A large part of the *viva voce* examination should be conducted on board a steamer, preferably one with which the candidate is unacquainted. He should be told to look about and try to find out the arrangement of the machinery without assistance, and the Examiner should be in the engine-room to see that this independent examination is properly carried out. When the candidate reports that he thinks he knows the arrangement, the Examiner will question him on the uses of the parts, get him to point out the different cylinders, pumps, valves, condenser, etc.; also the dynamo, its field magnets, armature, commutators, brushes cables, etc. The candidate must show that he understands the run of the pipes in the bilges, not necessarily that he has gone over every one of them, but he ought to be directed to trace, at least, one important range of pipes, and to thoroughly satisfy the Examiner that he could be safely trusted to manipulate the valves or cocks in connection therewith. It will not often be practicable for the candidate actually to work engines under steam, but he must satisfy the Examiner that he knows how to do so, and that he is aware of the precautions to be taken in regard to water in the cylinders, etc. It is most important that a candidate should show that, in the event of an accident depriving him of the assistance of Engineers, he knows what to do to safely take his vessel to an anchorage, or to stop the engines and proceed under sail alone.

The examination of a Mate in steam is the same as that of a Master. The knowledge required has no reference to the Mate's position.

The Mate may be examined, but such examination implies that the Mate may one day be a Master, when the possession of the knowledge will be an advantage to him in the discharge of his duties.

APPENDIX G.

(*See* Rule 25.)

SIGHT TESTS.

Details as to the conducts of the tests.

These tests must be conducted under the strict personal supervision of the Examiner. A careful record must be kept of all mistakes made by one candidate both in the letter test and in the lantern test.

Examiner must keep a record of all candidates passed by him for reference when required.

I.—LETTER TEST.

1. **Letter test to be passed first.**—The first test which the candidate is required to undergo is the letter test, and until he has passed this test he must not be allowed to proceed further with the examination.

2. **Apparatus used.**—The letter test to be used for all candidates is that conducted on Snellens' principle by means of sheets of letters.

3. **Object of the test.**—The object of the letter test is to determine whether the candidate can reach a sufficient standard of visual acuteness, or, in other words, to find out whether his eyesight is good or bad.

4. **Standard of vision required.**—Every candidate for a first certificate of competency will be required to possess normal vision. With the exceptions indicated below (*see* paragraph 8), every candidate for a second or higher certificate will be required to possess normal vision.

"Normal vision" is defined, for the purpose of these Regulations, as ability to read correctly nine of the twelve letters in the sixth line and eight of the fifteen letters in the seventh line of a test sheet placed in a good light at a distance of 16 feet from the eye.

The candidate will have the option of using either eye separately or both eyes together.

5. **Spectacles not allowed.**—During the examination in the letter test candidates must not be allowed to use spectacles or glasses of any kind, or any other artificial aid to vision.

6. **Method of testing.**—The test sheets should be hung on the wall, *in a good light, but not in direct sunlight*, of a height of five or six feet from the ground. The candidate should be placed at a distance of exactly 16 feet from the sheets, and exactly opposite them. This distance should be carefully measured, and should never in any circumstances be varied.

One of the sheets should then be exposed, and the candidate should be asked to read the letters on each sheet, beginning at the top and going downwards. Any mistakes which he makes should be carefully noted. If then it is found that he has read correctly at least nine letters in the sixth line and eight letters in the seventh line of a sheet, the candidate may be considered to have normal vision, and should be marked "passed" in the appropriate column of the form of application (Exn. 2 or Exn. 2A, as the case may be).

7. **Passing or failure.**—If at the conclusion of the test the candidate is found to reach the required standard, he may be considered to have passed, and the examiner should proceed with the lantern test. If the candidate fails to reach the standard required for the certificate entered for, he should be tested with at least four sheets, and the Examiner should fill in a Form, Exn. 17b, and should forward it, with any remarks he may wish to make, to the Principal Examiner for his instructions as to whether the candidate is to be regarded as passing or as failing in form vision. Failure to pass the letter test is due to some defect in form vision and the Board are advised that such defects are sometimes curable whenever therefore a candidate fails to pass this test the examiner should advise him to consult an opthalmic surgeon with a view to ascertaining what is the nature of the defect in his form vision and whether it is curable.

8. **Lower standard required in certain cases.**—Candidates who are in possession of certificates obtained before January 1st, 1914, may be regarded as passing letter test if they can read correctly with both eyes at least five of the eight letters in the fifth line of a test sheet.

9. **Tests to be varied.**—The examiner should take care, by varying the order of the test sheets and by every other means in his power, to guard against the possibility of any deception on the part of the candidate.

10. **Result of examination to be reported.**—The result of every examination in the letter test should be reported, in the case of a candidate for a certificate of competency, to Government on Form Exn. 2, and to the Port Officer on Form Exn. 14; and, in the case of a candidate for the sight tests only, to Government on Form Exn. 2A.

II.—LANTERN TEST.

11. **Apparatus.**—A special lantern and a mirror have been provided for this test. The lanterns should be placed directly in front of the mirror, so that the front part of the lantern is exactly ten feet from the mirror. Care should be taken that the lantern is properly placed, that is to say, the lights reflected in the mirror must show clearly when viewed from the position of the candidate on the left of the lantern. The examiner should always satisfy himself that these conditions are fulfilled before commencing the examination.

12. **Darkness adaptation.**—*It is essential that a candidate should be kept in a room which is either completely or partially darkened for at least a quarter of an hour before he is required to undergo this test.*

Before the examination commences the Examiner must satisfy himself that the room in which it is conducted is so darkened as to exclude all daylight.

13. **Method of testing.**—The lantern supplied for the examination is so constructed as to allow one large or two small lights to be visible, and is fitted with 12 glasses of three colours—red, white and green. At the commencement of the examination the Examiner should show to the candidate a series of lights through the large aperture, and should require him to name the colours as they appear to him. Care should be taken in showing the white light to emphasise the fact that the light is not a pure white. If a candidate makes a mistake of calling this light "red" a proper red light should be shown immediately after and the candidate's attention directed to the difference between the two.

After a series of lights through the large aperture has been shown, the examiner should make a complete circuit with the two small apertures, requiring the candidate to name the colours of each set of two lights from left to right. To prevent any possibility of the order in which the lights are arranged from being learnt, the Examiner should at least twice in each circuit go back a varying number of colours.

A record of any mistakes made with either the large aperture or the two smaller apertures should be kept on Form Exn. 17b in accordance with the instructions thereon.

14. **Passing or failure.**—If a candidate with either the large aperture or the two smaller apertures of the lantern mistakes red for green or green for red, he should be considered to have "failed" in the lantern test.

If the only mistake made by the candidate with the lantern, is to call the white light "red" and if after his attention has been specially directed to the difference between the two he makes no further mistake of this nature, he should be considered to have passed in lantern test.

If a candidate makes any other mistake with the lantern, *i.e.*, if he calls white "red" repeatedly or red "white" at all, or confuses green and white, his case should be reported to the Port Officer and he should be told that the decision as to whether he is passed or failed, or a further examination is necessary will be communicated to him in due course. Pending the receipt of the Port Officer's instructions such a candidate should only be allowed to proceed with the remainder of the examination for a certificate of competency on the express understanding that the letter examination will be cancelled in the event of failure in the Sight Tests.

15. **Further examination and appeals.**—If in the cases covered by the preceeding paragraph the Port Officer decides that a further examination is necessary, arrangements will be made for a special examination.

If, however, on the report of the Examiner the Port Officer decides that the nature of the mistakes made shows conclusively that a candidate is so defective as to render him unfit to hold a certificate, the candidate shall be considered to have failed.

In cases where, upon the report of the Examiner, a candidate is failed by the Port Officer, as well as in the cases covered by paragraph 14, Government will be prepared to allow a candidate who is dissatisfied with this decision to appeal for a special examination, subject to the conditions set out in rule 24.

III.—REPORTS.

16. The result of every test should be reported to the Government on the Form Exn. 2, and to the Port Officer on the Form Exn. 14, when the candidate is up for examination for a certificate of competency; and to the Government on the Form Exn. 2A, when the candidate is up for examination in sight test only.

All cases of failure should also be reported to the Port Officer on Form Exn. 17B, containing the record of any mistakes made with the lantern.

Every report relating to such an examination must be signed by the Examiner who conducted the examination.

(*a*) cross bearings of two different objects;

(*b*) two bearings of the same object, the course and distance run between the two bearings being given.

He must understand the reduction of soundings, the variation and deviation of the compass and the way in which to apply such variation and deviation; also the marking, signs, and abbreviations shewn in a chart. He must also have a working knowledge of the International Code of Signals.

3. **Examination in Seamanship.**—He must possess a thorough knowledge of the Rule of the Road as regards both steamers and sailing vessels, their regulation light and fog and sound signals. He must be able to describe the signals of distress and the signals to be made by ships wanting a pilot, and the liabilities and penalties incurred by the misuse of these signals, also the use and management of the rocket apparatus in the event of his vessel being stranded. He must be able to read and write legibly an Indion vernacular language or to read and write legibly English and speak an Indian vernacular language and he must satisfy the Examining Board that he has a sound knowledge of elementary arithmetic, simple and compound, in his own language, up to the standard required in the duties of a master.

2. **Examination in navigation.**—In addition to the qualifications required of a Mate, a candidate for a Master's certificate will be required to find on a chart the course to steer by compass in order to counteract the effects of a given current and to find the distance the ship will make good towards a given point in a given time. He will also be required to find latitude by a meridian altitude of the sun and find compass corrections by amplitude or azimuth and prove that he is familiar with the use of the sextant. He will also be required to work out practically the correction to apply to soundings at a given time and place, to compare with the depth marked on the chart.

3. **Examination in Seamanship.**—In addition to the qualifications required of a Mate, a candidate for a Master's certificate must understand how to rig a sea anchor, and how to get a cast of the lead in heavy weather. Secretary to the Government of Bengal (Offg.).

Draft Rules.

1. Every vessel passing through the line of navigation known as the Madaripur Bhil Channel shall stop at the prescribed toll stations notified in the Schedule attached for the purpose of assessment, or check, of toll charges.

2. For the purposes of these rules, vessels other than rafts, timbers, bamboos or other floating material shall be divided into two classes as below:—

Class I—To include all vessels of the usual native types of build.

Class II—To include all steamers, flats and barges, and such other square built boats as should, in the opinion of the Collector of Tolls, be included.

3. The net tonnage of every vessel of Class I, whether laden or empty, shall, for the purposes of these rules, be determined by the following measurements:—

(A) The product of one-quarter the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel, multiplied by the interior greatest depth from the water-line to the bottom of the vessel, is to be taken as equal to the number of maunds upon which toll shall be levied.

(B) The measurement of the length is to be made in feet, rejecting inches; the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting portions of less than a quarter of a foot.

(C) The maundage on which tollage shall be charged shall be a simple multiple of 12½ maunds, rejecting any remainder by which the maundage, calculated as above, may exceed such simple multiple.

4. For vessels in Class II the tonnage shall be determined as follows:—

The tonnage of steamers shall be the registered tonnage as given in the certificate of the survey of the steamer.

Toll shall be levied on the actual weight of cargo on steamers, flats, barges and other vessels included in this class, as declared in the manifests.

When the registered tonnage of a steamer or the manifest for cargo of a flat is not available, the tonnage will be taken as arrived at under rule 3.

For square built boats the total maundage, as determined under rules for Class I, shall be increased by half, and for steamers one-third of the total maundage shall be deducted for engine space.

5. Every vessel except as exempted under rule 10 shall be furnished at the toll station of entry with a ticket on which the name of the serang, manjhi or other person in charge of the vessel, the date of entry, the maundage of the vessel, the nature and weight of the cargo it contains, the amount of toll charged and the number of days for which the ticket will remain current, shall be entered.

6. This ticket may be demanded and checked by any Navigation Officer while the vessel is within the toll-limits of the Bhil Channel and must be kept on board and at hand for that purpose. The ticket must be given up at the exit toll station. If the ticket is not produced on demand by a Canal Officer, such officer shall assess the amount of toll payable and the vessel will be liable to seizure and detention under the provisions of section 9 of the Act until such sum is realised.

7. Vessels leaving the channel between two toll stations shall obtain a permit for so doing in Form No. 1 from the Toll Collector of the toll station of entry. In such cases the Toll Collector will issue a ticket in the usual form and also collect the same before the vessel is permitted to proceed.

8. A vessel, which has been detained under these rules or under section 9 of the Act, may not be removed from the channel without the order of the Collector of Tolls until the toll due has been paid. During such detention the manjhi, owner or agent must make arrangements for the safety of the vessel and cargo.

9. All tolls are payable on demand and shall be paid at the toll station before a vessel is permitted to proceed. Provided that the Collector of Tolls appointed under section 8 of the Act may, at his discretion, permit vessels belonging to individuals or firms of recognised standing to proceed without prepayment, on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

10. (*i*) In the case of steamers and flats falling under the latter portion of rule 9 a copy of the traffic manifest must be handed in at the exit toll station, a receipt for which in Form No. 2 will be issued by the Toll Collector to the person in charge of the vessel; in such cases no ticket in the usual form will be issued. If the traffic manifest is not produced at the exit toll station the procedure as laid down in rules 6 and 8 will be adopted.

(*ii*) The traffic manifest or the receipt for the same may be demanded by any Navigation Officer while the vessel is within the limits of the Bhil Channels between the Manickdah entrance and Charmaguria.

11. The term "Navigation Officer" as used in rule 6 shall include the Collector of Tolls appointed under section 8 of the Act, and the officer, or the subordinate duly authorised by such officer of the Irrigation Department in charge of the subdivision or section within which the channel is situated.

12. Duplicates of lost tickets will be granted by the Toll Collector who originally issued the tickets on payment of a fee of one-fourth of the amount of toll payable, subject to a maximum of one rupee and eight annas and a minimum of eight annas. The duplicate will be issued only when the Toll Collector is satisfied concerning the identity of the boat.

13. No person shall wilfully or negligently allow a vessel to sink in the channel.

14. (*i*) In every case of a sunken vessel, whether due to negligence or otherwise, the Supervisor and his subordinates shall offer every assistance in removing the same.

(*ii*) If, three days after the occurrence of a wreck, it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the Supervisor and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner, provided that when the wreck obstructs the fairway they shall take action at once to remove the same.

15. When a sunken vessel has been recovered, the Supervisor shall cause notices to be posted at the toll offices, or other prominent places, calling on those concerned to pay the Collector of Tolls all toll or demurrage which may be due, as well as the expenses incurred in the recovery of the vessel and cargo. 18. It is ordered that the following be added as rule 2A to Chapter XXII of the "Rules of the High Court, 1914", with effect from the 1st day of June 1928 :—

2A. (1) The Judge may, when the Commission is not one for examination on interrogatories, order that the Commissioner shall have all the powers of a Court, under Chapter X of the Indian Evidence Act, to decide questions as to the admissibility of evidence, and to disallow any question put to a witness examined under the Commission.

(2) Unless otherwise ordered, the party at whose instance a Commission is ordered to issue under sub-rule (*1*), shall lodge in Court copies of the pleadings in the case and the issues framed, if any, within twenty-four hours of the making of such order, and such copies shall be annexed to the Commission when issued. It shall be made upon summons to the parties concerned, and the Judge after hearing the parties appearing shall make such order as he thinks fit. The order of the Judge in this behalf shall be liable to be questioned on an appeal from the final decree in the suit, in the same manner as if such order was passed during the examination of a witness before the Court itself, but in no other manner.

(5) The cost of any application made under sub-rule (*3*), and of any further examination on Commission that may be directed by the Court, shall be in the discretion of the Judge.

(6) Notwithstanding anything in these rules, the Commissioner, in the event of the person examining pressing for the answer to any question which the Commissioner under sub-rule (*1*) shall have disallowed, may record the question and its answer and shall note his disallowance and the reason for recording the evidence. PART VI.

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[AS INTRODUCED IN THE LEGISLATIVE ASSEMBLY.]

A Bill to remove certain doubts regarding the dissolution of marriages of persons professing the Hindu religion.

WHEREAS it is expedient to remove certain doubts regarding the dissolution of marriages of persons professing the Hindu religion in certain cases; It is hereby enacted as follows:—

Short title, application and extent.

1. (*1*) This Act may be called the Hindu Marriages Dissolution Act, 192 .

(*2*) It applies to all Hindus, and extends to the whole of British India.

Grounds for dissolution of marriage.

2. Notwithstanding any law or custom to the contrary, a Hindu wife shall be entitled to obtain a declaration of the invalidity of her marriage or its dissolution for any of the following reasons, namely:—

(*a*) impotency of the husband;

(*b*) his imbecility;

(*c*) the fact that he was suffering from sanious or ulcerous leprosy.

Saving of other rights.

3. Nothing herein contained shall be deemed to restrict the rights of dissolution of marriages otherwise existing.

STATEMENT OF OBJECTS AND REASONS.

Under the Hindu law the main object of marriage is the procreation of a male offspring. It was so necessary that that result was obtained by the practice of *Niyog*, which provided the wife with a companion when the husband himself was imbecile or impotent. As that practice has fallen into desuetude, it is necessary that wives married to such persons should obtain relief; since if they can no longer practise *Niyog* they should be free to adopt the only honourable course open to them of securing their release from the bondage of such marriages. This is all the more necessary, since under Hindu law both the husband suffering from any of these disabilities and his wife are excluded from all rights in property. It is, therefore, hoped that this measure will give the Hindu wife some relief to which she is so clearly entitled. The Bill is not intended to introduce any innovation in the Hindu law of marriages. If passed it will have the effect of merely restoring the old law laid down by Narad and Vashisth whose Smritis are of the most revered authorities on Hindu law:

"Narad: XII—8. The man must undergo an examination with regard to his virility; when the fact of his virility has been placed beyond doubt, he shall obtain the maiden (but not otherwise).

Ib. 16. For the wife of one who spills his semen, or whose semen is devoid of strength, though they may have discharged their marital duties, another husband must be procured after she has waited for half a year.

Ib. 19. Women have been created for the sake of propagation, the wife being the field, and the husband the giver of the seed. The field must be given to him who has seed. He who has no seed is unworthy to possess the field.

Ib. 24. When a bridegroom goes abroad after having espoused a maiden, let the maiden wait till her menses have passed three times, and then choose another bridegroom.

Ib. 37. Madness, loss of caste, impotency, misery, to have forsaken his relatives (affliction with a chronic or hateful disease, and deformity): these are the faults of a suitor.

Ib. 97. When her husband is lost or dead when he has become a religious ascetic, when he is impotent, and when he has been expelled from caste: these are the five cases of legal necessity, in which a woman may be justified in taking another husband."

(Narad xii—8, 16, 19, 24, 37, 97, 9-S. B. E.; page 166 *et seq.*)

Vashisth—20. And she is called remarried who leaving an impotent, outcast or mad husband takes another lord. (Vashisth XVII—20; 14-S. B. E.-867.)

Amendment of section 37, Act IV of 1869.

9. In the second paragraph of section 37 of the said Act, after the words "as the Court may think reasonable," the following shall be inserted, namely :—

"and it may from time to time vary such order in such manner as having regard to all the facts of the case the Court may deem fit."

STATEMENT OF OBJECTS AND REASONS.

1. A somewhat lengthy statement is required to explain the object of this Bill. The Indian Divorce Act (IV of 1869) was enacted on the lines of the English Divorce Act, 1857, to give effect to some of the recommendations of the Royal Commission of 1850 appointed to inquire into the state of the Law and procedure connected with matrimonial causes in England. That Act was professedly declared to be passed mainly to amend the procedure and not to alter the Law. And it was clear from the debates in both Houses of Parliament that a considerable body of opinion was expressed by eminent lawyers and politicians, including the late Mr. Gladstone, that the Law of Divorce which was sought to be enacted was inadequate and unequal and unfair to the wife. Nevertheless, being the first Act of Parliament on the subject, it proceeded upon very cautious lines leaving intact the pre-existing Law upon which the parties could have sought the intervention of the Ecclesiastical Courts for obtaining their dissolution of marriage.

2. Soon after the enactment of the English Divorce Act, the Government of India took steps to enact a similar Law for this country, and Sir Henry Mayne and Sir Barnes Peacock, the then Chief Justice of Bengal, and others, strongly pressed upon the Government the desirability of ensuring the equality of sexes by giving the wife equality with the husband the right of divorce on the sole ground of adultery, without her being required to prove the additional fact of cruelty. Sir Henry Mayne acknowledged that this view was morally sound, but that as the Indian Legislature were legislating a replica of the English Act in order to ensure the decrees of Indian Courts being given effect to in England, it was necessary that the Laws of the two countries should be identical. *See* Supplement to the Gazette of India, March 6th, 1869, pages 297-299.

3. Since the enactment of the English Divorce Act, the British Dominions have passed similar Acts of their own, but they have, in every case, enlarged the grounds upon which the parties are entitled to obtain the dissolution of their marriages, for example, in the Union of South Africa, the grounds upon which divorce may be granted are malicious desertion, unnatural crimes, perpetual imprisonment, long absence and the refusal of marital privileges; while in the province of Natal, desertion for not less than 18 months is required for the suit. In New Zealand, Queensland, Australia, Tasmania and other colonies similar provisions exist, though they differ in minor details. And similar provisions have found a place in the Statute Laws of all European countries, except Italy and Spain where the ecclesiastical monopoly for granting divorce is still in force. In the United States of America, the Law of Divorce varies, but, in substance, it agrees with that obtaining in other parts of Christendom.

4. As the English Law of Divorce had not kept pace with the march of progress in the civilized countries of the world, a Royal Commission was issued on the 8th November 1909 to examine the Law relating to Divorce and make recommendations. This Commission comprised 14 commissioners, of whom some had to resign in the interim on account of various causes. They submitted their report, the majority comprising 9 commissioners recommending the change embodied in the present Bill, while the minority of 3, headed by the Archbishop of York, were opposed to all reforms, though they admitted the hardship consequent upon the stagnation of English Law which had not kept pace with the current of public opinion elsewhere. They, however, agreed with the majority on the point which had been the subject of acute controversy at the time of the enactment of the first Divorce Act, both in England and in India, to the effect that the wife should be entitled to obtain her divorce on the same ground available to the husband. (*See* Report, page 191.)

5. To give effect to the recommendations of the majority of the Royal Commissioners, Lord Buckmaster introduced a consolidating measure in the House of Lords which was passed by that body by a large majority. It is reported that owing to the congestion of business and other causes the progress of that Bill through the House of Commons has been delayed, with the result that Lord Buckmaster's reforming measure has not yet found a place in the Statute-book, but that the measure was long overdue has been explained in a series of articles written by the Earl of Birkenhead in the English Press, from which the following extracts are taken :—Supporting the 5 additional grounds besides that of adultery, namely: (1) wilful desertion for three years, (2) cruelty, (3) incurable lunacy of 5 years' standing, (4) habitual drunkenness; (5) imprisonment under commuted death sentence, His Lordship wrote as follows :—" I believe that all these additional grounds for divorce may be supported on the ground of *natural justice*, *public expediency* and *State policy*." He then proceeded to justify the additional grounds as follows :—

(1) DESERTION FOR 3 YEARS.

" 6. Deliberate desertion for three years is a grave violation of the marriage tie. The consequences, specially to a deserted wife, if she is poor, are a complete negation of the obligations solemnly undertaken when the marriage was contracted. Such desertion implies adultery on the part of the deserter, but the poor can seldom prove this. Desertion for three years is a cause for divorce which can be proved as a definite fact.

(2) CRUELTY.

"The second cause, that of cruelty, must also obviously destroy the substratum of married life, for it means that one party must go in fear and horror of the other. But, the opposition answer that such a ground of divorce is liable to the gravest kind of abuse, and that cruelty is indefinite and hard to define. The answer is that cruelty has been a subsidiary cause of divorce ever since 1857 and that the Judges have never found any difficulty in defining it. A dependable definition is 'such conduct by one married person to the other party to the marriage as makes it unsafe, having regard to life, limb or health, bodily or mental, for the latter to continue to live with the former'. Such new causes as the Royal Commission proposed to add are of a character easily proved and defined. They are wilful or negligent infection with venereal disease, or forcing a wife to submit to prostitution.

(3) LUNACY.

"The third reason for divorce would be incurable lunacy of five years' standing. This proposal was not accepted by the majority of the Royal Commission so unhesitatingly as the two former, and the whole question requires a more lengthy discussion than I can find space in this article. None the less, I believe the provision to be right in essence. A lunatic cannot marry—why should a lunatic be allowed to continue to be married merely because the lunacy supervenes ?

(4) HABITUAL DRUNKENNESS.

"The fourth cause was Habitual Drunkenness. On this point I will simply quote the Royal Commission as showing how far the vice is a cause for the dissolution of a marriage where the substratum has been destroyed. In the case of a drunken husband, the physical pain of brute force is often added to the mental and moral injury he inflicts on the wife ; moreover, he has power to reduce himself and those dependent upon him to penury. In the case of a drunken wife, neglect of home duties and of the care of the children produce a most deplorable state of affairs. In both cases, the ruin of the children can be traced to the evil parental example. But Lord Phillimore is greatly exercised to maintain such legal unions in the interests of the children.

(5) THE COMMUTED DEATH SENTENCE.

"On the fifth cause, the commuted death sentence, I find it difficult to write in terms of moderation. How the Law of God or the Law of Man can be invoked to chain a wife or a husband to one who has been segregated for ever under these circumstances passes my comprehension. One would require a heart of stone, under a breastplate of steel, to resist such an appeal for freedom. If one party to the marriage is hanged, because a Home Secretary declines to relent, the other party is (even from the most extreme ecclesiastical standpoint) free in an instant to live his or her own life and remarry. Otherwise the innocent partner is chained to disgrace and condemned to lifelong celibacy. But the Bishops and the pious laymen in the House of Lords cheerfully forced through an amendment to Lord Buckmaster's Bill, depriving these wretched people of relief 'because there were so few of them'. The heads of the Christian Church of England seem to think you have to be a majority before you can suffer an injustice.

"All the five additional causes for divorce advocated by the Royal Commission and contained in Lord Buckmaster's Bill, are readily ascertainable by the Law of Evidence. That the new Law would be administered strictly by British Judges, according to the evidence, is a fact which does not admit of dispute. It follows that those, who declare that the passing of such a measure implies promiscuous divorce on grounds of incompatibility of temperament or any other vague cause, have no ground whatever for their assertion."

7. The additional grounds for Divorce embodied in the Bill have, thus, received the highest judicial and legal support. They have been supported by the usages of nations and by the Royal Commission of 1909—1912 and by the verdict of the House of Lords. The equality of the sexes has already been assured by the enactment of the Matrimonial Clauses Act, 1923 (13 and 14 Geo. 5, ch. 19 : Statutes P. 280), and it is possible that the House of Commons may assent to the other provisions of the Bill, in which case the provisions of the present Bill will have received the support of the English Statute. But there is no reason why the amendment of the Indian Statute should be delayed merely because the progress of the English Bill through the House of Commons has been delayed through other causes when the Indian Divorce Act itself contains and is, in fact, an exhaustive code of the Law of Divorce, which must be brought up to date.

8. When the Act of 1869 was passed, it was confined to Christians and its provisions have since been made applicable to those who have contracted marriages under the Special Marriage Act (III of 1872) and under the recent amendment of that Act (XXX of 1923). (*See* section 17 of Act III of 1872.) Section 2 of the Act has, therefore, been amended. Further explanation of the amendments will be found in the Notes on Clauses appended to the Bill.

NOTES ON CLAUSES.

Clause 2.—Two amendments are proposed by this clause to make its provisions expressly conformable to the provisions of the other Acts of the Indian Legislature, namely :—Section 4 of the Indian Christian Marriage Act (XV of 1872) ; and section 17 of the Special Marriage Act (III of 1872). Section 2 of the Act as it stands requires that the petitioner must profess the Christian religion at the time of applying for Divorce under the Act. But under section 4 of the Indian Christian Marriage Act (XV of 1872), marriage is possible "between persons one or both of whom is or are a Christian or Christians", in other words, under that Act, it is legal for a Christian to contract marriage with a non-Christian, and therefore, it follows that it is equally just that a non-Christian petitioner should have the same right of Divorce as a Christian petitioner. The Indian Divorce Act, when enacted, in 1869, was intended to be applicable only to Christians, but its provisions have been extended to those married under the provisions of the Special Marriage Act (III of 1872) and (XXX of 1923). This has been made clear by the opening words of the section as amended by this clause.

Clause 3.—This clause replaces section 10 originally enacted which is admittedly one-sided as regards the right of Divorce in that it permits the husband to divorce his wife on the sole ground of adultery, while the wife cannot divorce the husband except on the ground of adultery of a special character therein mentioned, or of adultery coupled with cruelty or desertion for two years or upwards. The other clauses occurring in the present section were explained by Sir Henry Mayne in his speech in the late Imperial Council as due to his close adhesion to the English Law (Supp. to the Gazette, 6th).

The present clause has been bodily copied from clause 4 of Lord Buckmaster's Bill as passed by the House of Lords, embodying the recommendations of the majority of the Royal Commission. The Commissioners were unanimous on the amendment of the Law so as to ensure mutuality as regards the right of divorce between husband and wife. The clause relating to Rape, Sodomy and Bestiality is taken from the section which the present clause is intended to repeal, though its omission would not materially alter the sense as these acts would presumably constitute cruelty within the meaning of the English Law.

Clause 4 is merely consequential.

Clause 5 is taken from the corresponding clause 5 of Lord Buckmaster's Bill.

Clause 6 is taken from clause 7 of Lord Buckmaster's Bill.

Clause 7 is consequential on the amendment of section 10.

Clause 8 is taken from clause 6 (*b*) of Lord Buckmaster's Bill.

Clause 9 is taken from clause 12 (*d*) of Lord Buckmaster's Bill.

Third Forecast of the Wheat Crop of Bengal, 1927-28.

(NOTE.—On an average of the five years ending 1925-26, the area under wheat in Bengal has represented some 0·4 per cent of the total area under wheat in India. The ratio of the irrigated wheat acreage to total wheat acreage in (*a*) British India and (*b*) in the territory now reported on has, in the five years ending 1925-26, averaged (*a*) 39·0 and (*b*) 14·2 per cent., respectively.)

Character of the season.—Since the issue of the second forecast in February last the crop has greatly improved in the important district of Malda and also in Mymensingh as a result of rainfall in January and February. Elsewhere with the exception of Dinajpur the outturn remains the same as in the second forecast. On the whole, the season was fair for the crop.

Acreage.—According to the estimates of District Officers, the total area sown is 106,600 acres this year as against 129,200 acres in the corresponding forecast of last year.

Outturn.—The provincial outturn as worked out from district estimates is 68 per cent. of the normal as against 81 per cent. in the corresponding forecast of last year.

Taking the normal yield to be 8¾ maunds per acre, the gross yield of the crop for the province is estimated at 23,300 tons this year as against 32,100 tons in the corresponding forecast of last year.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 11th April 1928.

Summary.—During the week good rain was general almost throughout the province. The recent rain has facilitated field operations and benefited the standing crops generally. Sowing of jute and autumn paddy is progressing briskly in East and North Bengal. Distress continues to prevail in parts of Burdwan, Birbhum, Bankura, Nadia, Murshidabad, Dinajpur and Malda. In the latter six districts the number of persons employed on test relief works was 5,136½, 4,321, 1,202, 16,117, 1,919 and 2,541, respectively. The average price of common rice for the province has fallen by about 0·58 per cent. as compared with that of the previous week.

North—Bally khal.
East—River Hooghly.
South—A line as indicated by boundary marks, commencing from the river Hooghly at the eastern extremity of the road (now closed), formerly known as Joya Bibi Lane, but now included within the Central Jute Mill ; thence along the line formerly occupied by that road to the existing Joya Bibi Lane ; thence along the western and northern side of Joya Bibi Lane up to its junction with the bustee road at the south of the Victoria Cotton Mill ; thence along the northern side of that road to its junction with Girish Ghosh Lane ; thence across Girish Ghosh Lane to Chandalpara Lane up to its junction with Grand Trunk Road ; thence along the western side of the Grand Trunk Road up to its junction with Kali Mozumdar Road ; thence along the northern side of Kali Mozumdar Road up to its junction with Dharmatala Lane ; thence along the eastern and northern sides of Dharmatala Lane to a point where it meets the East Indian Railway line at the centre of the up-passenger main line.
West—East Indian Railway line.

2. Two hundred and sixty electric lamps will be installed as shown in the accompanying statement. The Commissioners have decided to enter into an agreement with the Calcutta Electric Supply Corporation, Limited, for the installation of these lamps and for their maintenance at the annual rates Rs. 30-6-10 and Rs. 19-14-1 for each lamp of 60 and 30 watts, respectively, or at a total cost of Rs. 8,552 per annum.

3. The Commissioners at a meeting resolved to meet the charge to be incurred on account of lighting the aforesaid area by imposing an annual lighting rate of 2 per cent. on the annual value of the holdings situated within the area to be lighted. The income to be derived from the lighting tax from the aforesaid area is estimated to be Rs. 8,000. The present difference of Rs. 552 will be met from the general fund until the amount is covered by increased receipts under the head "Lighting tax" owing to the increased valuation of holdings.

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 22nd March 1928 :—

LEGISLATIVE ASSEMBLY BILL NO. 20 OF 1928.

A Bill to provide for putting certain foreign Life Insurance Companies, doing business in India, on a footing of equality with others, in certain respects, by withdrawing certain special facilities now given to the former.

WHEREAS it is expedient to provide for putting certain foreign Life Insurance Companies, doing business in India, on a footing of equality with others, in certain respects, by withdrawing certain special facilities now given to the former ; It is hereby enacted as follows :—

Short title, extent and commencement.

1. (*1*) This Act may be called the Indian Life Assurance Companies (Amendment) Act, 192 .

(*2*) It shall extend to the whole of British India.

(*3*) It shall come into force on the 1st day of January 192 .

Repeal of section 33, Act VI of 1912.

2. Section 33 of the Indian Life Assurance Companies Act, 1912, is hereby repealed. VI of 1912.

STATEMENT OF OBJECTS AND REASONS.

Section 33 of the Indian Life Assurance Companies Act, 1912, exempts certain Insurance Companies from the operation of certain sections of the Act, viz., (*4*), (*5*), (*7*), (*8*), (*9*), (*10*), (*11*), *15*), (*20*), (*21*), and (*37*). The requirements in these sections are wholesome ; and there is not sufficient reason why certain Insurance Companies doing business in India should be exempted from their operation simply because those Companies do business and have an office in the United Kingdom as well as in India The present exemption creates unequal conditions as between Indian and Foreign Insurance Companies. The interests also of the people availing themselves of the system of Life Insurance will be better served by subjecting foreign companies doing business in India to the requirements in the abovementioned sections which are intended to protect those interests.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

We, the undersigned, Members of the Select Committee to which the Bill to regulate marriages of children amongst [the Hindus was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto.

Papers Nos. I and II.

The object of the Bill as introduced in the Legislature was to impose restraint upon the solemnisation of child marriages, and the method adopted was, broadly speaking, that of declaring all marriages of boys or girls below a certain age to be invalid. The Bill has been circulated under the orders of Government and has elicited a strong expression of feeling that it is objectionable, both on religious and on legal grounds, to interfere with the validity of a marriage which has been performed. In our opinion, these objections are at present insuperable, and we have accordingly acted upon a suggestion, which has been widely made, that the Bill should effect its purpose of restraining child marriages, not by declaring such marriages to be invalid, but by imposing punishments upon those who participate in them.

We, therefore, set ourselves the task of recasting the Bill with this object in view. To begin with, we considered the propriety of our action in so materially amending a Bill whose principle had been accepted by the Legislative Assembly in referring it to us, and we came to the conclusion that the principle of the Bill which had been endorsed by the Legislative Assembly was the principle that child marriages should be restrained by legislation, and that it was open to us to vary the method of imposing the restraint from that contained in the Bill to another which is undoubtedly in accord with public opinion and seems to ourselves the only method which is at present expedient. Nevertheless, we do recognise that the substitution in Select Committee of what is formally a new Bill is an unusual step, and we desire that further stages in the Bill should be undertaken deliberately and only after public opinion has been fully elicited on its details.

The Bill, as introduced, applied to Hindus, Jains, Sikhs, Brahmos, Arya Samajists and Budhists and was a measure relating to the validity of marriage. As we propose to amend the Bill by making it a measure imposing criminal penalties on participants in a child marriage, it seems invidious that it should be restricted to these particular communities, since child marriages do occur, though not so frequently, in other communities. We propose, therefore, that the amended Bill should be general in its scope and apply to all classes and communities in British India.

The first provision which required our decision is also the most important, namely, the determination of the ages of boys and of girls below which participation in their marriage should be punishable. After much discussion we decided that this age for boys should be eighteen years. For girls we considered the ages of eleven, twelve and fourteen, and finally, came to the conclusion that we should adopt the age of fourteen. We recognise that these ages will be regarded by many people, whose opinion is entitled to great weight, as being too high; but we also recognise that there is a strong body of opinion, particularly among those who advocate social reform, which will not willingly accept any lower age. We also gave weight to the considerations that there are communities in India among whom the marriage of girls under fourteen years of age is infrequent, and that the backward elements in those communities might regard the fixing of a lower age limit in a statute as a recognition by the State of that age as being a suitable age for marriage, and even an encouragement to adopt it.

These decisions, that the limiting age for a boy should be eighteen and for a girl fourteen, are embodied in sub-clause (*a*) of clause 2 of the Bill as amended by us.

The next important principle to be determined was the interpretation of the phrase "participants in a child marriage"; in other words, which of the possibly numerous persons in any way concerned with a child marriage should be liable to punishment. We decided that the following classes should come within the penal provisions of the Bill, namely:—

(*a*) male adults who marry young girls,

(*b*) persons who perform any essential ceremony of a child marriage, and

(*c*) parents and guardians who promote or permit a child marriage.

Our decisions as regards (*b*) and (*c*) are embodied in clauses 5 and 6 of the Bill.

Our decisions as regards (*a*) were not so simple and were arrived at only after much discussion. To begin with we concluded that it is not expedient to punish a woman who marries a young boy, as cases of this sort are rare, and in most of them the woman is likely to be so young that she is entirely under the control of her parents and should not be made criminally liable. Further, even in such marriages the new Act will not be inoperative, as the other contracting party will be a child, and the guardian of the child and the persons who solemnise the marriage will be punishable.

The first point to be decided as regards male adults was the age at which they should be regarded as responsible for their own actions and therefore criminally liable if they

contract a child marriage. We decided that the ordinary age of majority was a suitable limit in these cases; but we also recognise that young men between the ages of eighteen and twenty-one are still under the influence of their parents to a considerable extent, and we considered it inexpedient that these boys should be sent to jail for undertaking a course of action in which they may not have been entirely free agents. We decided, therefore, that where a boy between the ages of eighteen and twenty-one marries a child he shall be liable to fine, and that where a man above the age of twenty-one marries a child he shall incur the full penalty prescribed for offences under the Act. We have, therefore, provided separately in clause 3 for a fine of Rs. 1,000 for offenders above the age of eighteen years and under twenty-one; and in clause 7 we have made provision that imprisonment shall not be imposed on these offenders under any circumstances. Clause 4 relates to offenders above the age of twenty-one years.

The next point which we decided was the extent of the punishment to be provided generally for offences under the Act, and this we have fixed at simple imprisonment up to one month, fine up to one thousand rupees, or both. These punishments appear in clauses 4, 5 and 6 of the amended Bill.

These decisions cover the substantive law contained in the Bill. We have added to them certain provisions of procedure which are designed to avoid the risk of frivolous prosecutions and harassment. We consider these provisions to be very important safeguards in a measure of social reform directed against a custom so long established and so widely prevalent as that of child marriage. It may be that in future these provisions may be abrogated and the penal provisions of the Act allowed to operate in the normal way, but, for the immediate future at least, we are strongly of opinion that we must go cautiously.

In pursuance of this policy we have provided in clause 8 that only Courts of Presidency Magistrates and District Magistrates shall have jurisdiction in cases concerning child marriages. In clause 9 we have provided that cognisance can be taken only upon complaint made within one year of the solemnisation of the marriage. In clause 10 we have laid down that the Court, unless it dismisses the complaint, shall in all cases make a preliminary inquiry under section 202 of the Code of Criminal Procedure, 1898. In clause 11 we have added a provision requiring the complainant to give security for the payment of any compensation that may be awarded against him under section 250 of the same Code.

In view of the altered machinery of the Bill we have re-drafted the long title and the preamble to the Bill. In sub-clause (*1*) of clause 1 we have also recast the short title, and in sub-clause (*2*) we have provided that the Bill shall extend to all classes in the whole of British India. In sub-clause (*3*), in accordance with the policy of caution which we strongly advocate, we have provided that the Act shall not come into force until the 1st day of April 1930, by which date we trust the provisions of the Bill will be widely known among all classes and communities. To this end we recommend that Government should take exceptional measures in publishing the Act as finally passed.

The Bill, as introduced, was published in the *Gazette of India*, dated the 5th February 1927.

The Bill, though it still carries out its original purpose of imposing restraint upon child marriages, has been so materially altered by us that in our opinion it requires republication. We propose that no further step should be taken to pass the Bill in the present session of the Legislative Assembly and that between now and the next session the Bill should be published as widely as possible in English and in all the important vernaculars. We desire to emphasize strongly this need for deliberation and wide publication.

MINUTES OF DISSENT.

I am glad that the Bill has been recast very much on the lines I suggested when it was considered by the Assembly. But I do not agree with the majority of my colleagues on two important points. The proposal to make marriages of girls below the age of 14 years punishable by law will rightly rouse much opposition among the large body of orthodox Hindus. I urged that the age should be fixed at 11 so that a law the need for which is pressing might be passed with the unanimous support of all sections of the community. If even 12 is fixed as the age marriages below which shall be punishable, it is possible that a section of orthodox opinion may be reconciled to it. But in my opinion in view of the fact that marriage is a religious sacrament among Hindus, and in view of the belief which has prevailed on the question of the age of marriage among them for a very long time, to make a marriage above the age of 12 and below the age of 14 punishable by law will be clearly wrong. I think we should leave the raising of the age of the marriage of girls beyond 12 to the greater spread of education and of ideas of social and physical well-being among the people. Their effects are already visible and should not be ignored.

I am also opposed to imprisonment being awarded as a punishment to any person who offends against the provisions of the proposed law. I expect that if the Government and the public will co-operate to have a knowledge of the provisions of the Act made universally known among the people, the fear of the infliction of a fine which may extend up to a thousand rupees and the opprobrium of being exposed to a prosecution, will act as effective deterrent, to prevent people from celebrating child marriages in contravention of the provisions of the proposed law. In any event, I would not provide imprisonment as an alternative punishment for the first few years of the new legislation.

MADAN MOHAN MALAVIYA.

21st March, 1928.

I wish to make it clear that, while Government accept and support the principle of making the celebration of child marriages a penal offence, they must reserve judgment on some of the provisions of the Bill until they are in possession of the results of the consultation of public opinion recommended in the Report.

J. CRERAR.

I agree, subject to the insertion of the article "the" before the word "marriage" in the 5th line of clause 5.

M. R. JAYAKAR.

I agree, subject to the following propositions:—

(1) In clause 2 (*a*) the age of the female child should be raised to "under sixteen";
(2) Power should be taken to compel the registration of all marriages;
(3) Punishment for those who perform child marriages should be deterrent.

D. CHAMAN LALL.

I think 14 years will be considered too high to be the minimum marriageable age for girls by a large section of the Hindu community. I am aware of the fact that communities like the Mahomedan, the Christian, the Parsi and even a considerable section of the Hindu community to all of whom this Bill has now been made applicable, will regard the declaration of the legal age for marriage of girls below 14 years as a retrograde measure and a possible incentive to reduce the age of marriage in their respective societies. But I am also not oblivious of the very strong opinion in favour of pre-puberty marriage, held by a very large section of the Hindu community. They look upon marriage as a sacrament; and generally speaking, to them, the celebration of marriage does not necessarily mean the consummation of marriage.

We see that the Hindu Mahasabha having within its fold various sections of the Hindu community fixes 12 years as the minimum age for the marriage of girls and so does the All-India Sanatana Dharama Mahasabha representing the most orthodox section of the Hindu community. Its resolution No. 7 passed at its sitting held at Allahabad in January 1928, under the presidency of Pandit Madan Mohan Malaviya, when translated into English will read thus:—

7. (*a*) "In the opinion of this Sanatana Dharama Mahasabha no marriage of a Hindu boy should take place till he is 18 years of age.
(*b*) This Mahasabha exhorts the Hindu community that the marriage of girls should never be celebrated before they have entered upon their 12th year."

But in the subsequent resolution No. 8, it clearly indicates that the consummation of marriage should not take place before the girl attains her 16th year.

The translation of the resolution is as follows :—

8. "In the opinion of this Sanatana Dharama Mahasabha, it is extremely necessary in order to make the community physically and religiously strong, that even when the wedding ceremony has been performed the consummation of marriage should not take place till the girl has attained the age of 16 years."

This measure is the first effort of its kind and I am of opinion that the line of least resistance should be adopted in this matter by all those who want its success. The fixing of minimum age limit has by no means a binding effect on the higher age. For instance, we see that in several Western countries, the age of consent is much below the age in which marriages usually take place. That being so, I think that it is but proper that the views of such a large number of people should not be ignored and that the minimum marriageable age for girls should be fixed at twelve years. If any legal protection be deemed necessary in respect of the consummation of marriage, that might be afforded to the girls by further raising the age of consent. Of course it might be argued that the age of consent clause of the Indian Penal Code is a dead letter. But it must also be recognised that any special legislation if it has to succeed must not be so drastic as to make it wholly unacceptable to a large number of people. I hope, therefore, that those who advocate the raising of the minimum marriageable age of girls higher than 12, would appreciate the difficulties underlying its acceptance and be content with fixing the minimum marriageable age of girls at 12 years. We should wait to see the measure of success that the piece of legislation achieves in this modified form.

DACCA, *the 21st April 1928.* H. D. BANERJI, for *Director of Agriculture, Bengal.*

DEPARTMENT OF AGRICULTURE, BENGAL.

Monthly Weather and Crop Report of Bengal for March 1928.

I. **Character of the season.**—During the month the weather continued dry excepting for light and scattered showers in parts of some North and East Bengal districts. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Ploughing of fields for autumn crops and deep-water paddy was progressing slowly for want of rain. Sowings of jute commenced in the low land tracts of East Bengal. Harvesting of spring crops was approaching completion and planting of sugarcane crops was also carried on.

III. **State of standing crops.**—Vegetables, summer rice and other late spring crops were doing fairly well.

IV. **Prospects and probable outturn.**—The prospects of standing crops were reported to be generally fair except in the affected tracts of West and North Bengal. The outturn of summer rice was estimated at 78 per cent. of the normal.

V. **Damage to standing crops.**—Excepting in parts of West and North Bengal the late spring crops were less affected by drought.

VI. **Condition of agricultural stock.**—The condition of live-stock was, on the whole, fair. Stray cases of cattle-disease were, however, reported from ten districts and from the States of Cooch Behar and Tripura.

VII. **Failure of pasturage and fodder.**—Fodder was reported to be adequate except in parts of Nadia, Murshidabad, Burdwan and Dacca, where it was scarce.

VIII. **Prices of food-grains.**—During the second half of the month the price of common rice of the cheapest quality rose in four districts, fell in nine and remained stationary in the rest of the province. It varied from 4½ seers per rupee at Rangpur to 7 seers per rupee at Chittagong.

IX. **Condition of agricultural population.**—The condition of the agricultural population was fair, on the whole, except in parts of Nadia, Murshidabad, Burdwan, Birbhum, Bankura, Dinajpur and Malda, where distress continued to prevail owing to a partial failure of the winter rice crop. Test relief works continued in parts of Nadia, Murshidabad, Birbhum and Malda.

GOVERNMENT OF BENGAL.

APPOINTMENT DEPARTMENT.

CALCUTTA, THE 25TH APRIL 1928.

RESOLUTION—No. 4212A.

His Excellency the Governor in Council has heard with deep regret of the assassination of Mr. G. H. W. Davies, I.C.S., on the morning of April 20th. Mr. G. H. W. Davies joined the service in October 1910, and after acting as Subdivisional Officer of Serajganj, served as Assistant Settlement Officer during the settlement operations in Midnapore District. After being employed in the Finance Department of the Government of Bengal, he was selected as Joint Secretary of the Indian Industrial Commission. Subsequently he was appointed Deputy Secretary in the Finance Department of the Government of Bengal and later became Deputy Secretary in the Home Department of the Government of India. At the time of his death he had, for a period of one and a half years, been District Magistrate of Chittagong, where he had earned a well-merited popularity. Throughout his service Mr. Davies had given proof of exceptional ability and devotion to duty. His Excellency in Council desires to record his profound regret at the loss of a valuable officer and to convey his sincere condolences to the widow and relatives of Mr. Davies.

By order of the Governor in Council,

W. D. R. PRENTICE,

Chief Secretary to the Government of Bengal.

No. 40 Marine.—The 24th April, 1928.—In exercise of the powers conferred by section 52 of the Inland Steam-Vessels Act, 1917 (I of 1917), the Governor in Council is pleased to make the following rules for the protection of inland steam and motor-vessels from danger by collision, in supersession of the rules published under this Department Notification No. 148 Mne., dated the 23rd August, 1900.

A. CASSELLS,
Secretary to the Government of Bengal.

RULES.

Preliminary.

These rules are applicable to, and shall be followed by persons in charge of, all inland steam-vessels, and all other vessels, hereinafter specified, on all inland waters in Bengal on which steam-vessels ply, provided that rules 8, 21, 22 and 23 shall not apply to steam-vessels plying on the river Hooghly, between a line drawn west of Saugor Island Lighthouse and the northern boundary of the Port of Calcutta.

For the purposes of these rules—

(*a*) a vessel shall be deemed to be "underway" when she is not at anchor or made fast to the shore or aground, and

(*b*) the word "visible" when applied to lights shall mean visible on a dark night with clear atmosphere.

(*c*) The word "steam vessel" shall include any vessel propelled by machinery.

Rules Concerning Lights, etc.

Article 1.—The rules concerning lights shall be complied with in all weathers from sunset to sunrise, and during such time no other lights which may be mistaken for the prescribed lights shall be exhibited.

Article 2.—(*1*) A steam-vessel when underway shall carry—

(*a*) in the forepart of the vessel above the awning roof a bright white light so constructed as to show an unbroken light over an arc of the horizon of 20 points of the compass, so fixed as to throw the light 10 points on each side of such vessel, *viz.*, from right ahead to 2 points abaft the beam on either side, and of such a character as to be visible at a distance of at least 2 miles ;

(*b*) on the starboard side a green light so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to 2 points abaft the beam on the starboard side, and of such a character as to be visible at a distance of at least 1 mile ;

(*c*) on the port side a red light so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to 2 points abaft the beam on the port side, and of such a character as to be visible at a distance of at least 1 mile.

(*2*) The said green and red side-lights shall be fitted with inboard screens projecting at least 3 feet forward from the light, so as to prevent these lights from being seen across the bow.

Article 3.—(*1*) A steam-vessel when towing other vessels which are lashed alongside shall have the white masthead light and the red and green side-lights so placed that they will be visible as set forth in Article 2 (*1*).

(*2*) When vessels are being towed alongside the side-lights prescribed in Article 2 (*1*) (*b*) and (*c*) shall be carried on the outermost side of the outermost vessel on each side. None of the other vessels shall exhibit side-lights.

(*3*) In cases in which a flat or other vessel is being towed by two steam-vessels lashed alongside on each side they shall have the white masthead light and the red and green side-lights so placed that they will be visible as set forth in Article 2 (*1*), *i.e.*, the white light prescribed in Article 2 (*1*) (*a*) shall be carried on the vessel towed, the green and red lights prescribed by Article 2 (*1*) (*b*) and (*c*) being carried by the steam-vessels lashed to the starboard and port sides respectively of the vessel towed. Such steam-vessels together with the vessel towed by them shall be taken as one vessel for the purpose of this rule.

(*4*) A steam-vessel when towing other vessels astern shall, in addition to her side-lights, carry two bright white lights in a vertical line one over the other not less than 3 feet apart in the fore part of the vessel. Each of these lights shall be of the same construction and character as the light prescribed in Article 2 (*a*).

Article 4.—All vessels under oars or sails when under way, and all vessels being towed astern shall not be obliged to carry the lights mentioned in Article 2 (*1*) (*b*) and (*c*) but if they do not carry them they shall, in those cases where there is a mast, carry thereon a white light in a lantern so constructed as to show a clear, uniform and unbroken light visible all round, and in those cases where there is no mast, shall show continuously a similar white light from a conspicuous position so as to be visible all round.

Article 5.—A vessel which is being overtaken by another, shall show from her stern to such last mentioned vessel a white light.

Article 6.—Every vessel, when at anchor, or made fast to the shore or to a jetty or landing stage or to another vessel not underway, shall carry where it can best be seen, a white light in a lantern so constructed as to show a clear, uniform and unbroken light visible all round at a distance of at least 1 mile.

A vessel aground in or near a fairway shall carry the above light.

Article 7.—A steam-vessel using the electric search-light shall on meeting another throw the light broadly on that side of the river which she intends to take. When a steam-vessel makes fast to allow another such vessel to pass, the search-light of the stationary vessel shall be either extinguished or be kept broad on the bank until the moving vessel has passed.

Article 8.—Whenever a red cone or red flag is hoisted by a dredger it shall be taken as a warning by other vessels not to pass her as she is engaged in dredging.

Sound Signals for Fog, etc.

Article 9.—All signals prescribed by this article for steam-vessels underway shall be given on the whistle or siren.

The words " prolonged blast " used in these rules shall mean a blast of from 4 to 6 seconds duration.

A steam-vessel shall be provided with an efficient whistle or siren, sounded by steam or some substitute for steam, so placed that the sound may not be intercepted by any obstruction, and also with an efficient bell.

In fog, mist or heavy rain-storms, whether by day or by night, the signals shall be used in the following manner:—

(*a*) A steam-vessel having way upon her shall sound at intervals of not more than two minutes, a prolonged blast.

(*b*) A steam-vessel underway, but stopped and having no way upon her, shall sound at intervals of not more than two minutes two prolonged blasts, with an interval of about one second between them.

(*c*) A steam-vessel, when at anchor, shall at intervals of not more than one minute, ring the bell rapidly for about five seconds.

Speed of Ships to be Moderate in Fog, etc.

Article 10.—(*1*) Every steam-vessel shall, in a fog, mist or heavy rain-storms, proceed at a moderate speed, having careful regard to the existing circumstances and condition.

(*2*) A steam-vessel hearing apparently forward of her beam, the fog-signal of any other vessel, the position of which is not ascertained, shall, so far as the circumstances of the case admit, stop her engines, and then navigate with caution until danger of collision is over.

General Warning Signals.

Article 11.—One prolonged blast shall be given to convey a warning in the following cases: —

(*a*) When a steam-vessel approaches her destination.

(*b*) To attract the attention of other vessels, especially native craft.

(*c*) On approaching a bend in the channel.

STEERING AND SAILING RULES.

Article 12.—When two steam-vessels are meeting end on, or nearly end on, so as to involve risk of collision, each shall alter her course to starboard so that each may pass on the port side of the other.

This Article only applies to cases where vessels are meeting end on, or nearly end on, in such manner as to involve risk of collision and does not apply to two vessels which must, if both keep on their respective courses, pass clear of each other.

The only cases to which it does apply are when each of the two vessels is end on, or nearly end on, to the other, and by night, to cases in which each vessel is in such a position as to see both the sidelights of the other.

It does not apply, by day, to cases in which a vessel sees another ahead crossing her own course, or by night to cases where the red light of one vessel is opposed to the red light of the other, or where the green light of one vessel is opposed to the green light of the other, or where a red light without a green light, or a green light without a red light, is seen ahead; or where both green and red lights are seen anywhere but ahead.

Article 13.—When two steam-vessels are crossing, so as to involve risk of collision, the vessel which has the other on her own starboard side shall keep out of the way of the other.

Article 14.—When a steam-vessel and a sailing vessel are proceeding in such directions as to involve risk of collision, the steam-vessel shall keep out of the way of the sailing vessel.

Article 15.—Where by any of these rules one of two vessels is to keep out of the way the other shall keep her course and speed.

Provided that when, in consequence of thick weather or other cause, the vessel which should be given way to, finds herself so close that collision cannot be avoided by the action of the giving-way vessel alone, she also shall take such action as will best aid to avert collision.

Article 16.—Every steam-vessel, which is directed by these rules to keep out of the way of another vessel shall, if the circumstances of the case admit, avoid crossing ahead of the other.

Article 17.—Every steam-vessel, which is directed by these rules to keep out of the way of another vessel shall, on approaching her, if necessary, slacken her speed or stop or reverse.

Article 18.—Notwithstanding anything contained in these rules, every steam-vessel overtaking any other shall keep out of the way of the overtaken vessel.

Every steam-vessel coming up with another vessel from any direction more than two points abaft her beam, *i.e.*, in such a position with reference to the vessel which she is overtaking that at night she would be unable to see either of that vessel's sidelights, shall be deemed to be an overtaking vessel; and no subsequent alteration of the bearing between the two vessels shall make the overtaking vessel a crossing vessel within the meaning of these rules or relieve her of the duty of keeping clear of the overtaken vessel until she is finally past and clear.

As by day the overtaking vessel cannot always know with certainty whether she is forward of or abaft this direction from the other vessel she should, if in doubt, assume that she is an overtaking vessel and keep out of the way.

Article 19.—In narrow channels every steam-vessel shall, when it is safe and practicable, keep to that side of the fairway or midchannel which lies on the starboard side of such vessel.

Article 20.—In obeying and construing these rules due regard shall be had to all dangers of navigation and collision, and to any special circumstances which may render a departure from the above rules necessary in order to avoid immediate danger.

Article 21.—When two steam-vessels, with or without flats in tow, meet in a narrow channel or at a place where the presence of a third vessel makes it difficult to pass, the one going against the current shall slacken her speed until the other has passed clear or when meeting at the bend of a narrow river or channel the vessel going against the current shall stop and remain under the point until the other vessel has passed clear.

Exception.—In straight or nearly straight reaches of a river or channel that is so narrow that it will not allow two steam-vessels meeting, with or without flats in tow, to pass each other without one of them stopping and making fast to the bank, the vessel proceeding with the current shall make fast to allow the vessel going against the current to proceed past at a slow speed. If it is necessary to cast off a flat or flats, the vessel going against the current shall drop one flat astern and if there is still insufficient room then the vessel that is made fast shall also cast off one of her flats.

Article 22.—When two vessels meet in large rivers, such as the Brahmaputra or Ganges, where shoals and narrow channels are encountered, the upward steamer proceeding against the current shall stop below the shoal giving the downward steamer proceeding with the current a clear fairway.

Article 23.—No steam-vessel shall attempt to strive or race against another. When steam-vessels are proceeding in the same direction, but with unequal speed, the vessel which is steaming slowest shall in the narrow reaches of a river offer no obstruction whatever by crossing the channel or otherwise to the free passage of the faster vessel, and shall ease and if necessary stop the engines as soon as the faster vessel comes abreast in order to allow her to pass freely. The master or pilot of the faster vessel if intending to pass, shall intimate such approach by a prolonged blast from his steam whistle. But no vessel shall pass another vessel at any of the turning points or bends of a river, or in a part of the channel so narrow that a third vessel could not with safety pass them.

Article 24.—No steam or motor-vessel shall get under way, either from her anchor or from the river bank, and turn across the river when another vessel is seen approaching from either up or down stream at such a distance that it is doubtful whether the approaching vessel can safely pass her before the turning round or crossing of the river is completed.

Article 25.—When two steam-vessels proceeding in opposite directions are likely to meet at the junction of two rivers, the vessel in the wider of the two steams shall not attempt to enter the narrower river, until the vessel in such latter river has passed out.

Sound Signals for Vessels in Sight of one another.

Article 26.—The words "short blast" used in this rule shall mean a blast of about one second's duration.

Every steam-vessel under way shall, when in sight of any other vessel, in taking any course authorised or required by these rules, indicate that course by the following signals on her whistle or siren, *viz.*:—

One short blast to mean, "I am directing my course to starboard."

Two short blasts to mean, "I am directing my course to port."

Three short blasts to mean, "My engines are going full speed astern."

Proper Precautions to be Taken in all cases.

Article 27.—Nothing in these rules shall exonerate the owner, or master, or crew of any steam-vessel from the consequences of any neglect to carry lights or signals or of any neglect to keep a proper lookout, or of the neglect of any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case.

NOTE.—The practice of conning inland steam-vessels from a position alongside of, or between, flats which obstruct the view, will be considered a breach of this article. Navigation should be controlled from a position which gives a clear view ahead and to two points abaft the beam on either side.

Penalty for Disobedience of the Rules.

Article 28.—Any person committing a breach of any of these rules shall, for each offence, be punished with imprisonment for a term which may extend to six months, or with fine which may extend to five hundred rupees, or with both.
